

Akira Miyawaki

Akira Miyawaki (宮脇昭 *Miyawaki Akira*, born 29 January 1928) is a Japanese botanist and expert in plant ecology, specializing in seed and study of forests. He has recreated natural forests from degraded greenfield sites all over the world and has been given a host of awards including the Blue Planet Prize in 2006.^{[1][2]}

Biography

- 1928 : Born 29 January in Okayama
- 1952 : Diploma in biology, Hiroshima University
- 1958-1960 : Visiting researcher under Reinhold Tüxen in Stolzenau, Germany
- 1961 : Doctor of Science, Hiroshima University
- 1961-1962 : Researcher at Yokohama National University
- 1962-1973 : Associate Professor at Yokohama National University
- 1973-1993 : Founding professor of the Institute of Environmental Science and Technology at Yokohama National University
- 1985-1993 : Director of the Institute of Environmental Science and Technology at Yokohama National University
- 1993-... : Professor Emeritus of Yokohama National University
- 1993-... : Director of the Japanese Center for International Studies in Ecology
