TROPICAL PLANT CATALOG

This catalog is for information only. If you don't see the price - the plant is not for sale.

*Annona glabra*

Family: Annonaceae

Pond Apple, Alligator Apple, Monkey Apple

Origin: West Indies

Pond apple (*Annona glabra*) native to swamplands of the southeastern United States. Although not as tasty as its tropical relatives (usually eaten raw, but sometimes made into jellies and wine), pond apple provides an important food source for wildlife of this region. Pond apple's can stand immense flooding and spend weeks at a time with their roots under water. The pond apple is very useful as a rootstock for other *Annona* species.
