

“The potential of coastal mangrove greenbelts to mitigate sea level rise and increasing storm frequency and intensity caused by climate change cannot be over-emphasised. Rehabilitate mangroves we must, but let us follow science-based guidelines.”

Jurgenne Primavera, March 2010

ZSL
LIVING CONSERVATION

ZSL
LIVING CONSERVATION

The Zoological Society of London

Founded in 1826, ZSL is an international science, conservation and education charity (no. 208728), whose mission is to promote and achieve the worldwide conservation of animals and their habitats. ZSL pursues this mission through three main fields of activity:

- Conservation – ZSL's Conservation Programmes department is actively involved in field conservation in over 50 countries worldwide. ZSL's wide-ranging conservation work aims to build capacity and influence policy, to bring direct and sustainable conservation benefits to wild animals and their habitats, with activities typically undertaken by forming partnerships with local organisations and government departments;
- Science – the Institute of Zoology identifies, undertakes and communicates high quality biological research relevant to the conservation of animals and their habitats;
- Education and inspiration – ZSL presents and interprets outstanding living collections of animals at ZSL London Zoo and ZSL Whipsnade Zoo. The zoos receive around 1.5 million visitors a year and are supported by some 250 volunteers.

ZSL's strategic aims are to: undertake and promote relevant high quality zoological and conservation research to help achieve our conservation objectives and to inform and influence conservation policy; encourage and motivate all our stakeholders to support and engage in conservation; and to implement and achieve effective and appropriate in-situ and ex-situ conservation programmes for priority species and habitats.

The Big Lottery Fund

The Big Lottery Fund is the largest distributor of UK Lottery money to good causes. The Big Lottery Fund (BIG) is responsible for delivering 40 per cent of all funds raised for good causes (about 13 pence of every pound spent on a Lottery Ticket) by The National Lottery.

Since June 2004, BIG has awarded over £4.4bn to projects supporting health, education, environment and charitable purposes. Most of our funding is awarded to voluntary and community sector organisations.

BIG is a non-departmental public body sponsored by the Cabinet Office.
