## Letter To Our Customers

### First, thank you for allowing Seeds of Change® to be a part of your organic garden...

As every gardener knows, the rhythm of the garden is dictated by the changing of the seasons. With each new season comes new opportunities in the garden. Our goal at Seeds of Change® is to ensure that you have the best information and highest quality products to make every season healthy, productive and enjoyable.

We only carry 100% certified organic, non-GMO seeds, certified organic pest controls and fungicides, and the highest quality and best performing tools in the marketplace - all with reasonable prices and fair shipping rates. Our website Learning Center has extensive information on what to plant, when to plant and how to plant, all in easy to understand language with photos and videos.

We encourage you to try something new each season. Check out our new and unique offerings to complement your favorite varieties and expand your gardening skills.

Yours in the garden,  
The Seeds of Change Team

## About Our Catalog

### Environmentally conscious...

Seeds of Change® is proud of its commitment to environmental stewardship. Our organic heritage drives all that we do... which is why our catalog is printed on FSC Certified recyclable paper and contains the fewest number of pages possible while still providing a rich and informative experience for our customers. This catalog is your introduction to our complete offering, which you can explore at [seedsofchange.com](http://seedsofchange.com).

### Essential gardening information...

The catalog is meant to be used in conjunction with our website, [seedsofchange.com](http://seedsofchange.com), to give you the fullest gardening experience possible. Our website has detailed planting guides, zone information and articles and videos on how to grow your healthy, naturally harmonious garden. Plus, you can find even more great products online.

## Helping Those In Need

**Happy Belly Farms.** Happy Belly farms in Brighton Colorado is a shining example of why Seeds of Change® continues to be relevant and even more determined than ever to spread the word about organic gardening. We are proud to work with people like Bill Peters, who tends to his fields for the sole purpose of sharing his harvest with food banks and shelters across Denver. Seeds of Change® gladly supplied organic seeds to Happy Belly Farms and proudly lent a hand in the donation of over 2 tons of produce in 2013.

**Image:** Seeds of Change® volunteers building an organic garden at Happy Belly Farms in Brighton, CO. The farm produced over 2 tons of Seeds of Change® organic produce in 2013 that was donated to food shelters throughout the greater Denver area. To learn more visit: [www.seedsofchange.com/donation.aspx](http://www.seedsofchange.com/donation.aspx)

Everything you need to start your organic garden  
and keep it healthy and happy all year long.

# 1989 • Celebrating 25 Years • 2014

## Shamelessly Proud.

For 25 years we have been shamelessly proud of being 100% organic - even before "organics" was officially recognized! Our founders had the vision of creating a pure organic seed company to support the network of innovative farmers and gardeners committed to shifting away from chemical-intensive methods towards growing methods that are in harmony with nature.

As we embark on our next 25 years we want to thank each and every one of you who have planted, nurtured, and shared these seeds and their bounty. In your hands, those first seeds have blossomed into the vibrant and evolving organic gardening movement we know today. We still have a long way to go, but together we can bring meaningful change to the agricultural landscape of America and beyond. And we'll do it one seed at a time...

**Image:** *Seeds of Change® associates at one of our organic farms in Oregon.*

## Our Heritage is in Every Pack.

We strive to be a trusted source of organic seeds and supplies for all.

We work closely with Oregon Tilth (OTCO), the Organic Material Research Institute (OMRI), the United States Department of Agriculture (USDA), the National Organic Program, our farmers and our network of organic seed growers to ensure that our customers have the most satisfying gardening experience possible.

We invite you to share in our heritage by opening a pack of organic Seeds of Change® seeds this gardening season.

## SOWING MILLIONS

SUPPORTING COMMUNITY GARDENING ONE ORGANIC SEED AT A TIME

## SHARE THE GOOD

MAKING A DIFFERENCE THROUGH GIVING

### Part of our mission is to give back so all can enjoy organic gardening.

Part of being a company that believes in change is to provide opportunities for change to all who share our vision.

That is why we are so committed to providing seeds and supplies to organizations that are committed to organic gardening.

Through Sowing Millions, our charitable donation program, we have donated over 150 million seeds to various schools, community gardens, organic farms and non-profit organizations.

If you are part of a charity or non-profit, please visit <http://www.seedsofchange.com/donation.aspx> for more information.

### Seeds of Change® Proudly Supports...

### Share the Good.

Our passion is also expressed in the national Seeds of Change® Share the Good grant program.

In the past two years, we've donated over \$295,000 to sustainable gardening and farming initiatives. In 2014, we're excited to Share the Good by providing even more grants to organizations that practice sustainable farming.

We invite you to be a part of this great movement by visiting Share the Good at the Seeds of Change® facebook page.

## AMARANTH

### ▪ QUICK TIP GROW GUIDE ▪

Direct seed shallowly, 1/8-1/2 inch deep, 8-10 seeds per foot, when soil has warmed and danger of frost has passed. Keep seedbed evenly moist during germination. Harvest young leaves while still tender for salads and cooked greens; cut flowers for bouquets.

### HOPI RED DYE

TA/R ☀️/☀️

This most versatile amaranth is especially prized for its tender baby leaves that add a bright fuchsia pink accent to fresh salads. The plant matures with deep red leaves and stunning flowers that yield nutritious black seeds. The Hopi still use it to make red corn bread.

3-21 days baby • 70 days to flower • 110 days to seed • 4-6 ft. plants

#01804 pack (~250 seeds) \$3.49

#07085 bulk (~2,500 seeds) \$19.99

Hopi Red Dye

### BURGUNDY

TA/R ☀️/☀️

This tall variety sports elegant, burgundy flower plumes that bear plentiful white seeds preferred for grain and flour. The intense reddish purple leaves add color and nutrition to salads. Its size and color make it a wonderful addition to large gardens.

100-110 days to mature • 6-8 ft. plants

#01296 pack (~250 seeds) \$3.49

## ARTICHOKE

### ▪ QUICK TIP GROW GUIDE ▪

Grows best in cool coastal areas with mild winters where they can live up to 5 years. In areas with cold winters, Imperial Star can be grown as an annual. Sow indoors 8 weeks before last frost in 2-4" pots, germinating at 70-80°F. Seedlings should be exposed to ~500 hours of temperatures below 50°F but above freezing to yield in the first year.

### IMPERIAL STAR

TA/R ☀️/☀️

This is the only artichoke that can be grown almost anywhere if you time it right! Each plant will produce 6-8 rounded, nearly spineless, artichokes in the first season on attractive, silvery-blue plants. Steam the artichokes to enjoy their nutty, tender flavor.

Perennial in USDA zones 7-10 • 80-90 days to mature • 4-5 ft. plants

#05679 pack (~30 seeds) \$3.49

#06534 bulk (~250 seeds) \$19.99

Imperial Star

Burgundy

## ASPARAGUS

### ▪ QUICK TIP GROW GUIDE ▪

Choose a permanent location for this long-lived, widely adapted perennial. Be sure soil has warmed to 50°F before planting out your 1-2 year old crowns. In the first year, allow the spears to grow and fern out without harvesting to establish strong plants.

### UC 157 F-I

HP ☀️/☀️

This robust, disease resistant variety from the University of California produces smooth, green, medium diameter spears a bit earlier than other varieties and does best in well-drained soils. Its high quality and yield sets the standard for asparagus from coast to coast. Developed at University of California Riverside in 1978.

#231-07212 (10 crowns) \$19.99

### JERSEY KNIGHT F-I

HP ☀️/☀️

This excellent variety from Rutgers University does well in heavier, clay soils. It produces flavorful, medium to large diameter green spears with purple tips that are delicious steamed or grilled.

#231-07210 (10 crowns) \$19.99

### JERSEY GIANT F-I (NEW)

HP ☀️/☀️

This all male hybrid produces no seeds, only delicious huge green spears that show off purple highlights. Known for very large yields, this variety resists fusarium wilt, crown rot and rust. Performs best in colder climates.

#231-06863 (10 crowns) \$19.99

### PURPLE PASSION (NEW)

HP ☀️/☀️

These burgundy-colored spears with a creamy green interior are sweeter and more tender than green types, but slightly lower yielding. The large diameter, bright purple spears are festive on a raw vegetable platter, but turn green when steamed.

#231-07940 (10 crowns) \$19.99

# BEANS

## ▪ QUICK TIP GROW GUIDE ▪

Always direct-seed beans. Plant in late spring when danger of frost has passed and soils have warmed. Germination is best at 70–85°F. Inoculate seed with *Rhizobium* bacteria prior to planting to enhance nitrogen availability. Avoid water-stress during bloom and pod set.

### GREEN BUSH SNAP

#### FLACO

The slender, pencil-thin appearance of these round green fillet beans adds an elegant, gourmet flair to any plate. Known for superb flavor, these beans remain tender and straight through multiple pickings for a long, rewarding harvest.

55–60 days to mature • 4 in. pods • 18–20 in. plants  
#05681 pack (~50 seeds) \$3.49

Flaco

#### JADE

The deliciously tender pods of this early, productive, heat tolerant bean are a glossy deep green and stay slender and straight on sturdy, upright plants. Their uniform appearance adds a classy touch to the dinner plate and makes them a favorite for canning.

50–55 days to mature • 6–7 in. pods • 16–18 in. plants  
#06992 pack (~50 seeds) \$3.49

Jade

#### BLUE LAKE

Highly regarded for exceptional taste and tenderness, this 1961 All-America Selections winner remains widely popular for its high yields of sweet, round, stringless beans on vigorous plants. The meaty texture makes them a great choice for canning and freezing.

55–60 days to mature • 6–7 in. pods • 15–18 in. plants  
#01479 pack (~50 seeds) \$3.49

Blue Lake

#### PROVIDER SNAP

Enjoy the great flavor and tenderness of this easy-to-grow green bean a full week earlier than other varieties. This reliable, home garden favorite has sturdy, upright plants that are virus and disease resistant, highly productive and do well in most climates even under stress.

50–55 days to mature • 5–8 in. pods • 16–18 in. plants  
#01270 pack (~50 seeds) \$3.49

Provider Snap

### COLORFUL BUSH SNAP BEANS

#### GOLD RUSH

This early yellow wax bean yields a heavy picking of perfect, straight round pods that steam up for delicious side dishes, bean salads and canning. The golden yellow beans hold their tender, tasty quality for a long time in the garden on disease resistant plants.

Gold Rush

50–55 days to mature • 5–5½ in. pods • 16–20 in. plants

#05682 pack (~50 seeds) \$3.49

#### ROYAL BURGUNDY

Gorgeous, deep purple bean pods that look great on vegetable platters are produced early and abundantly on these stocky, insect resistant plants that do well even in cooler conditions. The delicious, round, stringless beans turn green when cooked, but maintain their flavor and meaty texture.

50–55 days to mature • 5–7 in. pods • 15–18 in. plants  
#04500 pack (~50 seeds) \$3.49

Royal Burgundy

#### PURPLE DOVE

RARE These beautiful, glossy, flat-round purple beans have outstanding flavor, firm yet tender texture and a stunning appearance. The productive plants have a slight vining habit, but do not need support. This rare variety is one of our favorites!

50–55 days to mature • 4–5 in. pods • 16–20 in. plants  
#05982 pack (~50 seeds) \$3.49  
#07087 bulk (~500 seeds) \$19.99

Purple Dove

### POLE BEANS & HALF-RUNNERS

#### BLACK-SEEDED BLUE LAKE

This delicious pole bean is far more productive than any bush bean, and can be harvested over several weeks from the vigorous vines. The long, round green beans are stringless, with great flavor and texture perfect for fresh eating as well as freezing or canning.

55–65 days • 6–7 in. pods • 6–8 ft. vines  
#01276 pack (~50 seeds) \$3.49  
#06542 bulk (~500 seeds) \$19.99

Black-Seeded Blue Lake

### ITALIAN SNAP

**RARE** This highly productive, flat Romano type pole bean is widely known to be the best tasting snap bean available, and we agree! The long, wide, flat green beans of this white-seeded strain have a tender, fleshy texture and can be enjoyed plain or accented with butter or balsamic vinaigrette.

**60-70 days to mature • 7-8 in. pods • 6-8 ft. vines**

**#01541 pack (~50 seeds) \$3.49**  
**#07088 bulk (~500 seeds) \$19.99**

Italian Snap

TA 🌱☀️/🌞

### EDAMAME SOYBEANS

#### KENKO (NEW)

Each bright green pod of this brand new edamame soybean has fine white hairs and is filled with 3 mint green beans ideal for steaming and enjoying as a healthy snack. The plants are more upright than typical Japanese varieties, later than Shirofumi, and adapted best for growing in the middle latitude states.

**85 days to mature • 24-30 inch plants • 3-4 inch pods**  
**#07885 pack (~25 seeds) \$3.49**

Kenko

TA 🌱☀️/🌞

### HUTTERITE

**HEIRLOOM** The distinctive light green beans of this Austrian heirloom cook fast (20 minutes or less after soaking), saving time and energy. Known for their delicate, buttery flavor, they make delicious, creamy soups and chowders. The plants are high yielding and early maturing.

**75-85 days to mature • 6-7 in. pods • 24-36 in. plants**

**#01267 pack (~50 seeds) \$3.49**  
**#06537 bulk (~500 seeds) \$19.99**

Hutterite

Mitla Black Tepary

TA 🌱☀️/🌞

### SCARLET EMPEROR

**HEIRLOOM** This classic runner bean produces loads of stringless, fleshy pods full of big, savory, purple-and-black mottled "jewelry beans" delicious eaten as a snap bean, fresh shelled or dried. The vigorous climbing vines with bright scarlet flowers attract bees and hummingbirds.

**90-95 days to mature • 7-9 in. pods • 6-10 ft. vines • 1 in. beans**

**#01540 pack (~50 seeds) \$3.49**  
**#07089 bulk (~500 seeds) \$19.99**

Scarlet Emperor

TA 🌱☀️/🌞

### SHIROFUMI

Boil these green-podded soybeans in salted water to make a popular appetizer or snack (which is called edamame in Japan). They are rich in protein, calcium, and vitamins A and B. Each pod on these prolific plants contains 3-4 delicious beans. Grows best in the northern half of the United States.

**70 days to mature • 4 in. pods • 24-30 in. plants**

**#05181 pack (~25 seeds) \$3.49**  
**#06545 bulk (~250 seeds) \$19.99**

Shirofumi

TA 🌱☀️/🌞

### MITLA BLACK TEPARY

**RARE** An exceptionally flavorful variety from Oaxaca, Mexico that produces small black beans with a nutty-sweet flavor and creamy texture. These quick-cooking beans have higher protein, nutrient and fiber content than standard dry beans and produce well under drought stress.

**60-90 days to mature • 24-36 in. plants**

**#01282 pack (~50 seeds) \$3.49**  
**#06544 bulk (~500 seeds) \$19.99**

### PAWNEE SHELL

**HEIRLOOM** These reliable and productive plants produce deeply marked, brown on beige dry beans similar in appearance to Jacob's Cattle. They retain their markings after cooking and are great for baking or soups. You can also enjoy them at the fresh snap stage.

**85-95 days to mature • 4-5 in. pods • 16-20 in. plants**

**#01879 pack (~50 seeds) \$3.49**  
**#06538 bulk (~500 seeds) \$19.99**

Pawnee Shell

Red Mexican

TA 🌱☀️/🌞

### AZTEC HALF-RUNNER

**RARE** Plump, large white beans make a hearty, thick soup, while the pods are particularly succulent when eaten either raw or cooked. Staking is optional if there is room for the half-runner vines to spread.

**60-75 days to mature • 6-7 in. pods • 3-4 ft. vines • 1 in. beans**

**#01264 pack (~25 seeds) \$3.49**  
**#06543 bulk (~250 seeds) \$19.99**

Aztec Half-Runner

TA 🌱☀️/🌞

### DRY SOUP BUSH BEANS

#### TONGUE OF FIRE (NEW)

**HEIRLOOM** This delicious "borlotto" or "cranberry" bush bean from Italy has gorgeous pink-splashed pods filled with plump meaty beans. Enjoy them freshly shelled or dried for soup. Color fades when cooked.

**75 days to mature • 15-18 inch plants • 6-8 inch pods**  
**#07886 pack (~50 seeds) \$3.49**

Tongue of Fire

TA 🌱☀️/🌞

### RED MEXICAN

**HEIRLOOM** This premium, prolific red-brown dry bean is outstanding for baking and canning because it holds its shape and texture without becoming soggy. This bean has been a prized variety since its introduction in California in 1855.

**85-100 days to mature • 12-15 in. plants**

**#01548 pack (~50 seeds) \$3.49**

### PAINT DRY

A drought tolerant white bean with three distinct yellow eye patterns that is excellent for baking or soups. This is eastern Washington's version of the Yellow Eye bean from New England. It is also popular for making jewelry.

**100-110 days to mature • 16-20 in. plants**

**#04456 pack (~50 seeds) \$3.49**

Paint Dry

TA 🌱☀️/🌞

## BEETS

### ■ QUICK TIP GROW GUIDE ■

Beets are most commonly direct seeded, but may be transplanted. Direct seed beginning in early spring, 2-3 weeks before the last frost, and succession plant every two weeks throughout the growing season for a continuous supply. Keep evenly watered until maturity for the best quality roots.

### SHIRAZ TALL TOP

The lush, fast growing tops of this dual-purpose beet can be selectively cut for salads and steaming even before the roots are ready to harvest. The sweet, dark red roots are incredibly smooth due to their disease resistance. Our best beet for roasting, boiling or canning.

**55-60 days to mature • 3-4 in. roots • 16-18 in. plants**  
**#05182 pack (~150 seeds) \$3.49**

Shiraz Tall Top

### COLORFUL BEET MIX

A rainbow mix of all our favorite beets including sweet deep red, golden, and candy striped roots topped by nutritious bright green, dark green with red ribs, and dark red foliage. Includes Detroit Dark Red, Chioggia, Bull's Blood and Golden Beets.

**55-65 days to mature • 3-6 in. roots • 12-18 in. plants**  
**#06066 pack (~150 seeds) \$3.49**  
**#06547 bulk (~1,500 seeds) \$19.99**

Colorful Beet Mix

## BROCCOLI

### ■ QUICK TIP GROW GUIDE ■

Broccoli may be direct seeded or transplanted. Direct-seed when outdoor temperatures are above 50°F (optimum 60-65°F). Harvest broccoli and side shoots when buds are still small and tightly closed. After you harvest the main central head, tender side shoots will follow for an extended harvest.

### NUTRI-BUD

This tender, delicious, early maturing broccoli is unusually high in free glutamine, a building block of protein and an important healing nutrient. The large central heads are followed by abundant side shoots on these productive, sturdy plants developed by one of our founders.

**55-70 days to mature • 6-8 in. heads • 16-20 in. plants**  
**#01787 pack (~100 seeds) \$3.49**  
**#06553 bulk (~1,000 seeds) \$19.99**

Nutri-Bud

### EARLY GREEN

This early, short season variety yields large, tight heads that mature over a two week period and are followed by succulent side shoots that extend the harvest period even longer. Plant in early spring or fall to enjoy the flavorful florets fresh, steamed or stir-fried.

**60-70 days to mature • 5-7 in. heads • 16-20 in. plants**  
**#01525 pack (~100 seeds) \$3.49**

Early Green

### BELSTAR F-1

Our most reliable, widely adapted hybrid broccoli, suitable for spring, summer and fall planting seasons. The tender, tasty, dark blue-green domed heads are perfect for all uses and the prolific side shoots that follow allow for ample second cuttings.

**65-70 days to mature • 6-8 in. heads • 18-20 in. plants**  
**#05863 pack (~50 seeds) \$3.49**

Belstar F-1

## CALABRESE

**HEIRLOOM** Famous for producing dozens of delicious side shoots all season until hard frost. The small to medium size, blue-green central heads mature at different times for a staggered harvest. This heirloom variety came to the U.S. with Italian immigrants in the 1800s.

**60-90 days to mature • 3-6 in. heads • 18-28 in. plants**

**#01498 pack (~100 seeds) \$3.49**

Calabrese

## SPRING RAAB

Broccoli, turnip, and radish flavors harmonize in this fast growing, cool weather crop that is best eaten raw in salads or lightly sautéed in olive oil. A prized spring treat in Italy, the stems form small buds surrounded by tender young leaves that are all delicious.

**40-60 days to mature • 1-2 in. florets • 12 in. plants**  
**#05392 pack (~100 seeds) \$3.49**

Spring Raab

## SANTEE SPROUTING F-1

This unique variety has burgundy red florets that are great on fresh vegetable platters or in stir-fries. Ideal for mild winter climates (down to 18°F), plant Santee in mid-summer to harvest an abundance of small, sweet spears from late winter into spring.

**72-115 days to mature • 1-2 in. florets • 18-24 in. plants**  
**#05925 pack (~25 seeds) \$3.49**  
**#06554 bulk (~250 seeds) \$19.99**

Santee Sprouting F-1

## BRUSSELS SPROUTS

### ▪ QUICK TIP GROW GUIDE ▪

Best started indoors and transplanted, but may also be direct seeded. Ideal soil temperature for germination is between 65-75°F. Harvest sprouts when they are tightly filled out and firm to the touch. They taste sweeter after being kissed by a few fall frosts.

### NAUTIC F-1 (NEW)

HB 🌱/☀️/🌿

This dependable, cold-hardy hybrid produces stocky towers of tender round Brussels Sprouts sweetened by frosts in the fall. Plant in early August to harvest for your Thanksgiving feast. Can also be grown overwinter in mild winter climates.

95 to mature (140 days overwintered)

#07887 pack (~30 seeds) \$3.49

Nautic F-1

## RED

### RED ACRE

HB 🌱/☀️/🌿

An early red cabbage that produces dense, deep purple, small round heads great for colorful slaws, salads, and cooking. It won't split when planted in the spring, and is one of the best cabbages for winter storage when planted in the late summer for fall harvest.

70-75 days to mature • 2-4 lb.

#05749 pack (~50 seeds) \$3.49

### INTEGRO F-1

HB 🌱/☀️/🌿

This productive hybrid red cabbage yields attractive purple-red, medium-size round heads with sweet flavor and tender, crispy leaves that brighten salads and side dishes. Heads harvested in the fall will keep a couple of months in the root cellar.

90-95 days to mature • 3-5 lb.

#05889 pack (~50 seeds) \$3.49

Red Acre

Integro F-1

## CARROTS

### ▪ QUICK TIP GROW GUIDE ▪

Always direct seed carrots. Seed from early spring through summer, sowing fall carrots 80-90 days prior to the first fall frost date. In mild winter areas, carrots can remain in the ground and be harvested as needed.

### YAYA F-1

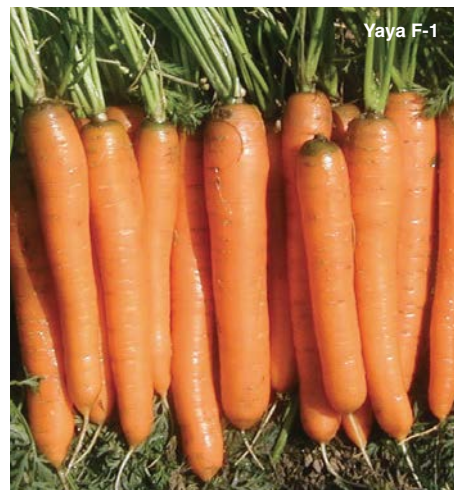

HB 🌱/☀️/🌿

Yaya is widely held to be one of the best tasting sweet Nantes carrots for all seasons. This early, hybrid carrot is bright orange with the classic cylindrical shape, blunt tip, and sweetness characteristic of Nantes type varieties. Strong tops make them easy to pull.

50-55 days to mature • 6 in. roots • 12 in. tops

#05868 pack (~400 seeds) \$3.49

#06564 bulk (~4,000 seeds) \$19.99

Yaya F-1

## CABBAGE

### ▪ QUICK TIP GROW GUIDE ▪

Cabbage is best started indoors and transplanted, but may also be direct seeded. Ideal soil temperature for germination is between 65-75°F. Harvest cabbage when heads are relatively young and firm.

## GREEN

### FAMOSA F-1

HB 🌱/☀️/🌿

The puckered leaves of this savoyed green cabbage make a light, fluffy cole slaw that holds the dressing well. The dark green outer leaves protect the tender, yellow-tinted heart that is great for making crispy salads or sauerkraut.

70-75 days to mature • 4-5 lb. heads

#05763 pack (~50 seeds) \$3.49

Famosa F-1

## CHINESE

### BILKO F-1

HB 🌱/☀️/🌿

The crispy, sweet and tangy, golden blanched leaves of this Napa type Chinese cabbage are great fresh, cooked or pickled for kimchee. This barrel-shaped variety matures later than Nikko but is bigger and has more disease resistance. Plant for summer and fall harvest.

65-70 days to mature • 12 in. x 5 in. heads

#05869 pack (~50 seeds) \$3.49

### CHINA CHOY

HB 🌱/☀️/🌿

A stir-fry staple, this variety of pak choi has succulent thick white stalks and rounded dark green leaves that form a loose, upright rosette, use like celery or for nutritious greens, this cool season crop does best when planted in early spring or late summer.

45 days to mature • 14-18 in. stalks

#01505 pack (~50 seeds) \$3.49

Bilko F-1

China Choy

### SCARLET NANTES

HB 🌱/☀️/🌿

This superbly sweet and crisp fresh eating orange carrot had the highest number of amino acids in our nutritional research. Our improved strain exhibits a uniformly Nantes look and flavor. We consider this the most uniform, open pollinated Nantes available on the market.

65-75 days to mature • 6-8 in. roots

#01462 pack (~400 seeds) \$3.49

#06562 bulk (~4,000 seeds) \$19.99

Scarlet Nantes

**GARDEN CARROT MIX (NEW)** HB 🌱🌟🌟

The best fresh eating orange carrots can be grown from this widely adapted mix of crispy, sweet, cylindrical Nantes-type and long elegant Imperator varieties. Deep, loose soil is needed to grow these long beauties. Kids love 'em!

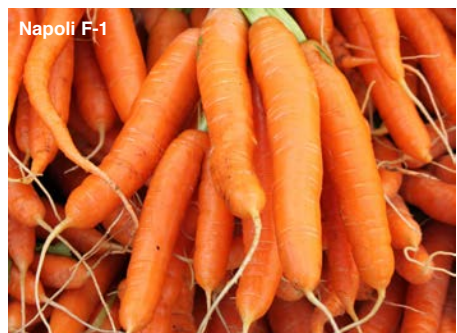

75 days to mature • 6-12 in. roots  
 #06067 pack (~400 seeds) \$3.49

**NAPOLI F-1** HB 🌱🌟🌟

Very early, full sized hybrid carrot with beautiful, bright orange roots and strong, dark green tops. This is the best variety for planting in August and harvesting super-sweet, frost-kissed carrots through the fall and winter. Grow in cold frames to maintain access in the snow.

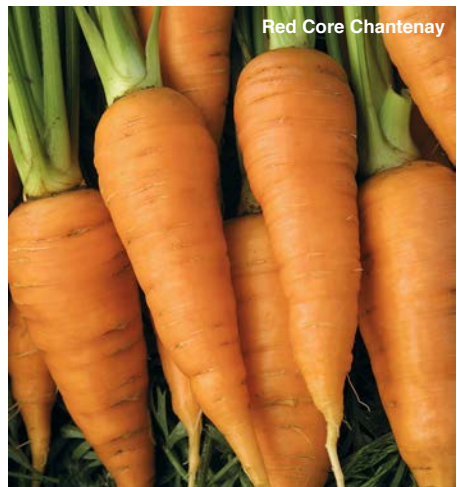

55-60 days to mature • 7-8 in. roots • 10-12 in. tops  
 #05866 pack (~400 seeds) \$3.49  
 #06560 bulk (~4,000 seeds) \$19.99

**RED CORE CHANTENAY** HB 🌱🌟🌟

**HEIRLOOM** Repeatedly rated the best tasting of all carrots in our field trials for its sweet and complex flavor, this classic orange Chantenay strain has broad shoulders and smooth sides that taper to a blunt tip. A favorite since 1929, Red Core keeps all winter in the root cellar.

65-75 days to mature • 5-7 in. roots  
 #01457 pack (~400 seeds) \$3.49  
 #06561 bulk (~4,000 seeds) \$19.99

**COLORS**

**COLORFUL CARROT MIX** HB 🌱🌟🌟

Enjoy the fun and convenience of this mix of our favorite colored carrots for a surprising and beautiful harvest with a range of savory and sweet flavors. Contains St. Valery Orange, Dragon Purple, Yellowstone and White Satin.

70-85 days • 8-10 in. roots  
 #06993 pack (~400 seeds) \$3.49  
 #07094 bulk (~4,000 seeds) \$19.99

**DRAGON** HB 🌱🌟🌟

A strikingly beautiful and refined carrot with deep red-dish-purple skin, orange interior and yellow core that looks great sliced up and arranged on the plate or shredded into salads. The complex, slightly spicy and sweet flavor is especially good cooked or roasted.

70-90 days to mature • 6-8 in. roots  
 #05365 pack (~400 seeds) \$3.49  
 #06559 bulk (~4,000 seeds) \$19.99

**WHITE SATIN F-1** HB 🌱🌟🌟

This beautiful, ivory white carrot has good, complex flavor and crisp texture for fresh eating or cooking. The long roots of this Nantes/Imperator type carrot have blunt tips and strong tops for easy harvesting. Mix it with other colors for a rainbow effect.

70-75 days to mature • 8-9 in. roots  
 #06037 pack (~400 seeds) \$3.49

**YELLOWSTONE** HB 🌱🌟🌟

This solid-yellow Danvers type carrot has broad, square shoulders, a pointed tip and large tops. Its mild, pleasing flavor is almost as sweet as traditional orange carrots and is excellent in stews, roasted or fresh. The vigorous plants yield nice big roots.

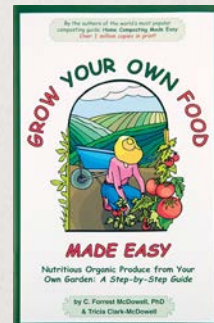

70-75 days to mature • 8-10 in. roots  
 #05690 pack (~400 seeds) \$3.49

**GREAT READS FOR EVERY GARDENER**

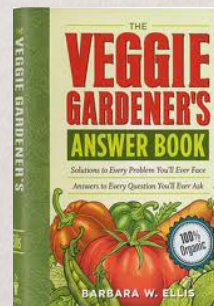

**GROW YOUR OWN FOOD (NEW)**

Easy step-by-step illustrated instructions on raised beds, natural fertilizers, planting, composting, weeding, pest control and more.

**THE VEGGIE GARDENER'S ANSWER BOOK (NEW)**

The Veggie Gardener's Answer Book: Solutions to Every Problem You'll Ever Face - Answers to Every Question You'll Ever Ask. This is a wonderful book for those who want answers to all their gardening questions!  
 #220-07703 \$14.99

## CAULIFLOWER

### ■ QUICK TIP GROW GUIDE ■

*Cauliflower is best started indoors and transplanted. Start spring crops 6 weeks before the last frost date and transplant out 2-3 weeks before the last frost date. Start fall crops 12 weeks before the first fall frost and transplant out 9 weeks before the first frost. Harvest cauliflower when the heads are 6-8 inches across and the curds are still tightly closed.*

### SKYWALKER F-1

Big, solid heads with milky white curds and mild flavor are wonderful fresh, roasted or in soups and curries. Robust plants with erect leaves protect the heads of this mid-late variety that is best planted for harvest in early fall. Late season frost makes this head sweeter.

95-100 days to mature • 6-8 in. heads

#05890 pack (~50 seeds) \$3.49

Skywalker F-1

### VERONICA F-1

The mild, nutty flavor and crunchy texture of this green, Romanesco type cauliflower, is as remarkable as its unique, spiraled appearance. Fresh green florets spiral up to form a cone shaped head for late summer and fall harvest. A great fresh treat even the kids will like.

90-95 days to mature • 6-8 in. heads

#05963 pack (~50 seeds) \$3.49

Veronica F-1

## CELERY

### ■ QUICK TIP GROW GUIDE ■

*Celery is generally started indoors 10-12 weeks before transplanting because it takes a long time to germinate and grow seedlings large enough to plant. Transplant outdoors after the last spring frost when weather is warm and settled, NOTE: Exposure of young seedlings to temps below 55°F over a few days can cause premature bolting. Harden plants by reducing water, NOT temperature, shortly before transplanting.*

### TANGO

Each smooth stalk of this early, productive celery is especially tender, sweet, and never stringy. Tango does well in most U.S. locations, while it excels in northern latitudes. Cut individual stalks for an extended harvest or at the base to harvest the whole plant.

80-85 days to mature • 18-20 in. stalks • Requires abundant water

#05962 pack (~100 seeds) \$3.49

Tango

### EARLY DELL

A tender, early celery with sweet savory flavor for all parts of the U.S. The vigorous plants are disease resistant, with open growth, dark green leaves and tight leaflets. Mature plants hold a long time in the garden for an extended harvest before going to seed.

85-110 days to mature • 16-20 in. stalks

#04451 pack (~100 seeds) \$3.49

Early Dell

### RED VENTURE

Deep red stems with bright green leaves make this beautifully unusual variety stand out. The productive plants produce succulent red stalks with real celery flavor that are much more tender and juicy than other red varieties. Stalks retain their color when cooked.

100-110 days to mature • 16-20 in. stalks

#05768 pack (~100 seeds) \$3.49

Red Venture

## CHARD

### ■ QUICK TIP GROW GUIDE ■

*Chard is most commonly direct seeded, but may be transplanted. Direct seed beginning on the last spring frost date. Ideal soil temperature for germination is 65-75°F. Be careful not to disturb the roots when transplanting. Harvest chard continuously a few leaves at a time starting at the bottom of the plant while the leaves are tender.*

### FORDHOOK

This classic Swiss chard has medium green, savoyed leaves accented with white veins on broad white stems. The healthy greens have a hearty spinach flavor and are delicious steamed or sautéed. This easy-to-grow crop tolerates summer heat as well as cooler fall temperatures.

50-55 days to mature • 16-18 in. leaves

#05927 pack (~100 seeds) \$3.49

#06569 bulk (~1,000 seeds) \$19.99

Fordhook

# CHICORY

## ■ QUICK TIP GROW GUIDE ■

Chicories can be direct seeded or transplanted. Optimum germination occurs at soil temperatures from 60–70°F, but seeds will germinate as low as 45°F. Gradually thin to one plant every 10-12 inches, eating the thinnings. Chicories are a diverse group of leafy salad greens with a pleasant, mildly bitter flavor. They add contrasting colors, flavors and textures to fresh salads; can be grilled or braised.

## ENDIVE & ESCAROLE

### TRÈS FIN MARAÎCHÈRE (FRISÉE)

HB/R ☀️/☀️

This classic French frisée endive forms a heart of finely cut, frilly leaves that are mildly bitter and deliciously crispy in gourmet salad mixes. Tie the heads closed one week before harvest to blanch the center to a creamy white color. Plant for spring or fall harvest for best results.

45–60 days to mature • 8–12 in. heads  
#01151 pack (~150 seeds) \$3.49

Trés Fin Maraîchère

### BELLESQUE

HB/R ☀️/☀️

This curly endive produces ruffled rosettes of broad green leaves with sweet white midribs that are great in European style salads, soups and pasta dishes. Best harvested in fall or overwintered in mild climates for early spring harvest. It can also be grown like baby leaf salad mix.

45–60 days to mature • 10–16 in. heads  
#05091 pack (~150 seeds) \$3.49

Bellesque

### EROS

HB/R ☀️/☀️

The broad green leaves of this early escarole blanch to a creamy yellow at the heart with succulent white midribs and can be grown from summer to fall. The mildly bitter leaves are delicious in Italian white bean soups, braised in olive oil or chopped for crispy fresh salads.

45–50 days to mature • 8–12 in. heads  
#05701 pack (~150 seeds) \$3.49

Eros

## ITALIAN DANDELION

### CATALOGNA FRASTAGLIATA

HB/R ☀️/☀️

This popular Italian “dandelion” has long, narrow, serrated leaves that have an earthy, nutty and slightly bitter flavor. Use the baby leaves in salad mixes or cook the full grown, upright leaves for healthy greens. Can be grown all season, but tastes best in spring and fall.

70–100 days to mature • 10–18 in. tall  
#05692 pack (~150 seeds) \$3.49

Catalogna Frastagliata

## RADICCHIO

### LEONARDO

HB/R ☀️/☀️

This widely adapted radicchio is the best variety to use to get nice solid heads throughout spring, summer and fall. The large round heads are red with white veins, with a mildly bitter flavor. Drizzle with olive oil and grill or use as a gorgeous salad ingredient.

65–125 days to mature • 5–6 in. heads  
#05730 pack (~75 seeds) \$3.49

Leonardo

# COLLARDS

## ■ QUICK TIP GROW GUIDE ■

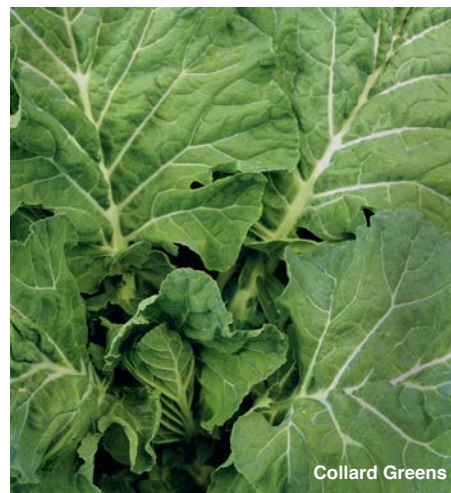

Both heat and cold tolerant, collards are a staple crop that can be grown year-round in the South, although the flavor is sweeter in the cooler months. Collards may be direct seeded or transplanted. Direct-seed when outdoor temperatures are above 50°F (ideally 60–65°F). Harvest collards continuously a few leaves at a time starting at the bottom of the plant - while the leaves are still young and healthy. Leave the newly forming leaves at the top to keep growing.

### COLLARD GREENS

HB ☀️/☀️

Tender, mild-flavored, blue-green collard leaves are full of vitamins and cancer-preventing compounds. Both heat tolerant and frost hardy, the flavor grows sweeter with fall frosts. Slow cook with ham hock and please pass the corn bread!

65–80 days to mature • 3 feet tall  
#06070 pack (~100 seeds) \$3.49  
#07100 bulk (~1,000 seed) \$19.99

Collard Greens

### VATES CHAMPION

HB ☀️/☀️

Earlier than our standard Collard, this robust variety has slick, crumpled, dark blue-green, nutritious leaves that taste sweeter after a few fall frosts. Tolerant of both hot and cold temperature extremes, it can be grown through the summer and thrives in cool weather.

70 days to mature • 3 feet tall  
#05694 pack (~100 seeds) \$3.49  
#06570 bulk (~1,000 seeds) \$19.99

Vates Champion

# CORN

## ■ QUICK TIP GROW GUIDE ■

*Corn is most commonly direct seeded, but can also be started in cell trays indoors for better germination and an earlier crop. Corn seed will rot in cool soil, so wait until soil temperatures reach 60-65°F before direct seeding. Ideal soil temperature for germination is 75-85°F. Harvest when the silks are dried brown and the ears feel plump to the tip.*

Golden Bantam

True Gold

## SWEET CORN

### GOLDEN BANTAM

Two or more slender ears with 8 rows of deep, broad golden kernels bursting with old fashioned corn flavor are produced on each plant of this home garden favorite. This early maturing heirloom succeeds even in short seasons and is best eaten on the day of harvest.

**75-80 days to mature • 5-6 ft. plant • 7-8 in. ears**

**#06079 pack (~50 seeds) \$3.49**

**#07101 bulk (~500 seeds) \$19.99**

### TRUE GOLD

A longtime favorite for its truly delicious, buttery rich flavor, the deep golden yellow kernels hold their sweetness for a few days after harvest. This widely adapted variety is one of the best open-pollinated sweet corns available today.

**75-80 days to mature • 6 ft. plant • 7-8 in. ears**

**#01017 pack (~50 seeds) \$3.49**

### HOOKERS

**HEIRLOOM** This early heirloom sweet corn produces small, flavorful white ears on short plants adapted to best northern and coastal summer climates. If left to mature past the sweet eating stage, the kernels turn dark purple for beautiful fall decorations.

**60-70 days to mature • 4-5 ft. tall • 5-6 in. ears**

**#01018 pack (~50 seeds) \$3.49**

**#06571 bulk (~500 seeds) \$19.99**

## PARCHING

### SUPAI RED PARCH

Dry roast the fully dried ears or kernels of this exceptional parching corn in a skillet to enjoy the nutty, richly sweet flavor of this traditional southwestern snack, often accented with chile lime salt! The soft, chewy red kernels have a distinctive golden starburst pattern.

**105-115 days to mature • 6-7 ft. tall • 8-10 in. ears**

**#01578 pack (~50 seeds) \$3.49**

**#07104 bulk (~500 seeds) \$19.99**

## FLOUR & ORNAMENTAL

### WACHICHU FLINT

**HEIRLOOM** The long slender ears of this vigorous flint corn display a spectacular range of colors and patterns for ornamental use. The kernels have a hard, translucent seed coat and can be ground into a hearty corn meal.

**80-85 days to mature • 4-5 ft. tall • 6 in. ears**

**#04996 pack (~50 seeds) \$3.49**

**#07105 bulk (~500 seeds) \$19.99**

### MANDAN RED

**HEIRLOOM** This versatile flour corn from the Mandan Indians of the North Central Plains area, can be eaten like sweet corn when the kernels are pale yellow and milky. Once the kernels mature to a deep red and dry they are good for parching and easy to grind into corn flour for breads.

**80-85 days to mature • 4-5 ft. tall • 6 in. ears**

**#01455 pack (~50 seeds) \$3.49**

**#07103 bulk (~500 seeds) \$19.99**

## POPCORN

### DAKOTA BLACK

**RARE** A truly unique, long maturing popcorn with nearly black, pointed seeds that make delicious white popcorn with black centers. This variety must dry fully in the field for maximum popping.

**95-105 days to mature • 4-6 ft. tall**

**#05094 pack (~50 seeds) \$3.49**

**#07102 bulk (~500 seeds) \$19.99**

Hookers

Supai Red Parch

Wachichu Flint

# CUCUMBERS

## ■ QUICK TIP GROW GUIDE ■

Cucumbers are almost always direct seeded, but can also be started indoors. Direct seed when soil temperatures reach 65–70°F and all danger of frost has passed. Cucumbers do not like having their roots disturbed, so transplant outside carefully after all danger of frost has passed and weather is warm and settled. Asian varieties must be trellised to produce straight fruit.

## PICKLING

### ADAM F-I

TA 🌧️/☀️/🌞

These small, gherkin-style cucumbers have an even, cylindrical shape, thin, bumpy dark green skin and dense fruit to make nice crispy pickles. The high yielding, disease resistant plants set fruit without pollination, perfect for growing in greenhouses or in urban areas lacking bees.

50–55 days to mature • 2–4 in. fruit

#05893 pack (~10 seeds) \$3.49

#07106 bulk (~100 seeds) \$19.99

### SUMTER

TA 🌧️/☀️/🌞

Perfect for pickling, this disease resistant cucumber produces blocky, slightly tapered, medium green fruit with white spines. Widely adapted for growing in both northern and southern states.

55–60 days to mature • 2–4 in. fruit

#06076 pack (~55 seeds) \$3.49

#07107 bulk (~550 seeds) \$19.99

Sumter

**SLICERS**

**SWEET MARKETMORE**

TA 🍃/☀️/🌸

This rightly popular variety is a consistent producer of delicious, mildly sweet cucumbers with dark green, protective skin. The plants are highly disease-resistant and produce over a long season in hot or cool weather. A selection from Marketmore 76.

60-65 days to mature • 6-8 in. fruit • 4-6 ft. vines  
#01024 pack (~55 seeds) \$3.49

Sweet Marketmore

**BUSH CHAMPION**

TA 🍃/☀️/🌸

**CONTAINER** Abundant and flavorful bright green slicing cucumbers are produced over a long harvest season on compact, virus resistant plants, making this variety a great choice for small gardens or growing in containers.

60-70 days to mature • 8-10 in. fruit  
#01021 pack (~55 seeds) \$3.49

Bush Champion

**SABER F-1**

TA 🍃/☀️/🌸

Vigorous vines produce sweet, juicy, dark green, cylindrical cucumbers ideal for salads and sandwiches. The early, high yielding, disease resistant plants set fruit without pollination, so can be grown in closed greenhouses or in urban areas lacking bees.

45-55 days to mature • 7-9 in. fruit  
#05882 pack (~10 seeds) \$3.49  
#06577 bulk (~100 seeds) \$19.99

Saber F-1

**AKITO F-1**

TA 🍃/☀️/🌸

This main season slicing cucumber produces loads of straight, uniform, dark green fruit with sweet flavor and crisp texture. The disease resistant plants are steady producers for a long summer of satisfying salads.

50-60 days to mature • 6-8 in. fruit  
#05883 pack (~10 seeds) \$3.49  
#07108 bulk (~100 seeds) \$19.99

Akito F-1

**SPECIALTY**

**ARMENIAN**

TA 🍃/☀️/🌸

**HEIRLOOM** This unusual yet attractive heirloom cucumber thrives in hot weather and stays crisp and sweet even when the fruit is large. The thin, light green, ridged skin protects the crispy fruit with mild flavor reminiscent of its close relative, the honeydew melon.

60-70 days to mature • 12-18 in. fruit  
#01180 pack (~55 seeds) \$3.49  
#06575 bulk (~550 seeds) \$19.99

Armenian

**PLATINUM (NEW)**

TA 🍃/☀️/🌸

This improved, white-skinned cucumber from Cornell University has gotten rave reviews for its sweet, mild flavor and crispy texture from our test farms around the country. The healthy vines produce an abundance of pale green to white cucumbers for slicing and salads.

65 days to mature • 3-5 foot vines • 5-7 inch fruit  
#07888 pack (~55 seeds) \$3.49

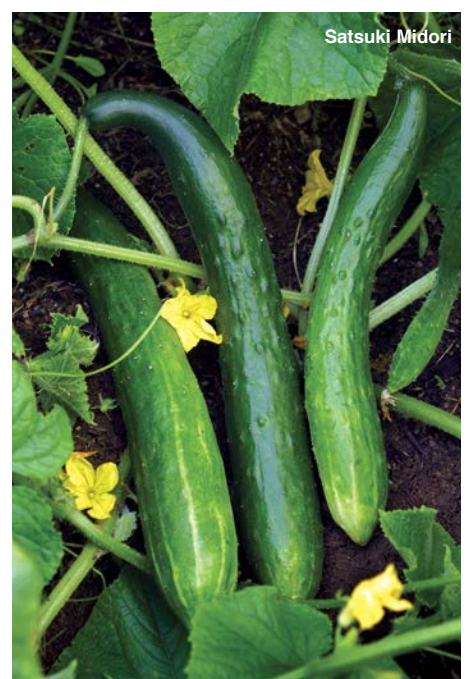

Platinum

**SATSUKI MIDORI**

TA 🍃/☀️/🌸

**RARE** The refreshing flavor of this rare Asian variety is extremely delicious and never bitter. The long, slender fruits have tender, dark green skin and few seeds. Trellis the vines for straight fruit or enjoy the equally delightful curved fruits that form on the ground.

60-70 days to mature • 10-16 in. fruit  
#04997 pack (~55 seeds) \$3.49  
#06578 bulk (~550 seeds) \$19.99

Satsuki Midori

# EGGPLANT

## ▪ QUICK TIP GROW GUIDE ▪

*Eggplant thrives in hot, humid climates. It is a cold sensitive, heat loving crop and requires a long, warm growing season for successful production. A heavy feeder, it is best grown on fertile, sandy-loam soils with a pH of 6–6.8. Harvest by cutting from the plant when fruits have developed color, but are still firm to the touch and glossy. Eggplant can be baked, roasted, pickled, mashed or dried.*

### JAPANESE PICKLING

Sweet, mild flavored and exceptionally tender, these slender, slightly curved, vibrant purple eggplants are great for quick stir-fries and pickling. The early maturing plants reward even cool climate gardeners with an abundant harvest.

70-75 days to mature • 10-16 in. long • 1-2 in. diameter fruit

#01257 pack (~20 seeds) \$3.49

Japanese Pickling

### VITTORIA

An early maturing and productive eggplant, Vittoria produces gorgeous, purple black, tear-drop shaped fruits with mild flavor and firm texture. Great for grilling or pan frying.

65-75 days to mature • 30-36 in. plants • 2-3 in. diameter fruit

#05776 pack (~20 seeds) \$3.49

#07113 bulk (~200 seeds) \$19.99

Vittoria

### IMPERIAL BLACK BEAUTY

The plump, slightly lobed, rich flavored fruits of this heirloom are a beautiful, shiny purple black and are typically used for making Eggplant Parmesan. Still popular since its introduction in 1910.

80-85 days to mature • 24-30 in. plants • 4-5 in. diameter fruit

#01660 pack (~20 seeds) \$3.49

#07109 bulk (~200 seeds) \$19.99

Imperial Black Beauty

### ROSA BIANCA

A gorgeous white-and-pink blushed, Italian heirloom variety with a delicate, mild flavor, creamy consistency, and no bitterness. Considered one of the best for all uses by gourmets and gardeners alike, fruits can grow to the size of footballs in hot climates.

80-90 days to mature • 4-6 in. long • 4-5 in. diameter fruit

#01543 pack (~20 seeds) \$3.49

#06579 bulk (~250 seeds) \$19.99

Rosa Bianca

### LOUISIANA LONG GREEN

The mildly sweet, elongated pale green fruits of this southern heirloom are sometimes called green bananas. These high quality eggplants are excellent for ratatouille. This variety needs a long, hot growing season for best results and good yields.

95 days to mature • 7-9 in. long fruit • 18-24 in. plant

#04758 pack (~20 seeds) \$3.49

Louisiana Long Green

# FENNEL

## ▪ QUICK TIP GROW GUIDE ▪

*Also called finocchio, bulbs are delicious roasted and can also be thinly sliced or shredded for salads. Does best during the cool weather of spring and fall and can be succession planted from spring to fall in cool summer climates. If transplanting, be careful not to disturb the roots or the plants will bolt.*

### ZEFA FINO

This classic bulbing fennel was introduced from Italy over 100 years ago and produces slightly elongated, flat bulbs with sweet anise flavor that are dreamy roasted on the grill with a drizzle of olive oil. Let some go to flower to attract beneficial insects.

USDA zones 4-9 • 80-90 days to mature

#01032 pack (~100 seeds) \$3.49

Zefa Fino

## GARLIC

### ■ QUICK TIP GROW GUIDE ■

*Softneck varieties are more widely adapted and heat tolerant, are good for braiding, and store up to 10 months. Hardneck varieties are generally more winter hardy if planted early to allow for good root growth before the soil freezes. Plant in fall after the first frost, 4-6 weeks before your ground freezes.*

SHIPS SEPTEMBER 2014 - OCTOBER 2014

ORDERS SHIP ON A WEEKLY BASIS

SHIP TO CONTINENTAL US ONLY

VARIETIES MAY VARY CHECK SEEDSOFCCHANGE.COM FOR MORE INFORMATION

### A. EARLY ITALIAN PURPLE

Large bulbs with numerous cloves wrapped in white skin with purple stripes. Vigorous, widely adapted plants are relatively heat tolerant, store well, and are good for braiding. This softneck is widely grown in the "Garlic Capital" of Gilroy, CA.

#231-06473 (1/2 lb.) \$12.49

#231-06474 (1 lb.) \$19.99

### B. ITALIAN LATE

Light colored wrappers cover the fat, round cloves of this flavorful garlic that is good for braiding. The extra-tight skin makes this variety especially good for long storage. It is smaller and later to mature than Early Italian Purple, but it keeps longer, so plant both for a longer harvest.

#231-06985 (1/2 lb.) \$12.49

#231-06986 (1 lb.) \$19.99

### C. NOOTKA ROSE

This heirloom garlic from San Juan Island has a strong, pungent flavor. The medium to large size bulbs each have 15-24 cloves which are streaked red on mahogany beneath the white outer wrapper. This variety has a beautiful appearance when braided & stores for several months.

#231-06983 (1/2 lb.) \$12.49

#231-06984 (1 lb.) \$19.99

### D. SILVER ROSE

Smooth, bright white bulb wrappers protect the beautiful rose-colored cloves of this long-storing variety. The softnecks and white bulbs make this a great variety for braiding. Very popular in Western and Southern U.S., France and Italy.

#231-06475 (1/2 lb.) \$12.49

#231-06476 (1 lb.) \$19.99

### INCHELIUM RED

Discovered on the Colville Indian Reservation in WA, this vigorous strain has a mild, lingering flavor that sharpens in storage. The large, 3 inch diameter bulbs form 9-18 cloves per bulb and can be stored for several months.

#231-06981 (1/2 lb.) \$12.49

#231-06982 (1 lb.) \$19.99

### ELEPHANT

As its name suggests, Elephant garlic is much larger than regular garlic, with mild, sweet flavor. Grow it the same way as regular garlic, but use it fairly soon after harvest because it does not keep as long. The individual cloves can be as large as a whole bulb of regular garlic, requiring less peeling.

#231-06987 (1/2 lb.) \$12.49

#231-06988 (1 lb.) \$19.99

### ULTIMATE GARLIC PRESS/SLICER (NEW)

The Ultimate Garlic Press/Slicer features two compartments, one for pressing and crushing garlic and the other for slicing garlic thin with a simple squeeze. Includes cleaning tool and measures 7.5".

#220-07727 \$24.99

### TERRA COTTA GARLIC BAKER (NEW)

Our terra cotta garlic baker is a delight to use and makes unbelievably smooth baked garlic. Measures 5-1/2 inches in diameter.

#220-07739 \$12.99

## GOURDS

### ■ QUICK TIP GROW GUIDE ■

*Best direct seeded 2-3 weeks after the last spring frost when weather is warm and settled. Plant seed 1 inch deep, 3 seeds grouped together every 24 inches. If possible, allow gourds to dry completely on the vine outdoors.*

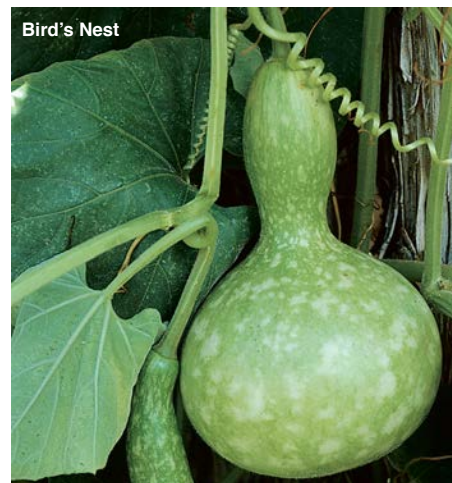

### BIRD'S NEST (BOTTLE)

These gourds have slender, straight or curved necks atop a bulbous base. The 1/2" thick skin dries to a hard tan shell perfect for making cups, bowls, and bird houses. Vigorous vines spread to 20 ft. and need a long hot growing season to mature.

110-120 days to mature • 7-14 in. long fruit

#01670 pack (~20 seeds) \$3.49

# GOURMET GREENS

## ■ QUICK TIP GROW GUIDE ■

*Lettuces and greens are cool season crops and grow best at 60–70°F, but can be planted starting in early spring when daytime temperatures are above 50°F. Plant small sections every three weeks for continuous harvests. Clear cut leaves about an inch above the growing point to allow for even regrowth. Regrows a few times depending on the season.*

### ARUGULA

#### ARUGULA (ROQUETTE) HA/R

**HEIRLOOM** This essential salad green produces nutty, slightly bitter flavored, deeply lobed leaves that get spicy as they get older. Arugula adds zest to salad mixes, or try using it instead of basil to make a savory pesto with sweet almonds for pasta or appetizers.

35–45 days to mature • 3–6 in. leaves

#01028 pack (~500 seeds) \$3.49

#06535 bulk (~5,000 seeds) \$19.99

Arugula

#### SYLVETTA (ITALIAN RUSTIC) HA/TP/R

This tender perennial arugula has a slightly sharp, peppery flavor. Sylvetta thrives in cold weather and is especially suited to growing in protected winter conditions. The plants are more open, smaller and slower growing with more deeply cut leaves than standard arugula.

USDA zones 6–10 • 45–55 days to mature • 3–5 in. plants

#04751 pack (~500 seeds) \$3.49

#07115 bulk (~5,000 seeds) \$19.99

Sylvetta

### SPECIALTY

#### UPLAND CRESS HA

This easy-to-grow, dryland version of watercress forms dark green rosettes of succulent leaves that are great on cucumber and cream cheese sandwiches. This plant is sometimes referred to as “creasy greens” by those below the Mason-Dixon line.

45–60 days to mature • 6–10 in. plants

#05697 pack (~300 seeds) \$3.49

Upland Cress

#### MAGENTA SPREEN LAMBSQUARTERS TA/R

**HEIRLOOM** A wild plant related to spinach with tangy sweet-sour flavor and striking, color-splashed leaves of lilac, purple and magenta on green. Beautiful for microgreens and salads, and delicious steamed, this plant will reseed itself for care-free harvest every spring.

25–35 days to mature • 8–14 in. plants

#01154 pack (~250 seeds) \$3.49

Magenta Spreen Lambsquarters

### MUSTARDS

#### MIZUNA HA

The succulent, pointed, feathery leaves of this mild, rarely spicy, Asian mustard are a standard ingredient in salad and braising mixes. Vigorous and cold hardy, cut the leaves above the base and they will regrow quickly for multiple harvests late into the fall.

21 days to baby • 45 days to mature

#01050 pack (~250 seeds) \$3.49

#### GREEN WAVE HA

Spicy and hot when fresh, the vibrant green, deeply frilled, finely cut leaves of this mustard mellow when cooked. The upright plants do not bolt to seed in the heat as quickly as most others. Harvest the tender baby leaves for salad and use the mature leaves for cooking.

21 days to baby • 45 days to mature

#05092 pack (~250 seeds) \$3.49

#### RED GIANT HA

An extremely attractive, flavorful mustard with large reddish-purple tinted leaves that are prized for baby salad and braising mixes. This variety is highly productive, slow to bolt to seed, and extremely winter hardy.

21 days to baby • 55 days to mature

#04469 pack (~250 seeds) \$3.49

Green Wave

Red Giant

#### OSAKA PURPLE HA

The large rounded purple leaves of this Japanese mustard are beautiful and brightly spicy. Try placing a fillet of steamed fish on top of a bed of these leaves as a substitute for wasabi. It is best planted as a cool weather crop and can also be used as a companion plant to repel aphids.

21 days to baby • 45 days to mature

#01051 pack (~250 seeds) \$3.49

Osaka Purple

#### TATSOI (SPOON) HA

This attractive, miniature Oriental vegetable forms rosettes of dark green, spoon-shaped leaves with a delicate, mild flavor for salads or stir-fries. Plant in early spring or fall for the biggest and best plants. The cold hardy plants can be harvested even after snowfall.

21 days to baby • 50 days mature

#01572 pack (~250 seeds) \$3.49

Mizuna

Tatsoi

## HORSERADISH

### ■ QUICK TIP GROW GUIDE ■

Choose a permanent location for this long-lived perennial. Plant root cuttings within a week of receipt and after danger of frost has passed. Create a furrow 6" deep. Place roots 18" apart in the furrow and cover with 2-3 inches of soil. Wait until plants are 1 year old to make your first harvest.

## HORSERADISH

Make your own sweet and hot horseradish sauce. Our certified organic root cuttings will get you started with your own patch of this long-lived, easy to grow perennial.

USDA Zones 3-8 • Ships April-June

#231-06900 (5 roots) \$24.99

Horseradish

## KALE

### ■ QUICK TIP GROW GUIDE ■

Kale is a cold hardy and prolific producer of nutritious greens. Use baby leaves raw in salads or sauté or steam mature leaves. Kale may be direct seeded or transplanted. Direct-seed when outdoor temperatures are above 50°F (optimum 60-65°F). Harvest kale continuously a few leaves at a time starting at the bottom of the plant while the leaves are still young and healthy.

## RED RUSSIAN (NEW)

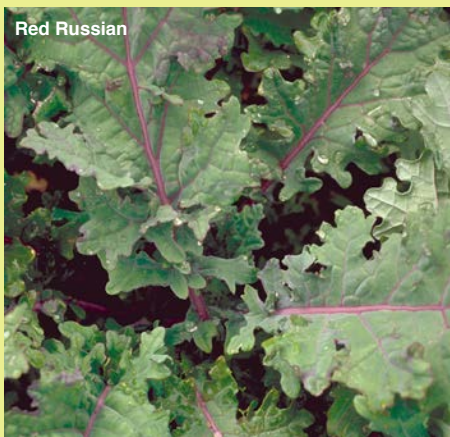

**HEIRLOOM** The smooth supple, blue-green leaves of this heirloom kale is accented with pretty purple-red veins. Sweeter and more tender than other kales during warm summer weather, it also tolerates winter cold. Plant in spring and fall for healthy greens all year long.

60-70 days to mature • 24-30 in. plants

#01033 pack (~150 seeds) \$3.49

#06584 bulk (~1,500 seeds) \$19.99

Red Russian

## TRUE SIBERIAN

This fast growing, exuberant kale has large, frilly, blue-green leaves that are particularly delicious when sweetened by fall frosts. As its name suggests, this hearty variety withstands cold winter weather and is slow to bolt to seed in summer making this a good year round crop.

60-70 days to mature • 24-30 in. plants

#01034 pack (~150 seeds) \$3.49

#06585 bulk (~1,500 seeds) \$19.99

True Siberian

## DINOSAUR (LACINATO) (NEW)

**HEIRLOOM** The dark blue-green leaves of this popular, cold-hardy kale are valued for their high nutritional content. Delicious and tender when steamed or sautéed, the flavor gets even sweeter after a few hard frosts. Plant in spring and fall for cool season greens.

70 days to mature • 24-30 in. plants

#07889 pack (~150 seeds) \$3.49

Dinosaur

## HEALTHY KALE MIX (NEW)

A mix of our favorite kale varieties so you can grow a steady supply of these healthy greens spring, fall and winter. Includes Dinosaur, Red Russian, True Siberian and curly kales.

70 days to mature • 24-30 in. plants

#07822 pack (~150 seeds) \$3.49

Healthy Kale Mix

## LEEKs

### ■ QUICK TIP GROW GUIDE ■

Leeks are widely adapted but grow best in cool, moderate climates. Leeks have a shallow root system and require consistent soil moisture. Seed summer leeks in early spring, about 4-6 weeks before average last frost date, or in mid to late summer for a fall planting to overwinter. As plants grow taller, hill up soil around the shafts to produce long, blanched shafts.

## SCOTLAND

**HEIRLOOM • RARE** The Scottish heritage in this winter hardy leek goes back many generations. These short-shanked plants have wonderful sweet flavor and tender texture perfect for creamy potato-leek soup. Plant in fall to overwinter for early spring harvest.

85-90 days to mature • 110 days overwinter • 6-8 in. shafts

#01826 pack (~350 seeds) \$3.49

Scotland

## PONCHO

This high quality summer variety produces savory, white-shafted leeks that are shorter and later to mature than King Richard. Start both in early spring for successive harvest. Their mild onion-like flavor is delicious in summer potato salads, vegetable dishes and French leek tarts.

100-110 days to mature • 6-8 in. shafts

#01349 pack (~350 seeds) \$3.49

Poncho

King Richard

## KING RICHARD

This fast growing, early variety sets the standard for mild flavored summer leeks. The white shafts can be a foot long before the first, light green leaf.

75-85 days to mature • Up to 12 in. shafts

#06454 pack (~350 seeds) \$3.49

# LETTUCE

## ▪ QUICK TIP GROW GUIDE ▪

*The essential base for most fresh salads, lettuce comes in a range of greens and reds, as well as different head types that offer contrasting leaf shapes and textures between tender and crispy-crunchy. Lettuce is a cool season crop and grows best at 60–70°F, but can be planted in early spring as soon as the soil can be worked. Use shade cloth when sowing in hot weather. Plant head lettuces every three weeks for continuous harvests.*

### GREEN LEAF

#### **SIMPSON BLACK-SEEDED** HA 🌱/☀️/🌿

**HEIRLOOM** Introduced in 1850, this heirloom variety has large, crumpled, light green leaves. The succulent inner leaves blanch almost white, and are sweet, never bitter. Fast growing, early, and adaptable, it stands up to heat and drought for spring, summer and fall planting.

**28 days to baby • 50 days to mature • 12-14 in. heads • Slow to bolt**

**#01041 pack (~500 seeds) \$3.49**  
**#06620 bulk (~5,000 seeds) \$19.99**

Simpson Black-Seeded

#### **WALDMANN'S DARK GREEN** HA 🌱/☀️/🌿

The deep green, crispy ruffled leaves of this vigorous, reliable head lettuce have the perfect flavor and texture for salads. Start in early spring and fall for the best full size heads. This variety is also a good choice for growing as baby salad mix.

**28 days to baby • 50 days to mature • 12-14 in. heads • Slow to bolt**

**#05785 pack (~500 seeds) \$3.49**

Waldmann's Dark Green

#### **TWO STAR** HA 🌱/☀️/🌿

This beautiful, delicious and reliable lettuce is the most widely grown green leaf in America. The tender, crispy, heavy heads are ideal for salads, sandwiches and wraps. An improved Waldmann's type for spring and fall harvest.

**50-55 days to mature • 12-14 in. heads • Slow to bolt**  
**#05894 pack (~500 seeds) \$3.49**

Two Star

#### **SCOTTSDALE** HA 🌱/☀️/🌿

This heat tolerant, ruffled green leaf lettuce provides nice crunchy texture and sweet flavor even in the summer. It does best when grown from late spring into summer, and again after the summer solstice for harvest in early fall. Great on sandwiches or in tossed salads.

**50-55 days to mature • 12-14 in. heads • Slow to bolt**  
**#06011 pack (~500 seeds) \$3.49**

Scottsdale

#### **NEVADA** HA 🌱/☀️/🌿

This variety yields heavy heads of crispy, bright green leaves that form an upright spiral. The thick leaves resist tip burn, bolting and remain mild and sweet in summer.

**50 days to mature • 12-14 in. heads • Slow to bolt**  
**#05711 pack (~500 seeds) \$3.49**

Nevada

### RED LEAF

#### **NEW RED FIRE** HA 🌱/☀️/🌿

Beautiful, frilly red-edged leaves with a fresh bright green base and interior form a heavy head that makes attractive, tender salads. This popular variety has set the standard for red leaf lettuce for many years. It can be grown spring, summer and fall for full size heads or baby leaf salads.

**28 days to baby • 55 days to mature • 12 in. heads • Slow to bolt**  
**#05712 pack (~500 seeds) \$3.49**

New Red Fire

#### **RED SAILS** HA 🌱/☀️/🌿

Crispy and sweet, never bitter, this tender, maroon-red leaf lettuce was an All America Selections winner in 1985, and is still a favorite of home gardeners for its vigor, adaptability and excellent flavor. Grow in spring, summer and fall for full size heads or baby leaf.

**28 days to baby • 50 days to mature • 12-14 in. heads • Slow to bolt**  
**#05783 pack (~500 seeds) \$3.49**

Red Sails

#### **LOVELOCK** HA 🌱/☀️/🌿

One of our best heat-tolerant summer lettuces, Lovelock makes large, upright heads with beautiful, thick, bright green leaves edged with maroon. Its superior crispy texture, appearance and succulent, sweet flavor is outstanding in salads that will delight your family and friends.

**55 days to mature • 12-14 in. heads • Slow to bolt**  
**#06012 pack (~150 seeds) \$3.49**

Lovelock

## GREEN ROMAINE

### CLAREMONT

An early maturing, elegant mini romaine with deep green leaves and delicious, crispy ribs, open at the top, and tapering to a dense heart. Ideal for small gardens, these compact heads can be planted just 8 inches apart and are the perfect size to make a Caesar salad for two!

**45-50 days to mature • 10 in. tall heads**

**#05897 pack (~500 seeds) \$3.49**

Claremont

### GREEN TOWERS

These upright heads of romaine lettuce are dark gray-green and dense with nice crunch and full bodied flavor. This variety does well in all parts of the country in spring and fall and can tolerate moderate summer heat.

**65-75 days to mature • 12 in. tall heads**

**#06014 pack (~500 seeds) \$3.49**

Green Towers

### TORETTO

Our best summer romaine, Toretto needs heat and water to reach its full potential. The impressively large heads are medium dark green, dense and crunchy with sweet flavor. Slow growing and stress tolerant, it is highly rated by customers from Georgia to California.

**70-75 days to mature • 14 in. tall heads**

**#06013 pack (~500 seeds) \$3.49**

**#06623 bulk (~5,000 seeds) \$19.99**

Toretto

## FRESH HEART

The puckered, medium green outer leaves of this dense romaine protect the tender, crispy yellow heart. Together they make a fine tossed salad with sweet flavor and crunchy texture. It is cold tolerant for spring and fall and does well in southern desert winters.

**68-73 days to mature • 12-14 in. tall heads**

**#05931 pack (~500 seeds) \$3.49**

**#06602 bulk (~5,000 seeds) \$19.99**

Fresh Heart

## GREEN AND RED BUTTERHEAD

### OPTIMA

This large, heat tolerant, Boston type butterhead has beautiful, exceptionally tender, soft green leaves with smooth texture and fine flavor for the most delicate salads. Spring, summer or fall, its reliability and disease resistance make it the standard in its class!

**50-60 days to mature • 10-12 in. heads • Slow to bolt**

**#05781 pack (~500 seeds) \$3.49**

Optima

### FOUR SEASONS

**HEIRLOOM** Introduced from France in the 1880's, this beautiful heirloom butterhead has deep red outer leaves cradling a velvety-textured, bright green heart. Compact and cold tolerant, it does best in spring, fall and mild winters. It stays sweet in the summer, but is quick to bolt to seed.

**50-60 days to mature • 6-10 in. heads**

**#01136 pack (~500 seeds) \$3.49**

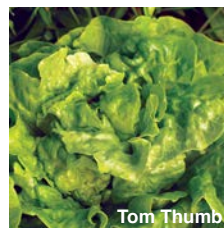

Four Seasons

## TOM THUMB

**HEIRLOOM** Treasured as the oldest American lettuce still available, this diminutive butterhead is perfect for close spacing in small gardens in spring and fall. Simply remove the core and arrange the whole head on a plate for a tender, delicious, single serving, gourmet salad.

**50-55 days to mature • 3-5 in. heads**

**#01139 pack (~500 seeds) \$3.49**

Tom Thumb

## GREEN AND RED OAKLEAF

### EMERALD OAK

The brilliant green, oak-shaped leaves of this early, compact variety form a tight, compact rosette with a soft buttery texture, crispy ribs and sweet flavor for salads and sandwiches.

**28 days to baby • 50 days to mature • 3-4 in. long baby leaves • 6-8 in. tall heads**

**#04994 pack (~500 seeds) \$3.49**

### CANTARIX

This stunning deep, dark red oakleaf lettuce forms large, dense glossy heads for home grown gourmet salads. A premium specialty variety, Cantarix is highly disease resistant and does best in spring and fall plantings, as well as areas with mild summer temperatures.

**50-55 days to mature • 8-10 in. heads**

**#06019 pack (~150 seeds) \$3.49**

Emerald Oak

Cantarix

## ICEBERG

### RED ICEBERG (NEW)

A rare and unusual iceberg lettuce with copper-hued outer leaves surrounding the green-to-white crispy inner heart. Heat tolerant and widely adapted, with delicious sweet flavor. Terrific for a simple wedge salad.

**60 days to mature • 8-10 in. heads**

**#01781 pack (~150 seeds) \$3.49**

Red Iceberg

## SALAD MIX

▪ QUICK TIP GROW GUIDE ▪

*Lettuces and greens are cool season crops and grow best at 60–70°F, but can be planted starting in early spring when daytime temperatures are above 50°F. Salad mixes are direct seeded. Plant small sections every three weeks for continuous harvests. Clear cut leaves about an inch above the growing point.*

### ALL LETTUCE MIX

HA 🌱🌿🌻🌻

A diverse mix of lettuces with contrasting colors and textures for tender, tasty salads fresh from your garden. Includes: Waldmann's, Red Sails, Dark Lolla Rossa, Emerald Oak, Outredgeous, Barcarole, Simpson Black-Seeded and Red Saladbowl.

## MELONS

▪ QUICK TIP GROW GUIDE ▪

*Melons are a frost sensitive, heat loving crop, requiring 90°F temperatures during maturity to produce sweet fruit. Melons are most commonly direct seeded, although transplanting is necessary in areas with shorter seasons to achieve maturity. Sweet, juicy melons and watermelons are one of the most anticipated treats of summer.*

### MUSKMELONS

#### HALE'S BEST

TA 🌱

**HEIRLOOM** This great tasting muskmelon has firm, sweet, aromatic salmon-colored flesh that is refreshing on its own or in fruit salads. The early maturing oval fruits have a yellow-green rind, coarse, protective netting and a light rib. The productive vines are disease and drought tolerant.

80–90 days to mature • 3–4 lb. fruit

#01555 pack (~30 seeds) \$3.49

Hale's Best

#### TOP MARK

TA 🌱

This long-popular cantaloupe variety produces small oval fruits with sweet, firm, orange flesh perfect for breakfast for two! The fruits are well protected by their thick rind and heavy netting and do best in hot climates, particularly the South and desert Southwest.

80–90 days to mature • 3½

lb. fruit

#05989 pack (~30 seeds) \$3.49

Top Mark

#### ORO RICO F-1

TA 🌱

This richly flavored hybrid cantaloupe has sweet, firm and refreshingly crisp orange flesh that embodies the essence of summer. The disease resistant plants produce high yields of medium size melons that are easy to harvest and keep well.

90–95 days to mature • 3–4 lb. fruit

#06456 pack (~15 seeds) \$3.49

Oro Rico F-1

### NAVIGATOR F-1

Impressively large, delicious cantaloupes are produced on these vigorous, disease resistant vines. The deep orange flesh is sweet, juicy and firm for slicing or fresh fruit salads. This outstanding hybrid is widely adapted to growing conditions throughout the western USA.

85-95 days to mature • 4-6 lb. fruit

#05990 pack (~15 seeds) \$3.49

Navigator F-1

### SPECIALTY

### SIVAN F-1

This richly sweet melon has orange flesh with a hint of butterscotch flavor from its French Charentais specialty melon heritage. Fruits are round, ridged, slightly netted and don't split. Easier to grow than a true Charentais, harvest when fruits slip from the vine.

75-85 days to mature • 1-1½ lb. fruit

#05899 pack (~30 seeds) \$3.49

Sivan F-1

### SHARLYN

This sweet and juicy Ananas-type melon is renowned for its irresistible pineapple-like flavor. The aromatic, pale orange flesh has melt-in-your-mouth texture. The dark green rind matures to yellow or orange with a full net. These plants are highly productive and rewarding.

85-95 days to mature • 3-6 lb. fruit

#01248 pack (~30 seeds) \$3.49

### ARAVA F-1

The fragrant bouquet and tropical sweet flavor of this early-maturing Galia-type melon make it one of our favorites. The well-netted fruits look like a cantaloupe on the outside, revealing the mouth watering, green interior upon slicing. The tender flesh is not as crispy as a honeydew.

70-75 days to mature • 3-4 lb. fruit

#05960 pack (~30 seeds) \$3.49

Sharlyn

Arava F-1

### EEL RIVER

**RARE** Luscious dense orange flesh infused with a distinctive, creamy peach flavor make this one of our finest melons. The distinctive thin spotted skin and pointed shape of this ugly-duckling is rarely found in stores. Grow your own to enjoy this flavorful treasure originally from Japan. Similar to Crane Melon.

90-100 days to mature • 3-8 lb. fruit

#01372 pack (~30 seeds) \$3.49

Eel River

### SWAN LAKE (NEW)

This popular Asian specialty melon has exceptional sweet flavor. The crispy white flesh is uniquely swirled with peach and salmon, inside a smooth yellow rind accented with white sutures. Each heat loving plant produces several small melons.

90 days to mature • 2-3 lb. fruit

#01250 pack (~30 seeds) \$3.49

Swan Lake

### HAOGEN (NEW)

This unusual variety has juicy, light green flesh and a sweet addicting flavor. The thin, mottled green skin turns yellow at maturity, and can't be shipped, so you have to grow your own to enjoy this special treat! It's a dependable producer even in shorter seasons.

85 days to mature • 3-8 lb. fruit

#01044 pack (~30 seeds) \$3.49

Haogen

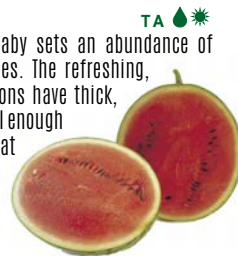

### WATERMELONS

### SUGAR BABY

A summertime treat, Sugar Baby sets an abundance of flavorful fruit on compact vines. The refreshing, sweet, crunchy pink watermelons have thick, nearly black rinds and are small enough to fit easily in the icebox. Great for small gardens and the perfect size for kids.

60-65 days to mature • 10-12 lbs. fruit

#01524 pack (~30 seeds) \$3.49

### SWEET DAKOTA ROSE

This deliciously sweet, medium-sized watermelon with bright red flesh and few seeds was developed by North Dakota farmer David Podoll to grow in cool, short season climates. Every year our high altitude and northern customers sing its praises as the juice drips down their chins.

80-90 days to mature • 10-20 lbs. fruit

#05194 pack (~30 seeds) \$3.49

#06643 bulk (~250 seeds) \$19.99

Sweet Dakota Rose

### CRIMSON SWEET

This extremely popular full-sized watermelon has juicy red flesh, high sugar content, few seeds, crisp texture and rich flavor. An All America Selections Winner in 1964, it is disease resistant and thrives in most climates. Perfect for large family reunions or beach picnics.

85-100 days to mature • 15-25 lb. fruit • 8-10 ft. vines

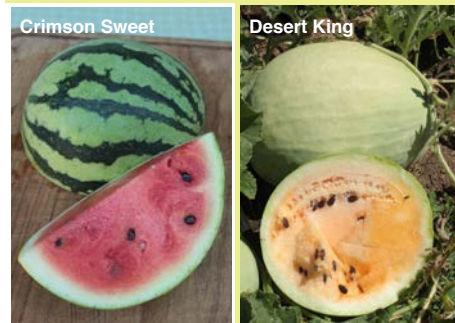

#01046 pack (~30 seeds) \$3.49

### DESERT KING (NEW)

Surprise! These jumbo watermelons have gorgeous golden flesh with crispy texture and sweet juicy flavor. The abundant, round to slightly oval fruits have light green rinds and do especially well in the desert Southwest.

100 days to mature • 10-22 lb. fruit • 8-10 ft. vines

#01252 pack (~30 seeds) \$3.49

Crimson Sweet

Desert King

## OKRA

### ■ QUICK TIP GROW GUIDE ■

*Okra is a tropical plant, growing optimally in hot, humid climates. Pick fruits when young and tender (about 5–6 days after flowering). Handle with care as fruits are easily injured. Daily harvests increase overall yields. Store at 45–50°F. May be damaged if chilled below 45°F.*

### GREEN OKRA

Traditionally used in Gumbo and delicious fried or sautéed, this spineless variety produces long, slender, ribbed green pods on dramatic bushes with beautiful yellow flowers. Pick the pods daily at 3 inch length for tenderness and best quality. **55–65 days to mature • 3–7 in. pods • 3–5 ft. tall plants**  
**#06071 pack (~50 seeds) \$3.49**

Green Okra

## ONIONS

### ■ QUICK TIP GROW GUIDE ■

*Onions are a hardy crop adapted to a wide range of growing conditions. Day length is important in variety selection of bulbing onions. Begin direct seeding spring crops 4–6 weeks before the last frost; fall crops 6–12 weeks before the first fall frost. Shallow roots require light, frequent irrigations when plants are young. Stop watering when bulbs have reached full size and the tops drop.*

### STORAGE YELLOW

### VALENCIA

This “Utah” strain of Yellow Sweet Spanish onion is mild flavored and a moderately good keeper. The large bulbs have a warm golden-brown skin and can be grown in all parts of North America. **105–130 days to mature • 4–6 in. bulbs • Short to long day length**

**#01833 pack (~350 seeds) \$3.49**  
**#06656 bulk (~3,500 seeds) \$19.99**

### CORTLAND F-1

This flavorful long-storage onion produces large, uniform, hard round bulbs with thick copper skin and thin necks. An improved Co-pra-type, this hybrid is best grown in “long-day” northern areas. **100–105 days to mature • 4–6 in. • Long day length**  
**#05965 pack (~350 seeds) \$3.49**

Valencia

Cortland F-1

### DAKOTA TEARS

This pungent yellow storage onion produces large bulbs, up to 1 lb. each, with medium necks. The bulbs keep well through the winter in the root cellar. A highly uniform, open-pollinated variety that does best in “long-day” northern areas.

**100 days to mature • 4–6 in. bulbs • Long day length**  
**#06457 pack (~350 seeds) \$3.49**

Dakota Tears

### STORAGE RED

### STOCKTON RED

These large, red-skinned, globe-shaped onions have mild, red-ringed white flesh perfect for salads and burgers. This variety does best in hot, mid-latitude regions. Our strain has been rigorously restored to its original, high quality characteristics.

**110–120 days to mature • 180–200 days overwintered**  
**4–6 in. bulbs • Intermediate day length**  
**#01483 pack (~350 seeds) \$3.49**  
**#06655 bulk (~3,500 seeds) \$19.99**

### ROSSA DI MILANO

**HEIRLOOM • RARE** This mid-sized, red Italian onion has a distinctive, mildly hot flavor demanded by chefs for authentic tasting Italian recipes. The large, flat-topped, red-skinned bulbs keep well and tolerate cool climates. Our strain is highly uniform and is best grown in mid-latitude to northern areas.

**110–120 days to mature • 4–5 in. bulbs • Long day length**  
**#01585 pack (~350 seeds) \$3.49**  
**#06654 bulk (~3,500 seeds) \$19.99**

Stockton Red

Rossa Di Milano

### RED WING F-1

These hefty, wine-hued, globe-shaped red onions are perfect for fresh salads and slicing. The internal color gets even deeper red during storage. One of the most popular and widely grown red onions in the world, it keeps longer than any other and is best for northern areas.

**115–120 days to mature • 3–3½ in. bulbs • Long day length**  
**#05790 pack (~350 seeds) \$3.49**  
**#06653 bulk (~3,500 seeds) \$19.99**

Red Wing F-1

## WHITE

### GLADSTONE

These medium-large white onions have a nice mild flavor for making great onion rings! Very tolerant to poor soil conditions, Gladstone can be grown from mid-latitude to northern areas. The onions will store for a couple of months in the root cellar.

**110–115 days to mature • 3–3½ in. bulbs • Intermediate day length**  
**#05721 pack (~350 seeds) \$3.49**

Gladstone

## BUNCHING/SPECIALTY

### PARADE BUNCHING

This scallion has beautiful dark green foliage and long, straight, white shanks with a mild, pleasing onion flavor perfect for salads and garnishes. A very uniform variety, it grows vigorously, with little to no bulbing and can be grown anywhere.

**70–80 days to mature • 8–11 in. length • Short to long day length**  
**#05903 pack (~350 seeds) \$3.49**  
**#07125 bulk (~3,500 seeds) \$19.99**

### MINI PURPLETTE

This early maturing, mini onion produces small, purple-red skinned bulbs with delicate, mild flavor. The color turns pastel pink when cooked or pickled. They can also be harvested very young as baby bunching onions with purple pearl ends. Widely adapted to growing anywhere.

**60–65 days to mature • 1–2 in. bulbs • Short day length**  
**#05197 pack (~350 seeds) \$3.49**

Parade Bunching

Mini Purplette

## HOW TO CHOOSE ONIONS

### Long Day Length

*Northern latitude states with long summer days (Washington, Minnesota, Maine, etc.)*

### Intermediate Day Length

*Middle latitude states with moderate summer days (Utah, Kansas, Virginia, etc.)*

### Short Day Length

*Lower latitude states with short summer days (Arizona, Texas, Florida, etc.)*

## PARSNIPS

### ▪ QUICK TIP GROW GUIDE ▪

*Parsnip seeds are notoriously slow and difficult to germinate. Soak the seeds overnight in warm water to help shorten the 3-4 week germination period. Parsnips need a long, cool season to grow, so start your seeds directly in the garden 4 weeks before your last spring frost, or as early as the ground can be worked.*

### COBHAM IMPROVED

HB 🌱/☀️/🌧️

This exceptionally sweet root vegetable is a tradition at holiday feasts. The smooth-skinned, heavy-shouldered, tapered, carrot-like roots should be harvested in the fall after a heavy frost, or in early spring for the sweetest flavor.

115-125 days to mature • 8-10 in. roots

#04759 pack (~100 seeds) \$3.49

Cobham Improved

## PEAS

### ▪ QUICK TIP GROW GUIDE ▪

*Planting peas is a springtime ritual that rewards the gardener with bountiful harvests of sweet tasting peas far more flavorful than store bought. Peas are a cold hardy crop, and need a cool growing season to succeed. Inoculate peas with Rhizobium bacteria to stimulate nitrogen fixation for improved yield and soil fertility. Even short-vined 'bush' varieties benefit from trellising, increasing yield and making them easier to harvest.*

### SHELL

### TOM THUMB (NEW)

HA 🌱/☀️/🌧️

**HEIRLOOM** This heirloom pea has extremely short 8-12" vines, making it the perfect pea to grow in containers and hanging baskets. The sweet, shelled peas are delicious cooked as a vegetable side dish or on salads. Grow it in cool spring and fall seasons.

55 days to mature • 8-12 inch plants • 3 inch pods

#07890 pack (~50 seeds) \$3.49

Tom Thumb

### ALASKA

HA 🌱/☀️/🌧️

**HEIRLOOM** Each pod of this mildly sweet shelling pea contains 5-8 perfect peas ideal for fresh eating, canning and freezing. As its name suggests, this exceptionally early shell pea tolerates cool soils and short northern growing seasons. Staking is optional.

55 days to mature • 24-36 in. vines

#06899 pack (~50 seeds) \$3.49

### GREEN ARROW

HA 🌱/☀️/🌧️

Each plump, 4-5" long pod of this English shelling variety is filled with 8-11 small, sweet, bright green peas. The productive, disease resistant vines are widely adapted and compact. Staking is optional, but makes harvesting easier.

60-65 days to mature • 24-28 in. vines • 4-5 in. pods

#06078 pack (~50 seeds) \$3.49

#07126 bulk (~500 seeds) \$19.99

Alaska

Green Arrow

### OREGON TRAIL

HA 🌱/☀️/🌧️

This sweet shell pea is prolific and delicious, fresh or frozen. The compact 20-24" vines produce two 3" pods from nearly every node for a rewarding harvest. Staking is optional. A cool season crop, peas like to be planted in early spring for harvest before the season gets hot.

55-70 days to mature • 20-24 in. vines • 3 in. pods

#01790 pack (~50 seeds) \$3.49

### PIONEER

HA 🌱/☀️/🌧️

This flavorful shell pea produces plenty of 3-4" pods bearing 6-9 peas each on compact 20-24" vines. Easy to shell for side dishes, salads, or freezing. Plant early in the spring to harvest before the summer heat sets in. Staking is optional.

55-70 days to mature • 20-24 in. vines • 3-4 in. pods

#01791 pack (~50 seeds) \$3.49

#07127 bulk (~500 seeds) \$19.99

Oregon Trail

Pioneer

### SNAP

### SUGAR SNAP

HA 🌱/☀️/🌧️

Succulent, sweet and crispy snap peas make fantastic healthy snacks that kids can pick and eat right from the vine. Great fresh, steamed or frozen, these delicious 3" pods are produced on vigorous vines in both cool and warm weather.

60-70 days to mature • 4-6 ft. vines • 3 in. pods

#04533 pack (~50 seeds) \$3.49

#06661 bulk (~500 seeds) \$19.99

### CASCADIA

HA 🌱/☀️/🌧️

Wpretty white flowers on this disease resistant snap pea from Oregon State University. Trellising these short vines is optional, but makes it easier to harvest. Plant for spring or fall harvest.

70-75 days to mature • 3-4 ft. vines • 3 in. pods

#01793 pack (~50 seeds) \$3.49

### SNOW

Sugar Snap

Cascadia

### SUGAR POD 2

HA 🌱/☀️/🌧️

Thick, succulent, juicy edible pod snow peas are delicious fresh or in stir-fry, and freeze well for later uses. The 4-5" pods are held upward for easy picking from these compact, 24-30" non-climbing vines. The disease resistant plants thrive in cool spring and fall weather. Staking is optional.

65-70 days to mature • 24-30 in. vines • 4-5 in. pods

#01792 pack (~50 seeds) \$3.49

#06660 bulk (~500 seeds) \$19.99

### OREGON GIANT

HA 🌱/☀️/🌧️

Giant 4-5" snow peas are tender and succulent, with sweeter flavor than the Sugar Pod 2. The disease resistant, 24-36" vines produce well all summer in mild climates with sufficient water, but are not as vigorous in cold weather. Staking is optional.

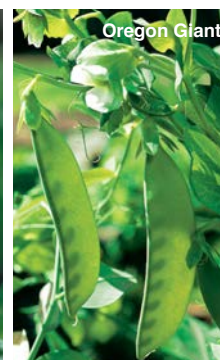

70-75 days to mature • 24-36 in. vines • 4-5 in. pods

#01794 pack (~50 seeds) \$3.49

#06658 bulk (~500 seeds) \$19.99

Sugar Pod 2

Oregon Giant

# PEPPERS

## ■ QUICK TIP GROW GUIDE ■

Peppers are a warm season crop and grow best with warm nights, which increase flower and fruit set. Fruit set in many sweet peppers can be low at temperatures over 90°F, but most chile peppers are more heat tolerant. Peppers are most often started indoors and transplanted due to the relative difficulty of starting them successfully. Optimum germination occurs at 75–85°F soil temperature.

### SWEET PEPPERS

#### CAL WONDER RED

**HEIRLOOM** These sweet, juicy, classic 3-4" bell peppers are excellent fresh, roasted, sautéed or stuffed, and freeze well for later use. Fruits ripen early from dark green-to-red on vigorous, upright plants. Harvest the early fruits green to stimulate additional fruit set for red ripe harvest.

**65-70 days green • 85 days red • 3-4 in. blocky fruit • 24-30 in. tall plants**

**#06072 pack (~25 seeds) \$3.49**

Cal Wonder Red

#### BIG RED

**HEIRLOOM** The most impressive open pollinated bell pepper we have found, this heirloom has thick, sweet, crispy flesh and thrives in cooler weather conditions. Enjoy Big Red at all stages (starts out green and turns a wonderful red as it matures), whether you are slicing them for pizza, or stuffing them with your favorite savory filling.

**70 days green • 80 days red • 3-4 in. blocky fruit • 24-30 in. tall plants**

**#06994 pack (~25 seeds) \$3.49**

Big Red

#### EMERALD GIANT (NEW)

An attractive green bell pepper with large 4 lobed fruits great for stuffing, pizza or salads. The vigorous plants have plenty of foliage for sun burn protection.

**75 days green • 85 days red • 4-5 in. blocky fruit • 28-36 in. tall plants**

**#07264 pack (~25 seeds) \$3.49**

Emerald Giant

#### BENDIGO F-1

This early maturing hybrid variety produces perfectly delicious and perfectly shaped sweet bell peppers. The blocky, uniform 3" fruits have thick, succulent flesh and mature from green-to-red. The sturdy, virus resistant plants are well adapted to different environments.

**60 days green • 75 days red • 3 in. fruit • 24-36 in. plants**

**#05905 pack (~5 seeds) \$3.49**

Bendigo F-1

#### ORION F-1

Orion produces loads of large, blocky, sweet bell peppers with thick juicy flesh that mature from green-to-red. The vigorous, disease resistant, hybrid plants will set fruit in hot conditions and protect the fruit from sunburn. A great choice for gardeners from Florida to California.

**65 days green • 85 days red • 3½-4 in. blocky fruit • 24-36 in. tall plants**

**#05957 pack (~5 seeds) \$3.49**

**#06676 bulk (~50 seeds) \$19.99**

Orion F-1

#### SUNBRIGHT (YELLOW)

Sweet and bright yellow when mature, most of these blocky bells are 4-5 inches, but often produce some huge, 7 inch fruits that rival its namesake. The thick flesh is perfect for healthy vegetable party platters, salsas and cooking. This high yielding sister to Big Red is worth a try.

**75 days green • 85 days yellow • 4-7 in. blocky fruit • 24-30 in. tall plants**

**#06995 pack (~25 seeds) \$3.49**

Sunbright

#### CAL WONDER ORANGE

Beautiful blocky orange bells with thick, sweet walls dress up any salad or roasted vegetable dish. The fruit starts off green and colors up early under the protective plant canopy. Harvest early fruit to encourage additional fruit set. Adapted to different growing areas.

**65 days green • 85 days orange • 3-4 in. blocky fruit • 24-30 in. tall plants**

**#05200 pack (~25 seeds) \$3.49**

Cal Wonder Orange

#### PURPLE BEAUTY

This stunning bell pepper is ready to eat when the fruits turn deep purple with a green undertone. The crisp, succulent, 4-lobed, thick-walled fruit adds color and nutrition to salads and fresh vegetable platters, and turns green when cooked.

**70-80 days to mature • 3-4 in. blocky fruit • 20-30 in. tall plants**

**#04462 pack (~25 seeds) \$3.49**

Purple Beauty

## SWEET SPECIALTY

### TEJAS F-1 (LAMUYO)

TA 🌱

This “larger than life” green-to-red Lamuyo pepper, produces gorgeous sweet, crisp, juicy fruit all summer. The long, thick walled peppers are great roasted, sliced in long strips for dipping, or in rings for pizza. The disease resistant plants are early maturing and widely adapted.

70 days green • 85 days red • 6 in. fruit • 24-36 in. plant

#05907 pack (~5 seeds) \$3.49

#06678 bulk (~50 seeds) \$19.99

### KEY LARGO F-1

TA 🌱

Perfect for frying or stuffing! These sweet, thin walled, broad shouldered, “Cubanelle” type elongated peppers start off light green, turning to orange and red. Vigorous, leafy plants protect the abundant fruit and are nice and early.

65-75 days to mature

#06458 pack (~5 seeds) \$3.49

Tejas F-1

Key Largo F-1

### ACONCAGUA

TA 🌱

This large, long sweet pepper is delicious fresh, roasted or fried. The 7-11” long fruits taper to a blunt, rounded end. Medium thick flesh is sweet and mildly peppery at both the immature green and ripe yellow stages. Named for Mt. Aconcagua in Argentina.

70-75 days to mature • 7-11 in. fruit • 26-30 in. plants

#01774 pack (~25 seeds) \$3.49

### ITALIAN SWEET RELLENO

TA 🌱

Earlier and sweeter than Anaheim chiles, these 5-6” long peppers are great for mild chile rellenos, roasted, sautéed or fried. The highly productive plants reward the gardener with an early, abundant harvest even in small plantings.

65-75 days to mature • 5-6 in. fruit • 18-24 in. plants

#01640 pack (~25 seeds) \$3.49

#07130 bulk (~250 seeds) \$19.99

Aconcagua

Italian Sweet Relleno

### JOLENE'S RUSTIC ITALIAN (NEW) TA 🌱

This farmer-bred, tapered, sweet Italian-style frying and stuffing pepper has been a local Willamette Valley favorite for years. The thick-walled peppers ripen to a glossy red. Enjoy their exceptionally sweet flavor in fresh salads and salsas, pizzas and stir-fries.

80 days to mature • 24-30 inch plants • 4-8 inch fruit

#07891 pack (~25 seeds) \$3.49

Jolene's Rustic Italian

### CORNO DI TORO

TA 🌱

The largest of the sweet stuffing peppers, the long curved fruits resemble a bull's horn. Maturing to either a stunning red or brilliant yellow, these peppers offer delicious flavor without being overly sweet or hot. Try them fresh, roasted or stuffed.

75-85 days to mature • 6-10 in. fruit • 20-30 in. plants

#01056 pack (~25 seeds) \$3.49

### NARDELLO

TA 🌱

**HEIRLOOM** Delightful fresh or fried, our taste tests rate this as the sweetest non-bell pepper when red ripe. The long, narrow peppers have shiny, wrinkled skins and thin walls ideal for flash frying whole as a fun party dish or healthy snack. An Italian heirloom preserved by the Nardello family.

75-85 days to mature • 6-8 in. fruit • 24-36 in. plants

#01646 pack (~25 seeds) \$3.49

Corno Di Toro

Nardello

## PIMIENTO/PAPRIKA

### PIMIENTO-L

TA 🌱

This beautiful, heart shaped red-ripe pimiento pepper has thick walls and richly sweet, succulent flesh. Often roasted to stuff olives, it can also be used in recipes like any other sweet pepper. The sturdy plants are high yielding and need a long warm summer to mature.

90-100 days to mature • 3 in. long fruit • 18-24 in. plants

#01575 pack (~25 seeds) \$3.49

Pimiento-L

### RED RUFFLED PIMIENTO

TA 🌱

This is a favorite sweet pimiento pepper with thick, juicy walls. Marvelous for fresh eating, this plant produces huge quantities of flattened, pleated red fruits that resemble a miniature pumpkin. Stuff them for nice, small size party snacks, or roast for sauces or panini.

80-90 days to mature • 3-4 in. long fruit • 24-30 in. tall plants

#01232 pack (~25 seeds) \$3.49

Red Ruffled Pimiento

## CHILE PEPPERS

▪ CHILE HEAT INDEX ▪

🔥 = Mild

🔥🔥 = Medium

🔥🔥🔥 = Hot

🔥🔥🔥🔥 = Danger

### JALAPEÑO

🔥🔥🔥 TA 🌱

**HEIRLOOM** Jalapeños are used in everything from Mexican cuisine to nachos to pizza. Upright plants yield loads of smooth, green conical fruits that get hotter as they mature to a deep red. When dried and mesquite-smoked, they are known as “chipotle” chiles.

65-75 days to mature • 3-3½ in. long fruit • 24-36 in. tall plants

#01058 pack (~25 seeds) \$3.49

#07131 bulk (~250 seeds) \$19.99

Jalapeño

### TRIUNFO F-1

This vigorous hybrid jalapeño is pungently spicy and has larger fruit than our heirloom variety. The disease resistant plants produce abundant yields of extra large dark green peppers used extensively in Southwestern and Mexican cuisine.

65-75 days to mature • 4-5 in. long fruit • 24-36 in. tall plants

#05923 pack (~5 seeds) \$3.49

#06669 bulk (~50 seeds) \$19.99

Triunfo F-1

### CAMINO REAL F-1

Typically used to make pico de gallo and spicy fresh salsas, this serrano pepper is considerably hotter than a jalapeño. The tall, slightly fuzzy plants of this adaptable, disease resistant hybrid produce lots of glossy, bullet-shaped fruits that can be harvested over an extend period.

85 days to mature • 3-4 in. long fruit • 20-30 in. plants

#06022 pack (~5 seeds) \$3.49

Camino Real F-1

### PADRON

**HEIRLOOM** The latest craze with innovative chefs! Pick these small, thin-skinned peppers from Spain while young and mild and sauté whole in olive oil with a dash of salt for tapas with a surprise - one or two will be spicy hot. All fruits will be hot if left to mature to full size.

60 days immature mild • 80 days ripe hot • 1-3 in. long fruit • 16-24 in. plants

#06459 pack (~25 seeds) \$3.49

Padron

### RING-O-FIRE CAYENNE

With classic cayenne shape, this long, thin, flaming red chile packs even more heat than the traditional cayenne. A chile addict's delight, fresh, dried, crushed or powdered. Try making your own vinegar-based hot sauce for Buffalo Wings.

70-85 days to mature • 4-6 in. long fruit • 24-30 in. plants

#01224 pack (~25 seeds) \$3.49

### ESPAÑOLA IMPROVED

Excellent fresh, roasted or dried, this high yielding, medium hot chile was developed to mature in northern New Mexico's short growing season. The long, tapered, thin-walled fruits grow dark green, ripen to red and get spicier in warmer southern climates.

70-80 days to mature • 5-7 in. long fruit • 18-24 in. tall plants

#01215 pack (~25 seeds) \$3.49

Ring-O-Fire

Española Improved

### NUMEX CONQUISTADOR

This Anaheim-type chile has mildly spicy, sweet flavor perfect for New Mexican style dishes, stuffing or roasting. The long, round shouldered fruit with pointed tips and thick flesh is usually picked and eaten while still green.

80-90 days to mature • 4-6 in. long fruit • 18-24 in. tall plants

#05726 pack (~25 seeds) \$3.49

Numex Conquistador

### HUNGARIAN HOT WAX

This dependable and productive early northern variety is the best hot pepper for cool growing regions. Used in marinades, stews or pickled, the stocky plants bear medium-hot, long, pointed yellow fruits that ripen to orange-red for a festive appearance in the garden.

60-85 days to mature • 4-6 in. fruit • 16-24 in. plants

#01219 pack (~25 seeds) \$3.49

Hungarian Hot Wax

Aji Amarillo

Aji Colorado

### AJI AMARILLO

**RARE** This South American chile has a subtle, yet distinctive mildly hot, smoky flavor that is essential in Peruvian cuisine. Slightly hotter than Aji Colorado, the conical, wrinkled yellow fruits are used fresh, roasted or dried into a powder for sauces, paste and salsas.

80-90 days to mature • 2-4 in. fruit • 16-20 in. plants

#01632 pack (~25 seeds) \$3.49

### AJI COLORADO

**RARE** A Peruvian specialty, this brilliant scarlet, mildly hot and spicy chile is used to make chile sauces, pastes and vinegars that live up to savory dishes. Short, sprawling plants bear shiny, 3-5" long peppers that mature from green to red and can be dried to make powder or flakes.

75-85 days to mature • 3-5 in. fruit • 16-18 in. plants

#01631 pack (~25 seeds) \$3.49

Purira

Habanero

### PURIRA

**Caution - Extreme Heat!** Bushy plants bear a profusion of unbelievably hot, glowing orange red 2" long chiles. Plants are quite ornamental as the fruit load ripens, making a nice container or border plant for the fall holiday season. Wear gloves when handling the fruits!

70-75 days to mature • 2 in. long fruit • 16-24 in. tall plants

#01634 pack (~25 seeds) \$3.49

#07132 bulk (~250 seeds) \$19.99

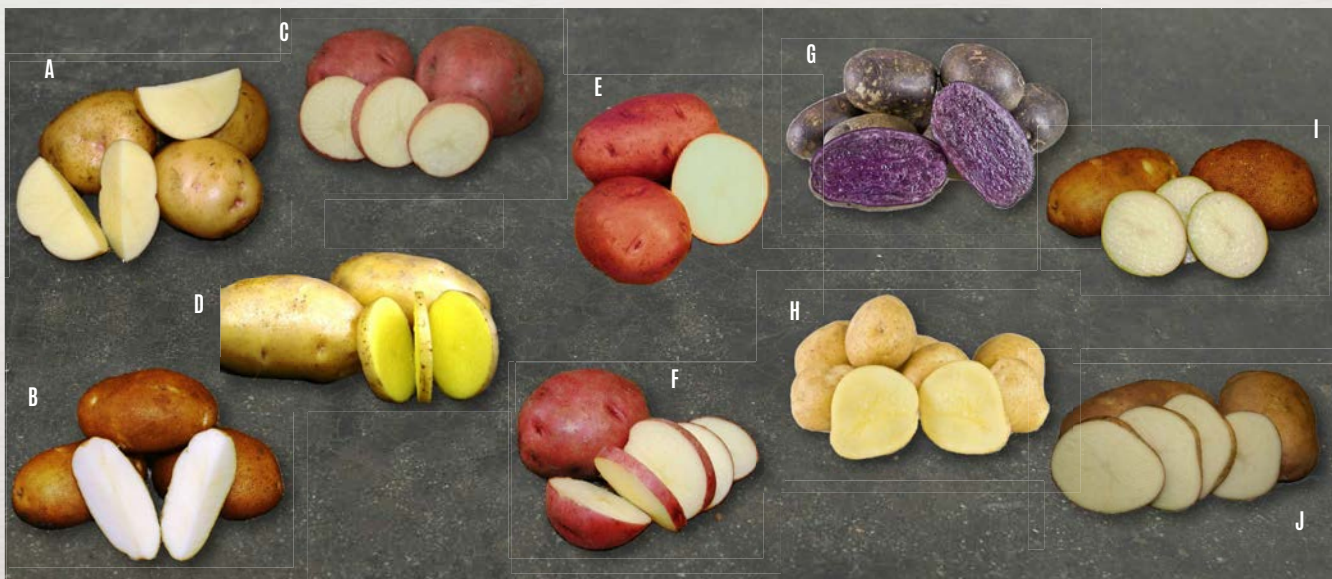

### HABANERO

**RARE** Native to Central America's tropical lowlands, this world famous, scalding hot pepper thrives where summers are long, hot, and humid. Reported to be 1,000 times hotter than the jalapeño, its flavor profile is also fruity with a hint of citrus. Lantern-shaped fruits ripen to a rich orange.

90-100 days to mature • 1-2 in. fruit • 18-24 in. plants

#04538 pack (~25 seeds) \$3.49

## POTATOES

### ▪ QUICK TIP GROW GUIDE ▪

Potatoes provide more usable protein per acre than any other crop in the world, as well as fully balanced, nearly complete nutritional content. Plant certified, disease-free seed potatoes in early to mid-spring, 2-4 weeks before and after the last frost, but protect new shoots from frost if necessary by covering with soil or floating row covers. Use whole, 1½–2 inch diameter tubers or cut larger tubers into pieces with at least one reproductive bud or “eye.” Ships to Continental U.S. only.

### STAINLESS STEEL COMMERCIAL POTATO RICER (NEW)

Our stainless steel potato ricer incorporates air into your boiled potatoes, making them light and fluffy.

#220-07811 (11-1/2” long; holds 22 oz.) \$39.99

### STAINLESS STEEL COMMERCIAL FRENCH FRY CUTTER (NEW)

Cut perfect fries every time. With a suction base, safely use the 36 or 64 steel cutter for uniformly thick or thin french fries with one simple motion.

#220-07812 (10” long x 4” wide) \$59.99

### A. YUKON GOLD

This round tuber has smooth, thin yellow skin with pink coloring around shallow eyes and yellow flesh. It provides excellent flavor when baked, boiled or made into salads or fries.

#231-07767 (10 Count) \$11.99  
#231-07768 (20 Count) \$18.99  
#231-07769 (50 Count) \$39.99

### B. RUSSETT NORKOTAH (NEW) TA ☀️💧

Tuber with smooth, red brown skin, shallow eyes and white flesh. Excellent for baking, frying or boiling. It is scab resistant and provides dependable yields.

#231-07770 (10 Count) \$11.99  
#231-07771 (20 Count) \$18.99  
#231-07772 (50 Count) \$39.99

### C. CHIEFTAIN (NEW) TA ☀️💧

A smooth red-skinned slightly oval tuber with shallow eyes and white flesh, medium size and very good flavor. Resistant to scab and late blight. It does better in clay soils than other reds. High overall yields from a spreading plant with attractive light-violet blossoms.

#231-07773 (10 Count) \$11.99  
#231-07774 (20 Count) \$18.99  
#231-07775 (50 Count) \$39.99

### D. GERMAN BUTTERBALL TA ☀️💧

Its smooth, thick, golden and netted skin and butter yellow flesh are characteristics of this small to medium oblong tuber with outstanding taste. Great for hash browns, fries, steaming or baking, and it stores well.

#231-07782 (10 Count) \$11.99  
#231-07783 (20 Count) \$18.99  
#231-07784 (50 Count) \$39.99

### E. RED PONTIAC TA ☀️💧

#1 red every year! This large round potato has thin, dark-red skins, deep eyes, and crisp white flesh. Excellent for mashing and boiling, but not baking. Heat-tolerant, long-storing, and high-yielding, grows in heavy soil.

#231-07785 (10 Count) \$11.99  
#231-07786 (20 Count) \$18.99  
#231-07787 (50 Count) \$39.99

### F. RED NORLAND TA ☀️💧

Mix of burgundy and red skin potatoes (with shallow eyes) and white flesh. Makes good potato salad, keeps well, has good disease resistance and moderate scab resistance. This old favorite is high yielding.

#231-07776 (10 Count) \$11.99  
#231-07777 (20 Count) \$18.99  
#231-07778 (50 Count) \$39.99

### G. PURPLE MAJESTY (NEW) TA ☀️💧

Oblong, mid season potato with smooth dark purple skin. Almost solid purple inside. Very good table quality. Makes a great blue potato salad.

#231-07788 (10 Count) \$11.99  
#231-07789 (20 Count) \$18.99  
#231-07790 (50 Count) \$39.99

### H. YELLOW FINN TA ☀️💧

This potato has an unusual pear shape, deep yellow-tan skin and waxy yellow flesh. The taste is natural butter-like, and is good boiled, baked, fried or included in soups. This potato is the #1 yellow, our best-selling late season variety.

#231-07791 (10 Count) \$11.99  
#231-07792 (20 Count) \$18.99  
#231-07793 (50 Count) \$39.99

### I. RUSSETT BURBANK TA ☀️💧

Russet skin, shallow eyes, and white flesh are characteristic of this long-oval russet. Great taste baked, fried or boiled. Long-storing, scab-resistant potato needs a consistent moisture supply. Most widely grown potato in the U.S. originating from Luther Burbanks early plant breeding.

#231-07797 (10 Count) \$11.99  
#231-07798 (20 Count) \$18.99  
#231-07799 (50 Count) \$39.99

### J. CAL WHITE (NEW) TA ☀️💧

A long white fleshed potato with brilliant white skin. It produces heavy yields of large potatoes. In fact Cal White surprised many people by setting new records for potato yields in California tests.

#231-07779 (10 Count) \$11.99  
#231-07780 (20 Count) \$18.99  
#231-07781 (50 Count) \$39.99

# SPINACH

## ▪ QUICK TIP GROW GUIDE ▪

Fast growing spinach can be used at baby size for tender salads, or full size for nutritious cooking greens. It is a "superfood" believed to promote general health and reduce the risk of cancer, memory loss, macular degeneration, and high blood pressure. Seed germinates at soil temperatures between 50-68°F, and with dramatically increasing reluctance at higher temperatures. Begin succession plantings 4-6 weeks before the last spring frost, and 4-8 weeks before the first fall frost.

### DOLCE VITA F-1

This gorgeous dark green savoy spinach is tender and mild, with thick, crumpled leaves that really hold the salad dressing. An improved Bloomsdale type with superb flavor, disease resistance and an upright growth habit for cleaner harvest. It does best in fall and early spring, or overwintered in mild climates.

45-55 days to mature • 6-10 in. plants

#06023 pack (~200 seeds) \$3.49

#06689 bulk (~2,000 seeds) \$19.99

Dolce Vita F-1

### TYEE F-1

With thick, richly flavored, deep green savoy leaves for salad or cooking, Tyee is the only variety recommended for planting in late spring and early summer because it doesn't bolt to seed as quickly as others during the long days of summer.

45-55 days to mature • 6-10 in. plants

#06015 pack (~200 seeds) \$3.49

#06692 bulk (~2,000 seeds) \$19.99

Tyee F-1

# SMOOTH

## CHARGER F-1

The smooth, dark green, oval round leaves of this fast growing baby-leaf spinach are tender and mild for gourmet quality salads. Grow this disease resistant variety in the spring or fall for best results.

35-45 days to mature • 6-10 in. plants

#06064 pack (~200 seeds) \$3.49

#06688 bulk (~2,000 seeds) \$19.99

Charger F-1

## RENEGADE F-1

This early, full size spinach has smooth, dark green leaves with extra sweet flavor. Widely adapted and slow to bolt to seed, Renegade's voluminous, 8-10" leaves keep growing for multiple harvests, spring, summer and fall. This is a good one for beginners.

40-45 days to mature • 6-10 in. plants

#05910 pack (~200 seeds) \$3.49

#06690 bulk (~2,000 seeds) \$19.99

Renegade F-1

## REUSABLE FRESH BAGS (NEW)

Extend the life of your produce with these reusable fresh bags. FDA approved to extend the life of your fruits and vegetables.

#220-07814 (20 bags) \$9.99

# SQUASH/PUMPKIN

## ▪ QUICK TIP GROW GUIDE ▪

Tender summers squash is available abundantly throughout the summer, while winter squash can be stored for use throughout the winter. Squash and pumpkins are frost sensitive, heat loving crops. Squash are most commonly direct seeded, although transplanting is possible in short season areas. Optimum soil temperature for germination is 70-85°F, but seeds will germinate at temperatures as low as 60°F.

## ZUCCHINI SUMMER SQUASH

### DARK STAR

These deep dark green zucchinis with solid texture and mild flavor are perfect sautéed in butter, grilled or freshly sliced in salads. The big, tall plants have smooth, spineless stalks and a large root system for drought tolerance. Plant just once to harvest all summer long.

45-55 days to mature • 6-8 in. fruit

#05800 pack (~20 seeds) \$3.49

#06709 bulk (~250 seeds) \$19.99

Dark Star

### NATURA F-1

**CONTAINER** This classy dark green zucchini has a refined, glossy appearance perfect for harvesting gourmet baby fruit or enjoying at full size. The compact, disease resistant plants have an open habit that makes them easy to harvest and suitable for container growing.

45-55 days to mature • 6-8 in. fruit

#05998 pack (~20 seeds) \$3.49

Natura F-1

**LYNX F-1 (NEW)**

TA 🌱

An elegant, medium green, hybrid zucchini for fresh summer salads, ratatouille or summer barbeques. The abundant fruit are easy to see and pick from the disease resistant, medium sized, open plants.

50 days to mature • 7-9 in. fruit

#06462 pack (~20 seeds) \$3.49

Lynx F-1

**YELLOW SUMMER SQUASH**

**YELLOW CROOKNECK**

TA 🌱

**HEIRLOOM** A favorite for over 150 years, this classic, easy-to-grow, heirloom bush summer squash produces abundant white-fleshed fruits that are famously more flavorful than other summer squash types. Use a knife to cut fruit from the plant to avoid breaking the slender necks.

50-55 days to mature • 6-8 in. fruit

#01068 pack (~20 seeds) \$3.49

Yellow Crookneck

**LIONESS F-1**

TA 🌱

The beautiful, firm, mild flavored yellow straightneck squash produced by this disease resistant hybrid variety are often picked with the blossom still attached for making delicate stuffed squash blossoms. Plants are vigorous, with branching vines and high yields.

45-55 days to mature • 6-8 in. fruit

#06000 pack (~20 seeds) \$3.49

#06704 bulk (~250 seeds) \$19.99

Lioness F-1

**SPECIALTY SUMMER SQUASH**

**GOLDEN SCALLOPINI**

TA 🌱

These delicious, saucer-shaped, 3-6" golden fruits have scalloped edges that look quite pretty sliced and arranged on the plate. If you can't pick them fast enough, the fully mature fruit can be stored and eaten like a winter squash. Productive, bushy plants.

55-65 days to mature • 3-6 in. round fruit

#01066 pack (~20 seeds) \$3.49

Golden Scallopini

**HURAKAN F-1**

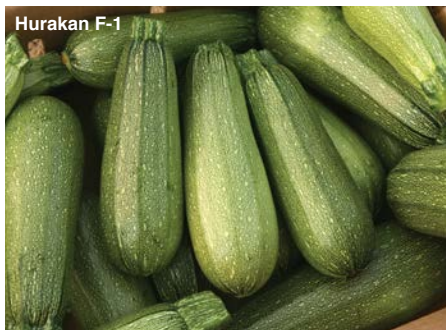

TA 🌱

Traditionally used for stuffing, this gray-green, teardrop shaped summer squash can also be harvested early with the flower for gourmet recipes. The fruit is firm with excellent flavor and is the typical shape and color preferred in Mexico. Productive plants yield over a long harvest period.

45-55 days to mature • 6-8 in. fruit

#06001 pack (~20 seeds) \$3.49

Hurakan F-1

**SUMMER SQUASH MIX**

TA 🌱

This convenient assortment includes various shapes and colors representing the biodiversity of summer squash for all of your cooking needs. The mix includes 6-8 green, yellow, round, scalloped, bulbed and straight types.

45-55 days to mature • 4-10 in. mixed fruit

#06461 pack (~20 seeds) \$3.49

Summer Squash Mix

**WINTER SQUASH**

**GOLD NUGGET**

TA 🌱

Great for stuffing, soups and pies, this early, extremely productive, compact bush variety is ideal for small gardens. Miniature pumpkin-shaped fruits have pale red-orange skin and dry, sweet, dark orange flesh. They can also be harvested young and tender and used like summer squash. An "All-American" selection!

75-95 days to mature • 1-2 lb. fruit

#01593 pack (~20 seeds) \$3.49

Gold Nugget

**BUTTERNUT**

TA 🌱

One of the most popular winter squashes, Butternut is known for its bright orange, moist, sweet, smooth flesh. Delicious in soups, baked, or steamed, this productive variety yields classic tan, bell-shaped fruits that store well into late winter.

100-110 days to mature • 4-5 lb. fruit

#01069 pack (~20 seeds) \$3.49

#06694 bulk (~250 seeds) \$19.99

Butternut

**UCHIKI KURI**

TA 🌱

This red kuri (Hubbard type) winter squash has dark orange skin and flesh with superb eating quality and a sweet, nutty flavor. It is delicious baked, steamed, or stir-fried in savory dishes, as well as good for making dessert pies or breads. It can be stored for several months.

90-100 days to mature • 3-4 lb. fruit

#05740 pack (~20 seeds) \$3.49

Uchiki Kuri

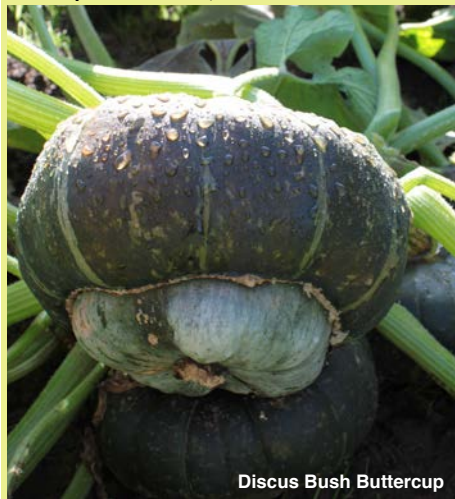

**DISCUS BUSH BUTTERCUP (NEW)** TA 🌱

An outstanding buttercup-type squash with superb sweet flavor and flaky texture. The dark orange flesh is great simply roasted or used to make sweet or savory winter pies. This variety matures earlier and stores longer than the standard. **90 days to mature • 3 foot bush-type plants • 3 pound fruits**

#07894 pack (~20 seeds) \$3.49

Discus Bush Buttercup

**UNCLE DAVID'S DAKOTA DESSERT** TA 🌱

This richly sweet and robust variety was developed by North Dakota grower David Podoll to have better flavor, yield and thicker orange flesh than the standard Buttercup variety. The fruit has dark green skin with a bluish "button" on the blossom end. A nice size for two servings.

**95-105 days to mature • 3-5 lb. fruit**

#05799 pack (~20 seeds) \$3.49

#06707 bulk (~250 seeds) \$19.99

Uncle David's

**HOKKAIDO STELLA BLUE** TA 🌱

An exceptional winter squash with rich, sweet flavor and fiberless orange flesh that bakes into a nice flaky texture, the simplest way to enjoy it, but it is used in so many different kinds of recipes. The medium size, flat-round, silvery blue fruits store well.

**95-105 days to mature • 2-5 lb. fruit**

#05204 pack (~20 seeds) \$3.49

Hokkaido Stella Blue

**QUEENSLAND BLUE (NEW)** TA 🌱

This superb winter keeper from "down under" has thick, gray-green skin, deep ribbing and sweet orange flesh that is wonderful for baking, soups and pies. The vigorous vines need room to roam. Most fruits are the classic turban shape, but a few will be pointed on the bottom.

**110 days to mature • 10-12 lb. fruit**

#05000 pack (~20 seeds) \$3.49

Queensland Blue

**SPAGHETTI** TA 🌱

**HEIRLOOM** Introduced in 1934, this unique squash has spaghetti-like strands of flesh that are delicious baked or boiled and served with butter or pasta sauce or even topped with pesto. Cut lengthwise, bake or steam, and separate the "spaghetti" strands with a fork. Stores for 3-4 months.

**90-100 days to mature • 3-4 lb. fruit**

#01518 pack (~20 seeds) \$3.49

Spaghetti

**PUMPKINS**

**HOWDEN** TA 🌱

**RARE** This classic large, ribbed orange pumpkin with thick sturdy handles is the best one for carving into fantastic Jack-o'-lanterns for Halloween. The large pumpkins grow on long spreading vines, so allow plenty of space. Enjoy the seeds roasted as a snack at your carving party.

**110-120 days to mature • 15-30 lb. fruit**

#01198 pack (~20 seeds) \$3.49

Howden

**ROUGE VIF D'ETAMPES** TA 🌱

**HEIRLOOM** This heirloom "Cinderella" pumpkin from France has stunning, deep burnt red orange skin, distinctive ribbing, a flattened shape, and mildly sweet flesh. Use them first as fall decorations, then "harvest" your display to make delicious pumpkin pies for Thanksgiving.

**110-150 days to mature • 15-40 lb. fruit**

#01445 pack (~20 seeds) \$3.49

#06701 bulk (~250 seeds) \$19.99

Rouge Vif D'Etampes

**WINTER LUXURY PIE (NEW)** TA 🌱

**HEIRLOOM** The sweet, dense flesh of this attractive, uniquely corky-skinned pumpkin is our first choice for making pumpkin pies! An heirloom from the 1890's, you can use it as a decoration until you are ready to cook it!

**95 days to mature • 6-10 foot vines • 10 inch diameter • 8 pound fruits**

#07893 pack (~20 seeds) \$3.49

Winter Luxury Pie

**LADY GODIVA (NEW)** TA 🌱

**HEIRLOOM** This heirloom pumpkin is known for its nutritious, "naked" green seeds and ornamental appearance. The hullless seeds are high in protein and can be eaten raw, right out of the pumpkin, though most prefer them toasted. A popular variety at pumpkin carving parties!

**105 days to mature • 6-10 ft. vines • 8-12 lb. fruits**

#07892 pack (~20 seeds) \$3.49

Lady Godiva

# TOMATOES

## ▪ QUICK TIP GROW GUIDE ▪

Tomatoes embody the joy of gardening more than any other fruit. We offer a wide selection of heirlooms and flavorful favorites to grow and enjoy. 'Heat tolerant' varieties are best for the south and early maturing varieties are best in the north. Tomatoes are best started indoors 4-6 weeks before your last frost date. Plant seeds ¼ inch deep and keep evenly moist. Optimum soil temperature is 70-90°F, which can be achieved with a heating mat.

### RED SLICERS - BUSH

#### STUPICE

**CONTAINER • HEIRLOOM** This is an extremely early-bearing red salad tomato with exceptional taste that does well even in cool, short season climates. Bred in Czechoslovakia, this dependable, prolific variety has dense, potato-like foliage on dwarf, indeterminate vines. Staking is optional.

**60-70 days to mature • Dwarf indeterminate • 1-3 oz. fruit**

**#01084 pack (~25 seeds) \$3.49**

Stupice

#### NORTHERN DELIGHT

With good flavor for an early tomato, this compact plant produces abundant 2 inch glossy red fruits perfect for salads. This cold tolerant variety was developed especially for short-season climates at North Dakota State University. You'll harvest buckets before the 4th of July!

**60-70 days to mature • Determinate • 4-6 oz. fruit**

**#06998 pack (~25 seeds) \$3.49**

Northern Delight

#### OREGON SPRING

First to ripen, and known for its sweet, juicy flavor, this is the premier early season tomato variety for areas with cool summer nights or short seasons. The compact, bushy plants will also set fruit in hot weather. Staking is not required.

**60-70 days to mature • Determinate • Will set fruit in heat • 4-6 oz. fruit**

**#01080 pack (~25 seeds) \$3.49**

Oregon Spring

#### LEGEND

This beautiful, full sized slicing tomato from Oregon State University has a well balanced sweet/acid flavor and is just right for sandwiches. The compact, disease resistant plants mature the uniform, nearly seedless fruit early and will also set fruit in the heat. Great for short seasons or containers.

**60-70 days to mature • Determinate • Will set fruit in heat • 6-9 oz. fruit**

**#06004 pack (~25 seeds) \$3.49**

**#06722 bulk (~250 seeds) \$19.99**

Legend

#### BURBANK (NEW)

**HEIRLOOM** Loads of fruity, slightly tart, perfect red round slicing tomatoes ripen early on strong bushy plants. This heirloom was developed by plant genius Luther Burbank in 1914.

**75 days to mature • 3-5 foot plant • Determinate • 6-8 oz. fruit**

**#07895 pack (~25 seeds) \$3.49**

Burbank

#### BURRELL'S SPECIAL (NEW)

This classic tomato produces large, smooth, uniform slicing tomatoes perfect for burgers and sandwiches. Better tasting and just as productive as today's modern hybrids, with disease resistance and heat tolerance. Staking is optional.

**75 days to mature • 3-5 foot plant • Determinate • 6-8 oz. fruit**

**#07896 pack (~25 seeds) \$3.49**

#### SUPER SIOUX

**RARE** An impressive, high yielding red slicing tomato with exquisite sweet, acid, earthy old time flavor. This medium sized variety from Nebraska is good for hot, dry areas and will set fruit in the heat. Staking is optional, but makes harvesting from the 4 foot long vines easier.

**75-80 days to mature • Semi-determinate • Will set fruit in heat • 4-6 oz. fruit**

**#01613 pack (~25 seeds) \$3.49**

**#07143 bulk (~250 seeds) \$19.99**

Super Sioux

#### RED HOUSE FREE STANDING

**RARE** Firm, juicy and delicious, medium large, round red fruits perfect for slicing are produced on bushy plants that do not need staking. Unusual, broad leaves protect the fruit from sunburn. Heat tolerant and crack resistant,

**80-90 days to mature • Determinate • Will set fruit in heat • 6-8 oz. fruit**

**#01083 pack (~25 seeds) \$3.49**

**#06732 bulk (~250 seeds) \$19.99**

Red House Free Standing

#### CAL ACE (NEW)

A very reliable producer of sweet, meaty, red beefsteak tomatoes on disease resistant, medium-sized plants. Sets fruit even in bad weather and ripens mid-early.

**85 days to mature • 3-5 ft. plant • Determinate • 7-9 oz. fruit**

**#07897 pack (~25 seeds) \$3.49**

Cal Ace

Burrell's Special

### MARTIAN GIANT

TA 🌱☀️

This large, juicy, scarlet red beefsteak has richly sweet, well balanced tomato flavor, and one slice is perfect for sandwiches or burgers. The compact, 3-4 foot vines are very productive, with up to 50 tomatoes each and set fruit over a long harvest period. Staking is optional.

95 days to mature • Semi-determinate • 7-12 oz. fruit  
#04458 pack (~25 seeds) \$3.49

Martian Giant

### RED SLICERS - STAKING

#### WISCONSIN 55

TA 🌱☀️

This medium-large red slicing tomato has firm, meaty, crack resistant fruits with outstanding flavor. Developed at the University of Wisconsin in the 1950's, this is one of the last improved open pollinated varieties before hybrids began to dominate the market. The tall vines need staking.

65-70 days to mature • Indeterminate • 6-8 oz. fruit  
#05001 pack (~25 seeds) \$3.49

Wisconsin 55

#### BEEFSTEAK

TA 🌱☀️

Meaty, bright red and juicy, this classic flat-round beefsteak tomato has rich, subtly acidic, traditional tomato flavor and is great on sandwiches, burgers and salads. The vigorous vines produce high yields of large, slightly ribbed fruits all season and need to be staked.

75-85 days to mature • Indeterminate • 10-20 oz. fruit  
#06074 pack (~25 seeds) \$3.49  
#07144 bulk (~250 seeds) \$19.99

Beefsteak

Giant of Siebenburgen

### GIANT OF SIEBENBURGEN (NEW) TA 🌱☀️

**HEIRLOOM** Wow! This heirloom tomato from Transylvania really produces the jumbos! These flavorful giants require both hands to pick them and can make enough sauce for the whole family.

85 days to mature • 5-6 foot plant • Indeterminate • 12-24 oz. fruit

#07898 pack (~25 seeds) \$3.49

### ITALIAN GIANT BEEFSTEAK (NEW) TA 🌱☀️

**HEIRLOOM** A richly flavored Italian heirloom that produces giant-sized, deep red tomatoes. One slice covers the whole plate, or chop them up for fresh salsa and sauces. Tall vines need staking.

90 days to mature • 6-8 foot plant • Indeterminate • 12-24 oz. fruit

#07899 pack (~25 seeds) \$3.49

Red Calabash

#### RED CALABASH

TA 🌱☀️

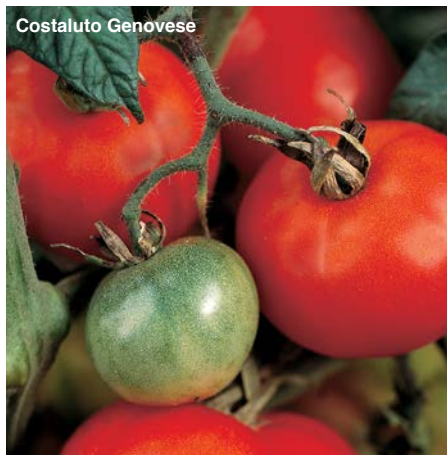

**HEIRLOOM • RARE** The delicious, thin skinned, sometimes ruffled fruits of this heirloom look like miniature beefsteak tomatoes. Traceable to Chiapas, Mexico, and documented by William Woys Weaver as appearing in a 1793 painting by Raphael Paele of Philadelphia. Staking is required.

80-90 days to mature • Indeterminate • 2-3 oz. fruit

#01195 pack (~25 seeds) \$3.49

#06731 bulk (~250 seeds) \$19.99

Costaluto Genovese

#### COSTALUTO GENOVESE

TA 🌱☀️

**HEIRLOOM** This old Italian heirloom might look "ugly", but the slightly tart flavor of these medium size slicing tomatoes is absolutely delicious. The prolific vines are vigorous and lush, producing well in hot or cool weather and need to be staked.

80-90 days to mature • Indeterminate • 8-10 oz fruit

#01594 pack (~25 seeds) \$3.49

#06720 bulk (~250 seeds) \$19.99

Italian Giant Beefsteak

### COLORS - STAKING

#### ARKANSAS TRAVELER

TA 🌱☀️

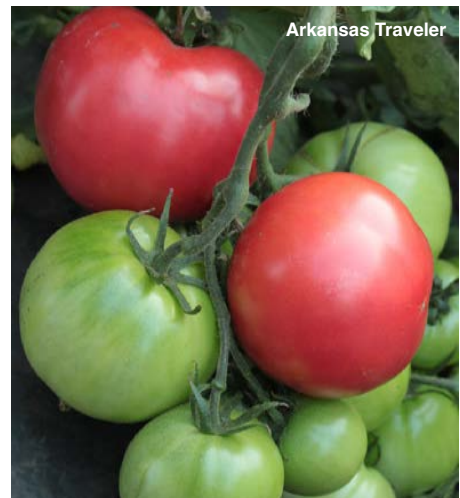

**HEIRLOOM** Incredibly delicious, this classic pink heirloom has traveled widely because of its solid dependability and balanced sweet/tart flavor. This variety tolerates high heat and humidity and is resistant to cracking. The disease resistant vines need to be staked.

80-90 days to mature • Indeterminate • 5-7 oz. fruit

#01590 pack (~25 seeds) \$3.49

#06713 bulk (~250 seeds) \$19.99

Arkansas Traveler

**BRANDYWINE**

**HEIRLOOM** The luscious, sweet flavor and meaty texture of these oversized pink heirloom tomatoes is rarely surpassed by other, mere mortal, varieties. The potato-leaved plants need a long mild growing season to ripen these thin-skinned beauties, but they are worth the wait. Staking is required.

80-90 days to mature • Indeterminate • 10-16 oz. fruit  
#01186 pack (~25 seeds) \$3.49

Brandywine

**TIGERELLA**

**HEIRLOOM** These early maturing, tiger striped, 2" diameter tomatoes have a fine, tangy flavor and are fun to grow with kids. The vigorous plants produce huge crops of red tomatoes with orange stripes and need to be staked. In frost free zones, the plants might keep producing all winter!

55-65 days to mature • Indeterminate • 4-6 oz. fruit  
#01615 pack (~25 seeds) \$3.49  
#06738 bulk (~250 seeds) \$19.99

Tigerella

**PINK BERKELEY TIE DYE (NEW)**

This fantastically colored, large-fruited heirloom-style tomato has deep, sweet earthy flavor. The pink fruit with green stripes is from the wine country of northern California.

90 days to mature • 5-7 foot plant • Indeterminate • 10-12 oz. fruit

#07877 pack (~25 seeds) \$3.49

Pink Berkeley Tie Dye

**YELLOW PERFECTION**

**HEIRLOOM** This memorable, 2-3" diameter yellow salad tomato is juicy, thin skinned and perfectly round. Originally from an old British seed company, the early maturing fruits ripen well in cool or hot weather. Staking is recommended.

70-75 days to mature • Indeterminate • 3-5 oz. fruit  
#01204 pack (~25 seeds) \$3.49

Yellow Perfection

**PORK CHOP (NEW)**

This large, yellow fruited, heirloom-style, low-acid tomato with richly sweet, mild flavor and thin, delicate skin is sure to please tomato-lovers with sensitive stomachs. Thick, meaty slices are wonderful on sandwiches, or cooked into a sunny sauce! Indeterminate.

90 days to mature • 5-7 foot plant • Indeterminate • 10-12 oz. fruit

#07878 pack (~25 seeds) \$3.49

Pork Chop

**MARVEL STRIPED**

**HEIRLOOM • RARE** These gorgeous, large, pleated yellow fruits have red striping from the blossom end and are deliciously sweet and juicy with few seeds. The vigorous, heat and drought tolerant vines need a long summer to mature and should be staked. Originally from the Zapotec people of southern Mexico.

90-110 days to mature • Indeterminate • 10-16 oz. fruit

#01190 pack (~25 seeds) \$3.49

#07142 bulk (~250 seeds) \$19.99

Marvel Striped

**PERSIMMON**

These medium to large, low-acid, persimmon-orange beauties are juicy and flavorful with tender skin and meaty flesh. One thick, succulent slice on toast makes a meal, but you'll want seconds. They also make gorgeous soups and sauces. The 5-6' vines need to be staked.

75-80 days to mature • Indeterminate • 5-7 oz. fruit

#04513 pack (~25 seeds) \$3.49

Persimmon

**DR. WYCHE'S (NEW)**

**HEIRLOOM** This richly flavored, low-acid, heirloom produces large, golden yellow, meaty fruits with a slightly flattened shape, some green shoulders and few seeds. The tall vines have fairly sparse foliage, produce all season and need to be staked.

80 days to mature • Indeterminate • 10-15 oz. fruit

#05746 pack (~25 seeds) \$3.49

Dr. Wyche's

**AMANA ORANGE**

**HEIRLOOM** A single slice of these very large, late orange tomatoes with flavorful, low-acid, meaty flesh will cover a full piece of bread for your open faced tomato sandwich. This orange heirloom from the Amana Colonies in Iowa has tall vines that need staking.

**75-90 days to mature • Indeterminate • 12-16 oz. fruit**  
**#05100 pack (~25 seeds) \$3.49**

Amana Orange

**ORANGE QUEEN (NEW)**

These juicy, delicious bright orange tomatoes have mild, low-acid flavor and few seeds. Their vibrant color brightens up salads and salsa and makes lovely low-acid sauce. The productive vines thrive in short-season, northern areas and are easier to pick when staked.

**85 days to mature • Indeterminate • 4-6 oz. fruit**  
**#01601 pack (~25 seeds) \$3.49**

Orange Queen

**CHEROKEE PURPLE**

**HEIRLOOM** This beautiful mahogany colored tomato with green shoulders and greenish-brown interior has deep, well balanced tomato flavor. The vigorous plants are more productive than most heirlooms, grow well in the South and need to be staked.

**80-90 days to mature • Indeterminate • 8-10 oz. fruit**  
**#05359 pack (~25 seeds) \$3.49**  
**#06717 bulk (~250 seeds) \$19.99**

Cherokee Purple

**PAUL ROBESON**

**HEIRLOOM** The earthy, perfectly balanced sweet/acid flavor of this rare "black" slicing tomato wins flavor contests every year. The fruit is maroon colored with green shoulders and meaty red flesh. The highly productive plants need to be staked.

**85-90 days to mature • Indeterminate • 8-10 oz. fruit**  
**#05805 pack (~25 seeds) \$3.49**  
**#06728 bulk (~250 seeds) \$19.99**

Paul Robeson

**PASTE**

**EARLY ROMA**

This early maturing, pear shaped paste tomato has delicious, meaty, bright red fruit ideal for making fresh sauce, paste and canning. The compact, productive vines are disease resistant and do not need staking.

**70 days to mature • Indeterminate • 2-4 oz. fruit**  
**#06465 pack (~25 seeds) \$3.49**

Early Roma

**ROMA PASTE**

Long renowned for savory sauces and pastes, this rich, meaty, plum-shaped fruit all ripens about the same time on compact vines that need no staking.

**75-85 days to mature • Determinate • 2-4 oz. fruit**  
**#01197 pack (~25 seeds) \$3.49**

Roma Paste

**SAN MARZANO**

**HEIRLOOM** The classic Italian paste tomato with rich, complex, sweet flavor essential for making traditional Neapolitan sauces and whole canned tomatoes. The large plants produce loads of small, elongated red tomatoes late in the season and need to be staked.

**80-90 days to mature • Indeterminate • 1-3 oz. fruit**  
**#04760 pack (~25 seeds) \$3.49**

San Marzano

**AMISH PASTE**

**HEIRLOOM** The superior, pear-bodied flavor and brilliant color of this large, meaty, heart-shaped Amish heirloom makes excellent sauce, paste and fresh salsa. The fruit ripens throughout the summer for a continuous supply. The vigorous vines need staking.

**80-90 days to mature • Indeterminate • 5-7 oz. fruit**  
**#05369 pack (~25 seeds) \$3.49**

Amish Paste

**TORO F-1**

This firm, plum-shaped, tomato produces large red fruit with great flavor and solid texture fantastic for making fresh salsas, cooking into thick, rich sauces or canning whole. The disease resistant, hybrid plants ripen their fruit at once and do not need to be staked.

**70-80 days to mature • Determinate • 3-4 oz. fruit**  
**#06464 pack (~25 seeds) \$3.49**

Toro F-1

## PLUM CHERRIES

### BLUSH

These 2" long cherry tomatoes have an unforgettable tropical sweet flavor reminiscent of pineapple and are ready to pick when the pink blush starts to appear over the yellow background. Widely adapted with a heavy fruit set over an extended period, the tall vines need staking.

**75-80 days to mature • Indeterminate • 1-3 oz. fruit**  
**#06036 pack (~25 seeds) \$3.49**  
**#06716 bulk (~250 seeds) \$19.99**

Blush

### MAGLIA ROSA

**CONTAINER** This cherry tomato produces truly unique, mottled pink, long, egg-shaped fruits with bright, lightly sweet acidic flavor. Harvest just as the fruit turns light pink for optimum flavor. The small plants are perfect for growing in hanging baskets or patio containers.

**70-75 days to mature • Semi-determinate • 1-3 oz. fruit**  
**#05804 pack (~25 seeds) \$3.49**

Maglia Rosa

### BLACK PLUM

**RARE** This unique Russian variety produces small, plum-shaped fruits with deep mahogany brown color and notably extra sweet flavor for salads. Slice them in half and dry to concentrate the flavor of summer for on-the-go snacking all year long. Stake the tall vines.

**75-80 days to mature • Indeterminate • 1-2 oz. fruit**  
**#01570 pack (~25 seeds) \$3.49**

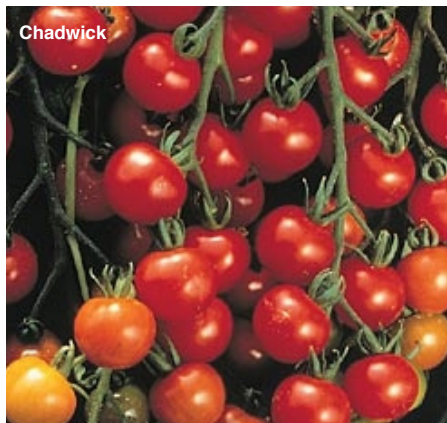

Black Plum

## CHERRIES

### CHADWICK

Introduced by the late horticultural genius Alan Chadwick, this large, mouthwatering cherry tomato has a tangy, sweet favor. It produces huge yields and is disease resistant, making it a popular choice among gardeners.

**(80-90 days) • Indeterminate • 1½ oz. fruit**  
**#01199 pack (~25 seeds) \$3.49**

Chadwick

### RED CHERRY

This classic variety produces loads of delicious, juicy red cherry tomatoes that begin ripening early and keep producing all summer, north or south. The vigorous vines need to be staked.

**65-75 days to mature • Indeterminate • 1½ oz. fruit**  
**#06075 pack (~25 seeds) \$3.49**

Red Cherry

### FOX CHERRY

Prolific vines bear large, red cherry tomatoes with rich, full-bodied, mildly acidic flavor. Its outstanding color and flavor make this cherry variety one of the finest we've found in our trials. The healthy, vigorous vines need to be staked.

**80-90 days to mature • Indeterminate • 1½ oz. fruit**  
**#01085 pack (~25 seeds) \$3.49**

Fox Cherry

## RED PEAR

**HEIRLOOM** This popular variety produces cute little red pear-shaped tomatoes with superb tangy flavor for salads and vegetable platters. The uniform, crack resistant fruit is produced all summer on productive vines that need to be staked. Try growing this together with Yellow Pear.

**70-75 days to mature • Indeterminate • 1 oz. fruit**  
**#05806 pack (~25 seeds) \$3.49**

Red Pear

## FARGO YELLOW PEAR

**HEIRLOOM** Popular since the late 1800s for its tender, mild-flavored, yellow pear-shaped fruits that are low in acid with a sweet lingering flavor delicious in salads or pickled. Clusters of 1-2" fruits proliferate all summer on tall, disease resistant plants that need to be staked.

**70-80 days to mature • Indeterminate • 1 oz. fruit**  
**#01620 pack (~25 seeds) \$3.49**  
**#06741 bulk (~250 seeds) \$19.99**

Fargo Yellow Pear

# TOMATO ACCESSORIES

## TOMATO CAGE (NEW)

The 4" Tomato Tower with support rings is a versatile garden accessory and works well as a stand-alone tomato cage that can be used in your garden. It allows the flexibility of adding only the number of rings you need as your plants grow.

#220-07847 \$9.99

## TOMATO GREENHOUSE (NEW)

Get the most from tomato plants with their own mini-greenhouses made from red, perforated plastic film. Red color enhances tomato growth. The Tomato Green House allows air circulation and heat retention for faster growing tomatoes while protecting against rain, split and pests.

#220-07832 \$9.99

## SOFT PLANT TIES (NEW)

Ideal for safely securing fragile and sensitive tomato vines to stakes, string and cages. Soft outer rubber layer may be cut to length with scissors or snips.

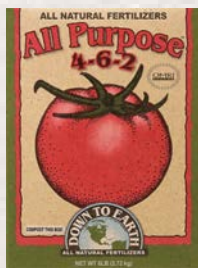

#220-07848 (15 feet) \$5.99

## ALL PURPOSE FERTILIZER

A gentle, non-burning fertilizer perfect for vegetables, herbs & flowers. Formulated with top quality organic ingredients and designed to deliver a steady supply of essential nutrients, while enhancing soil fertility.

#220-07026 (6 lb. box) \$12.99

## DOUGLAS FIR TRELLISES (NEW)

Having a bountiful tomato crop is a major goal for every gardener. But controlling these tremendous plants can be a daunting task. Which is why we have developed a line of Douglas Fir trellises that are as functional as they are attractive.

### BENEFITS OF OUR DOUGLAS FIR TRELLIS LINE:

Attractive wood design looks great in any garden

Trellises are crafted to support virtually any vining plant in your garden

When stored properly, they will last for many years

All of the trellises come assembled or are easy to assemble upon arrival\*

\*some trellises require minor assembly

48" or 59" Vegetable Trellis (2 trellises per order)

Vegetable Trellis as coldframe (tarp not included)

## 59 INCH VEGETABLE TRELLIS (NEW)

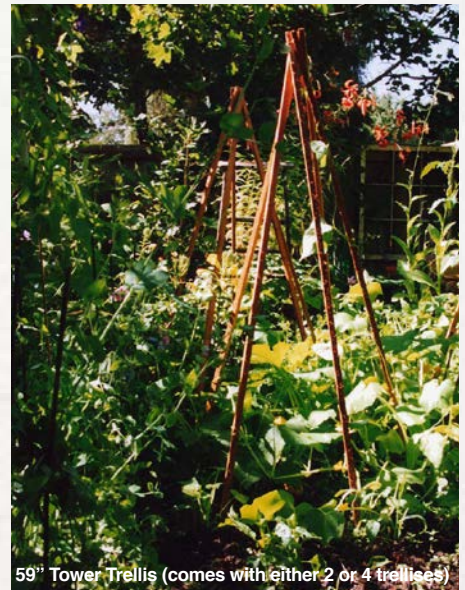

An incredibly attractive and functional plant trellis that adds much needed height to your garden for your tomatoes, cucumbers, beans, squash, peas and vining flowers. The strong wide stance is designed to maximize your garden growing area, keep bugs off your plants, and utilize the limited space on apartment decks, raised beds, and planted pots.

#230-07879 (set of 2 trellises: 59" X 13 1/2") \$59.99

## 48 INCH VEGETABLE TRELLIS (NEW)

Same quality as the 59 Inch Vegetable Trellis but shorter and cost less. 48 inches X 13 1/2 inches X 1 1/2 inches folded flat. Proudly Made in the USA.

#230-07880 (set of 2 trellises: 48" X 13 1/2") \$49.99

59" Tower Trellis (comes with either 2 or 4 trellises)

## 59 INCH TOWER TRELLIS (NEW)

Each tower has four high grade unfinished Douglas Fir wood post that are easy to set up and will last for years when stored during the winter. These delightful trellises have extra pre-drilled holes for your string. A great way to add height to your garden.

#230-07881 (set of 2 towers: 59" tall) \$29.99

#230-07882 (set of 4 towers: 59" tall) \$49.99

5' Tomato Trellis (1 trellis per order)

5' Tomato Trellis as coldframe (tarp not included)

## 5 FT. X 5 FT. TOMATO TRELLIS (NEW)

The ultimate tomato support! This 5 foot wide plant support is perfect for growing multiple vining plants in a small area. Comes fully assembled and pre-hinged. Simply spread the base, tie the two top shelves to the base and stake to the ground. Also makes a great cold frame simply by putting a clear tarp over the structure.

#230-07883 (one trellis: 59" x 59" x 13 1/2") \$79.99

# TOMATILLOS

■ QUICK TIP GROW GUIDE ■

Enjoyed for their tangy flavor both fresh and cooked, they are essential for authentic Salsa Verde and other Mexican dishes. Start Tomatillos indoors, not more than 4 weeks before your last frost date. Plant seeds ¼ inch deep and keep evenly moist. Harvest when the fruit is plump and has split open its protective papery husk.

## VERDE

TA/R ☀️/☀️

For salsa, tomatillos tone down the hotness of chiles and help blend the other flavors. The firm, green fruits are wrapped in a papery husk that splits open as the fruit reaches full size and maturity. Fruits are used fresh (tart) or roasted (sweet) for salsas, soups and dips.

60–80 days to mature • 2–3 oz. fruit

#01676 pack (~50 seeds) \$3.49

Verde

## PURPLE DE MILPA

TA/R ☀️/☀️

This prized traditional strain yields plump, 2" diameter fruits that ripen to a rich purple where the husk splits and exposes the skin to light. Delicious raw or stewed, tomatillos are the main ingredient in salsa verde.

70–90 days to mature • 2–3 oz. fruit

#01179 pack (~50 seeds) \$3.49

Purple De Milpa

# TURNIPS

■ QUICK TIP GROW GUIDE ■

Turnips are sweet and tangy, with delicious leafy greens that are very popular in southern cooking. Direct seed turnips ½ inch deep, 1 inch apart, and allow 12–18 inches between rows. Cover with sand or vermiculite to prevent soil crusting and keep seedbed evenly moist. Optimum soil temperature is between 65–85°F.

## PURPLE TOP WHITE GLOBE

HB ☀️/☀️/☀️

**HEIRLOOM** This nutritious heirloom turnip has smooth round roots that are bright purple above the ground and white below. Best eaten when young and tender (2" diameter roots) the flavor is mildly spicy like radishes. Greens & roots are good steamed or raw.

45–60 days to mature • 2–4 in. roots

#01477 pack (~350 seeds) \$3.49

Purple Top White Globe

## TOKYO MARKET

HB ☀️/☀️/☀️

This popular, early, pure white Japanese turnip is exceptionally crisp and fresh, with delicate mild sweet-radish flavor. Harvest young, when the roots are just 2 inches wide, for tender baby roots that can be chopped into fresh salads as well as the delicious green tops.

30–40 days to mature • 2–4 in. roots

#06028 pack (~350 seeds) \$3.49

Tokyo Market

# WHEATGRASS

■ QUICK TIP GROW GUIDE ■

Wheatgrass is a popular choice for its health benefits and ease of growth. Soak seeds overnight for best results, then plant ½ inch deep. Sprouting occurs almost immediately and harvestable blades appear in 7–10 days. Can be grown indoors year round.

## WHEATGRASS (NEW)

HB ☀️/☀️/☀️

Wheat grass contains an abundance of vitamins, minerals and amino acids. The seeds germinate rapidly into beautiful greens that can be juiced or used to enhance the flavor of your favorite salad. Soak seeds overnight and sprout before planting.

10 days to harvest • 7–10 inch shoots • Grow indoors year-round

#07744 pack (~1,000 seeds) \$3.49

Wheatgrass

## SEEDS OF CHANGE® PREMIUM GROWING MIX (NEW)

Our custom blend of premium ingredients makes this organic potting soil an excellent mix for seed starting and transplanting. It is rich in earthworm castings, as well as a blend of beneficial micro organisms and mycorrhizal fungi to promote expansive root growth and efficient nutrient uptake.

#220-07058 (8 quart bag) \$7.99

# BASIL

## ▪ QUICK TIP GROW GUIDE ▪

*Aromatic basil is a perfect companion plant with tomatoes. It is a warm season crop and is best started indoors 4-6 weeks before your last frost date. Plant seeds ¼ inch deep and place on a heating mat or in a warm place (optimum soil temperature is 70-90°F). Transplant 12 inches apart, or in containers. It can be direct seeded outdoors throughout the summer to keep you in fresh pesto!*

## ITALIAN BASIL

### GENOVESE

This classic basil has mildly spicy flavor and sweet fragrance fantastic for seasonings, salads, garnishes and pesto. Pick the leaves frequently to encourage bushy new growth for a long harvest season.

**65-75 days to mature • 14-20 in. tall • Slow to bolt to seed**

**#06065 pack (~125 seeds) \$3.49**

### SUPER SWEET CHEN

The fully savoyed leaves, of this Italian large leaf basil are bright green and glossy, with a strong sweet aroma and outstanding flavor (better than all others we have grown) for making great pesto. Caprese salad or tomato sauce. This is must for any kitchen garden.

**65-75 days to mature • 24-30 in. tall • Slow to bolt to seed**

**#05087 pack (~125 seeds) \$3.49**

### GENOVESE SWEET

**HEIRLOOM** This classic pesto basil concentrates flavor with fragrance and graces sunny windowsills across America. The highly productive, bushy plants of Genovese Sweet are slow to bolt to seed, extending the harvest period.

**65-75 days to mature • 14-20 in. tall • Slow to bolt to seed**

**#01088 pack (~125 seeds) \$3.49**

Genovese

Super Sweet Chen

Genovese Sweet

## SPECIALTY BASIL

### THAI

This basil offers an intensely sweet, anise-like fragrance with a hint of mint and citrus characteristic especially tasty in Thai cuisine. 1½-2½" leaves are green at the base of the plant and grow purple towards the flowers.

**75-80 days to mature • 16-20 in. tall**

**#01703 pack (~125 seeds) \$3.49**

Thai

### LEMON

**HEIRLOOM** Intensely fragrant 1½-2" leaves meld the delightful flavors of lemon and basil. Used to invigorate teas, and applied liberally in salads, dressings, potpourris, or to enhance any stir-fry, it is also known as "kemangi" in Indonesia.

**60-70 days to mature • 10-16 in. tall**

**#01336 pack (~125 seeds) \$3.49**

Lemon

## DILL

### ■ QUICK TIP GROW GUIDE ■

Both the leafy greens and seeds of dill are used to flavor fish, potatoes and pickles. After harvesting the leafy greens, allow the plants to flower to attract beneficial insects and mature the seeds. Direct seed in the garden after the last frost and throughout the summer. Plant seeds ¼ inch deep, 1-2 inches apart.

### DILL

HA OR R 🌱☀️🌿

An attractive, medium tall variety with a lovely aroma and thicker leaves than other dills. This is the best one to grow for collecting seed for pickling and dried culinary use. Time your planting to be ready the same time as your pickling cucumbers.

60-70 days to mature • 30-36 in. tall

#06069 pack (~425 seeds) \$3.49

Dill

### DUKAT

HA OR R 🌱☀️🌿

Aromatic, never bitter or overly pungent, try this one for the sweetest of all dills. With a delicate fragrance, Dukat stays in the leaf stage longer than other varieties, allowing more time to harvest for cucumber and cream cheese sandwiches or creamy dill sauces used on fish.

40-55 days to mature • 18-24 in. tall

#01710 pack (~425 seeds) \$3.49

Dukat

## MARJORAM

### ■ QUICK TIP GROW GUIDE ■

Sweeter than oregano, with similar uses for flavoring savory dishes. Start seeds indoors in spring or late summer. Plant the tiny seeds shallowly, ½ inch deep, and be patient. Transplant 12 inches apart in the garden or in containers. Prefers full sun and good drainage.

### SWEET MARJORAM

HP OR TA 🌱☀️🌿

HEIRLOOM Sweet marjoram leaves and shoots are widely used in seasoning. It is similar in appearance to oregano (sometimes used as a substitute), but its taste is sweeter and milder. Use fresh all year or harvest for drying when the plants bloom in late June through August.

USDA zones 8-10 • 60-80 days to mature • 12-24 in. tall

#01771 pack (~200 seeds) \$3.49

Sweet Marjoram

## PARSLEY

### ■ QUICK TIP GROW GUIDE ■

This breath-freshening herb is widely used as a garnish and flavoring in soups, salads and main dishes. Start seeds indoors early in the spring. Plant seeds ½-¾ inch deep and keep moist. May take 3-4 weeks to germinate. Transplant 8-12 inches apart. Harvest outer sprigs throughout the summer and fall.

### FOREST GREEN

HB 🌱☀️🌿

This finely curled and compact garnish herb has long, stiff, upright stems with dark green, double and tripled curled leaves. Use it fresh or dried for flavoring savory dishes. This compact plant does well in containers and the garden and overwinters in most places.

USDA zones 4-9 • 75-85 days to mature • 12-18 in. tall

#01102 pack (~150 seeds) \$3.49

Forest Green

## ITALIAN FLAT LEAF

HB 🌱☀️🌿

HEIRLOOM • MEDICINAL This tried and true heirloom parsley has large, flat leaves with concentrated flavor for fresh seasoning, drying, or freezing. Full of vitamins, nutrients and anti-oxidants, parsley is an under-appreciated super-food to incorporate into your healthy diet. Freshens the breath too!

USDA zones 4-9 • 75-85 days to mature • 12-18 in. tall

#01360 pack (~150 seeds) \$3.49

#07156 bulk (~1,500 seeds) \$19.99

Italian Flat Leaf

## SAGE

### ■ QUICK TIP GROW GUIDE ■

Used in stuffing, poultry dishes and sausage, sage is a garden staple. Start seeds indoors in early spring. Plant seeds shallowly, ½-¾ inch deep, keep moist. Germination may take up to 21 days at soil temperatures between 60-75°F. Transplant 12-18 inches apart into well drained soil in full sun to part shade. Also works well in containers.

### GARDEN SAGE

HP 🌱☀️🌿

HEIRLOOM • MEDICINAL Classic sage has been grown for centuries as a culinary and medicinal herb. The fragrant, soft, gray-green leaves are used fresh or dried for seasoning poultry, sausages and breads. The hardy plants look beautiful in the garden and the abundant purple flowers attract bees.

USDA zones 5-9 • 24-36 in. tall

#01367 pack (~100 seeds) \$3.49

Garden Sage

## ALYSSUM

**WHITE SWEET ALYSSUM** HA 🌱☀️🌿  
 The pure white, honey scented blossoms of this low-growing garden favorite attract beneficial insects including syrphid flies that eat aphids. Plant freely throughout the garden to control pests. Blooming from late spring through fall, it thrives in both cool and hot weather.  
**50-60 days to flower • 3-6 in. tall**  
**#04537 pack (~150 seeds) \$3.49**  
**#06499 bulk (~1,500 seeds) \$19.99**

## BORAGE

**BORAGE** TA/R 🌱☀️🌿  
**HEIRLOOM** Edible blue star flowers grace soft foliage on this easy-to-grow companion plant that attracts bees and beneficial insects. The leaves impart a cucumber-like flavor in salads and teas. Use the flowers in salads or on cakes. This plant is believed to lift the spirits.  
**60-70 days to flower • 1-2 ft. tall**  
**#01029 pack (~100 seeds) \$3.49**

## COSMOS

**MIXED SEASHELL** HA/R 🌱☀️🌿  
 These bushy plants with feathery foliage are loaded with exquisite flowers that have unique tubular petals in a range of pinks and white. The plants look great in a mass planting, bloom continuously into fall and can be cut for cheerful summer bouquets.  
**80-90 days to flower • 4-5 ft. tall**  
**#01110 pack (~75 seeds) \$3.49**

## CALENDULA

**ORANGE ZINGER** HA/R 🌱☀️🌿  
**MEDICINAL** The vibrant orange daisy-like flowers of this frost-tolerant plant brighten the garden in spring and well into fall. The edible petals beautify salads, the long stems are ideal for bouquets and the rich aroma and high resin content are prized for skin-soothing salves.  
**85-95 days to flower • 1-2 ft. tall**  
**#04450 pack (~125 seeds) \$3.49**  
**#06502 bulk (~1,000 seeds) \$19.99**

## DAISY

**SHASTA** HP 🌱☀️🌿  
 The classic daisy is a versatile border plant. Attracts beneficial insects and makes a great cut flower.  
**USDA Zones 5-9**  
**#01626 pack (~75 seeds) \$3.49**

## AMARANTH

**LOVE-LIES-BLEEDING** TA/R 🌱☀️🌿  
 The tall, branching plants of this easy to grow annual are adorned with graceful ropes of cascading, deep red, lavish, plumes that look stunning in the garden or in fresh or dried bouquets.  
**60-70 days to flower • 4-5 ft. tall**  
**#01811 pack (~150 seeds) \$3.49**

## CORNFLOWER

**BACHELOR BUTTONS** HA/R 🌱☀️🌿  
**HEIRLOOM** These brilliant blue flowers bloom prolifically and provide a stunning accent in bouquets, fresh or dried. They tolerate poorer soils and look great in the garden as a mass planting that attracts butterflies, bees and birds.  
**80-90 days to flower • 2-3 ft. tall**  
**#01734 pack (~100 seeds) \$3.49**  
**#06500 bulk (~1,000 seeds) \$19.99**

**ZULU PRINCE** HA 🌱☀️🌿  
 One of our favorite flowers, Zulu Prince is a delight for the eyes and the imagination. Thrives in drought. Eye catching, dynamic cut flower.  
**Blooms close at night • 80-90 days to bloom**  
**#01627 pack (~75 seeds) \$3.49**

## ICELAND

HP/HB    

Brilliant, papery 3" blooms in bright yellow, orange and white have a sweet fragrance. To use in arrangements, cut just before buds open and sear the stem end briefly in a flame to seal in the white latex. A true perennial that is generally grown as an annual or biennial.

**USDA zones 3-9 • 80-90 days to flower • 16-24 in. tall**

**#05005 pack (~150 seeds) \$3.49**

Iceland

## HUNGARIAN BLUE BREAD SEED

**HEIRLOOM • RARE** Grow your own poppy seeds! Beloved for its beautiful spring show of papery bluish-purple flowers against blue-gray foliage, followed by closed pods of edible poppy seeds. After harvesting the seeds, the dried pods can be used in flower arrangements.

**80-90 days to flower • 2-3 ft. tall**

**#01302 pack (~150 seeds) \$3.49**

**#07183 bulk (~1,500 seeds) \$19.99**

## DAHLIA FLOWERED MIX

TA 🌱 🌞 🌿 🍷 🍷

Ranging from soft to bright shades of yellow, rose, orange, gold, white, red and purple, these lushly petalled flowers rival dahlias in their depth and beauty, but are much easier to grow. Cut the 5-6" diameter blooms often for bouquets to keep them blooming all summer long.

60-70 days to mature • 36-48 in. tall  
#07001 pack (~75 seeds) \$3.49

Dahlia Flowered Mix

## APPLE TREES

Our robust two-year old trees are approximately 4 feet tall and are shipped bare root. They should bear fruit in 2-4 years and grow 14-16 feet tall. For best pollination, grow three different varieties in close proximity to each other. The ideal planting time is early spring. All varieties are heirloom, semi-dwarf and certified organic.

Quantities are limited. Shipments begin Mid-January and run through early April.

Planting instructions are included and describe how to store your tree until after last frost.

Shipping may be delayed by extreme cold.

Trees shipped FedEx Ground. Physical address required. Continental U.S. only.

Trees are guaranteed to arrive safe & healthy.

### ARKANSAS BLACK (NEW)

Strikingly beautiful, dark purplish-red fruits turn nearly black at maturity. Very crisp flesh, coarse, greenish-white, sharp flavor, improving with age. Resistant to cedar-apple rust and some resistance to scab and fireblight. Will tolerate low desert heat. Consider Grimes Golden and/or Newtown Pippin for pollination.

#231-07923 \$49.99

Arkansas Black

### ASHMEAD'S KERNEL

An old English russet apple with a crisp nutty snap. The fruit explodes with champagne-sherbet juice infused with a scent of orange blossom. Some resistance to scab and cedar apple rust.

#231-06843 \$49.99

Ashmead's Kernel

### BLACK TWIG (NEW)

The ultimate in a tart apple; excellent for fresh eating & cooking and is often used for its tannic acid, which adds body to cider. This apple is an excellent keeper and should be stored in the refrigerator for peak flavor.

#231-06845 \$49.99

Black Twig

### BRAMLEY SEEDLING (NEW)

If you love a tart apple this is it. Makes a great sauce. A large green apple with a sharp acid taste and very high in Vitamin C. Lately gaining popularity in the states with chefs and farmers market customers. A large, vigorous tree that bears heavily. Scab resistant. Consider Grimes Golden and/or Newtown Pippin for pollination.

#231-06846 \$49.99

Bramley Seedling

### COX'S ORANGE PIPPIN

This variety is highly esteemed in England as a dessert apple. It has crisp, aromatic, yellow flesh with spicy overtones. Best apples for espalier.

#231-06848 \$49.99

Cox's Orange Pippin

### GOLDEN RUSSET

The "champagne" of old-time cider apples, the crisp, highly flavored, fine-textured, yellow flesh makes very sugary juice and is also delicious for eating and drying. The gray-green to golden bronze skin has a coppery orange cheek and is heavily russeted.

#231-07249 \$49.99

Golden Russet

### GRIMES GOLDEN

This variety has a more complex, spicier flavor than its offspring Golden Delicious. It is highly prized for its superior dessert quality and an excellent pollinator for other varieties. The Grimes Golden is self-fertile, so it does not require another variety for pollination.

#231-06850 \$49.99

Grimes Golden

### HUDSONS GOLDEN GEM

Perhaps the finest eating russet with crisp, breaking, sugary flesh and a distinct nutty flavor that resembles the Bosc pear. The conical, elongated fruit has yellow russeted skin. Quite disease resistant to apple scab and other common apple diseases.

#231-07252 \$49.99

Hudsons Golden Gem

### NEWTOWN PIPPIN

This was George Washington's favorite apple. It is yellow-green with firm, crisp flesh and a refreshing piney tartness. It is a self-fertile variety that also serves as a pollinator for other apple trees.

#231-06852 \$49.99

Newtown Pippin

### NIEDWETZKYANA (NEW)

Large bright red apple with brilliant red flesh. Flavor is balanced between sweet and tart and sweetens if left on the tree longer. A vigorous growing tree, these apples ripen at the end of September in most locations. Makes great apple pies that resemble pies made from cherries.

#231-07924 \$49.99

Niedwetzkjana

### NORTHERN SPY

One of the best winter apples in the East, also does well in the Northwest. Large, vigorous tree with attractive, large, thin-skinned fruit. Greenish-yellow skin is flushed and striped scarlet red. Flesh yellow to white, rather firm, very tender, crisp, juicy, slightly sweet and mildly acidic. Stores well. Good for pies or eating out of hand.

#231-06853 \$49.99

Northern Spy

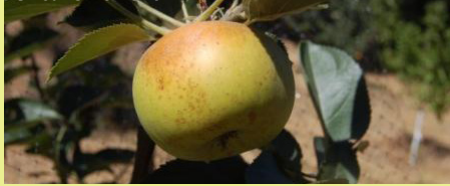

**ORLEANS REINETTE (NEW)**

Its brown/red flush and glowing gold very easily suggest that if Rembrandt had painted a fruit piece he would have chosen this apple. Very juicy flesh with a taste first of sweet oranges followed by a nutty flavor. Round, flattened, greenish-yellow skin with some cinnamon russet in most cases wrapped around firm, creamy white, fine-textured flesh. Trees are vigorous, heavily spurred.

#231-07925 \$49.99

Orleans Reinette

**PINK PEARL**

A firm, pink-fleshed, pearly-skinned apple that is not just a novelty, but a great tasting apple with tart to sweet-tart flavor depending on time of harvest. Makes gorgeous pink applesauce and fruit tarts and has attractive blooms. One of our most popular varieties.

#231-07254 \$49.99

Pink Pearl

**RHODE ISLAND GREENING (NEW)**

Extremely popular apple in the eastern United States for over 200 years. The Rhode Island Greening is a cooking apple when it's freshly picked packing plenty of tartness and later as an eating apple that keeps well right into spring. Fruit medium to large, round and symmetrical with green skin and occasional orange flush. One of the best pie apples and excellent for fresh eating if tree-ripened. Consider Grimes Golden and/or White Pearmain for pollination.

#231-07255 \$49.99

Rhode Island Greening

**ROXBURY RUSSET**

This excellent old American cider apple is also good for eating fresh. Remarkable for its amount of sugar, this apple has firm, slightly coarse, yellow-white flesh. This variety is resistant to scab and cedar apple rust.

#231-06854 \$49.99

Roxbury Russet

**SNOW FAMEUSE (NEW)**

One of the oldest and most desirable dessert apples, a parent of the aromatic McIntosh. Flesh is tender, spicy, distinctive in flavor and snow white in color with occasional crimson stains near the skin. Very hardy, heavy bearing tree that is excellent for home orchards. Delicious fresh off the tree, in cider, or in culinary creations.

#231-06855 \$49.99

Snow Fameuse

**SPITZENBERG**

This was Thomas Jefferson's favorite apple. Unmatched in flavor, the fruit is great off the tree, but flavor radically improves in storage. The fruit flesh is tinged yellow, firm, aromatic and has a complex flavor.

#231-06856 \$49.99

Spitzenberg

**WHITE PEARMAIN**

The White Pearmain is the oldest known English apple. The mildly sweet and pleasantly aromatic flesh is firm, fine-grained and crisp. It is a self-fertile variety that also serves as a great pollinator for other apple trees.

#231-06858 \$49.99

White Pearmain

**WHITE LIMBERTWIG (NEW)**

The tree is vigorous and disease resistant. One of the best in the Limbertwig family. A large, green-yellow apple overlaid with a whitish coloration. Aromatic, rich, juicy dense flesh. Great for cider, pies, and fresh eating. Beautiful weeping growth habit.

#231-07926 \$49.99

White Limbertwig

**WICKSON (NEW)**

Noted apple breeder, Albert Etter, named this apple after E.J. Wickson, a distinguished California pomologist, who was his friend and mentor. Perfect cider apple: spicy, with extraordinary sweetness and a pronounced acid tang. Size is that of a large crab apple. Reputed to make wonderful champagne cider and excellent fresh off the tree. One of our favorite eating apples offered. Fruit hangs in garlands.

#231-07927 \$49.99

Wickson

**GRIP-EZ FRUIT WEDGE CORER/WEDGER**

Cores and slices apples and other fruit into even sections in one easy motion. Stainless steel blades and santoprene grips will ensure years of enjoyment.

#220-07734 \$9.99

## GRAFTED ORGANIC SEEDLINGS

Grafting is a natural process joining the top part of one plant (scion) to the root system of another plant (rootstock) without any genetic modification. As tissues heal, the two plants fuse, combining the scion's exceptional fruit quality & flavor with the rootstock's vigor, disease resistance, and increased water and nutrient uptake - which leads to high yields.

Choose one or more of our grafted collections and experience the difference for yourself.

## THE GRAFTED DIFFERENCE (compare the photos below to see the benefits of grafting)

Grafted

Non-Grafted

# 10 WONDERFUL FRAGRANCES

## SANDALWOOD PATCHOULI

The distinct spiciness of sandalwood & patchouli is balanced by dry top notes of Italian black leather and Venezuelan Tonka bean. This is for the patchouli lover who craves a little intrigue.

#501-07915 (6.5oz. Candle; 60+ hour burn time) \$22.00

## WILD LAVENDER

Inspired by wild lavender that grows in the warmth of the English countryside, this pure fragrance is given new dimension with notes of vibrant ripe lime, sweet lilac and earthy vetiver.

#501-07913 (6.5oz. Candle; 60+ hour burn time) \$22.00

## NOBLE FIR

Savor the intoxicating woody aroma of a Noble Fir tree year-round. This outdoorsy green fragrance exemplifies fresh forest air, pine needles and warm spicy musk.

#501-07909 (6.5oz. Candle; 60+ hour burn time) \$22.00

## HIBISCUS & STAR FRUIT

Fully ripened and amber in color the star fruit adds sweet and tart notes to this tropical fragrance while Chinese Hibiscus flower freshens with watery petals and rose notes.

#501-07918 (6.5oz. Candle; 60+ hour burn time) \$22.00

## SEA SALT & DRIFTWOOD

Revitalizing and earthy, this fragrance embodies the misty ocean air of the East with notes of flaked sea salt, musky driftwood and marine minerals.

#501-07920 (6.5oz. Candle; 60+ hour burn time) \$22.00

## LIME ZEST & CUCUMBER

The restoring power of chilled cucumber is enhanced with vibrant Asian lime zest and fresh cut aloe leaves. Create a refreshing oasis with this citrusy and lively blend.

#501-07922 (6.5oz. Candle; 60+ hour burn time) \$22.00

## NEROLI & JASMINE

Delicate orange tree blossoms produce a floral and honeyed essence known as neroli. This cherished perfume ingredient is enhanced with night-blooming jasmine to create a lovely and captivating aroma.

#501-07911 (6.5oz. Candle; 60+ hour burn time) \$22.00

## POMEGRANATE & PINK PEPPERCORN

Fresh pomegranate seeds bursting with rich juice get an added kick from spicy pink peppercorns and clove buds. This blend is fresh and bright with a savory and flowery spice making it a unique artistic creation.

#501-07910 (6.5oz. Candle; 60+ hour burn time) \$22.00

## ACAII & GOJI BERRIES

This stimulating blend of super berries is warmed with champagne rose, pink pepper and sensuous musk to produce a fragrance that is both fruity and sultry.

#501-07919 (6.5oz. Candle; 60+ hour burn time) \$22.00

## LEMON BASIL & BAMBOO

An invigorating and herbaceous blend of gourmet lemon basil, water hyacinth and crisp bamboo is mixed with Mediterranean lavender to give this fragrance depth creating a perfect harmony.

#501-07916 (6.5oz. Candle; 60+ hour burn time) \$22.00

**SEEDS OF CHANGE® PREMIUM ORGANIC GROWING MIX (NEW)**

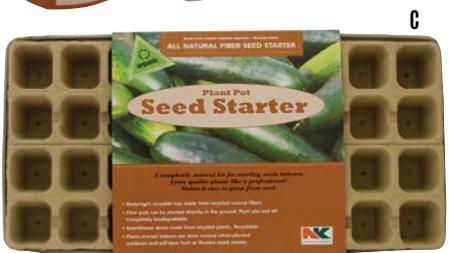

Our custom blend of premium ingredients makes this organic potting soil an excellent mix for seed starting and transplanting. It is rich in earthworm castings, as well as a blend of beneficial micro organisms and mycorrhizal fungi to promote expansive root growth and efficient nutrient uptake.  
**#220-07058 (8 quart bag) \$7.99**

**PAPER PEAT POTS (NEW)**

All natural paper fiber pots are made from recycled material and work great when moving seed plugs to a larger starting pot. Choose from one of three great styles.

- A. **220-07851 (3" pots, pack of 15 total pots) \$4.99**
- B. **220-07696 (3.5" x 9.5" tray, 5 trays, 50 total pots) \$4.99**
- C. **220-07850 (11" x 22" tray w/dome, 36 total pots) \$12.99**

**GARDEN MARKING PEN**

Fast drying and permanent ink are ideal when working in the garden. Our markers are fade and water resistant. Use them on plant labels, containers, plastic, wood, ceramic and metal.  
**#220-07020 \$3.99**

**MAPLE POT MAKER**

It's easy and fun to create an endless supply of 2-1/2" starter pots from old newspaper. A great eco-conscious alternative to plastic or peat, the paper pots can be put right in the garden at transplanting time.  
**#220-06809 \$24.99**

**SEED STARTING TRAY WITH 50 EARTH PLUGS AND DOME (NEW)**

Earth Plugs are an excellent medium for starting seeds or root cuttings. The pre-formed plugs provide a flexible, aerated design that resist compaction and will not crumble. Our cell insert tray holds 50 Earth Plugs and comes with a Dome Lid to promote healthy growth. Makes seed starting foolproof.  
**#220-07870 \$29.99**

**EARTH PLUGS (NEW)**

Earth Plugs are an excellent medium for starting seeds or root cuttings. The pre-formed plugs provide a flexible, aerated design that resist compaction and will not crumble.

- #220-07025 (25 plugs) \$12.99**
- #220-07710 (250 Plugs) \$99.99**

**LARGE WOOD LABELS**

These large sturdy plant labels are ideal for marking rows when sturdiness and visibility are a priority. 12 inches long with Seeds of Change® logo. A Seed of Change® Best Seller!  
**#220-07941 (10 labels per pack) \$4.99**  
**#220-07942 (30 labels per pack) \$12.99**

**SMALL WOOD LABELS**

Our 6 inch wood garden markers are ideal for keeping track of all your new plantings. Small enough for seed starting trays, sturdy enough to last the season, stylish enough to make you happy.  
**#220-07024 (24 labels per pack) \$4.99**

**METAL PLANT LABELS (SET OF 6)**

This set of 6 metal plant markers will enhance the beauty of your garden. (Includes Marking Pen)  
**#220-07720 (4" x 7.6") \$9.99**

**DIBBER (NEW)**

Our steel dibber is the perfect tool for seed and bulb planting. Simple to use and saves your fingers and hands from wear and tear. A great tool for making straight lines when direct seeding.  
**#220-07836 \$16.99 (available February)**

**WIDGER TROWEL (NEW)**

A unique cross between a widger, trowel and dibber. Great tool for planting small bulbs, seeds, re-potting, plus many more uses. Powder coated steel with wooden handle with inset rubber grip. 13" overall length.  
**#220-07835 \$12.99**

**DRAMM FOGG-IT NOZZLE & SHUT OFF VALVE (NEW)**

The Dramm Fogg-It Nozzle is a professional quality brass nozzle. The three mist jets create a gentle "fog" that is ideal for seedlings and fragile plants. Pair with the shut off valve for a perfect watering solution for delicate plants.  
**#220-07023 Fogg It Nozzle \$19.99**  
**#220-07687 Shut Off Valve \$29.99**

**WHEELZBARROW (NEW)**

This amazing invention is revolutionizing the way Americans work on outdoor projects. No more heavy lifting! No more balancing acts! No more plywood ramps! The rear two wheels do the tiresome lifting and balancing, so that you do not have to.

#230-07711 \$199.99  

**GREEN TIE TAPE**

Our green tie tape has countless uses in the garden. Each roll is 1/2" wide x 150' long. #220-07698 \$3.99

**TWINE IN DISPENSER CAN**

Our all purpose natural garden twine is made of 3 ply jute twine. Each can contains 325 feet of twine and comes in a rugged tin can with a built in cutting blade.

#220-07021 \$7.99

**WEST COUNTY MUD GLOVE (NEW)**

These comfortable, extra-thick cotton garden gloves are latex-dipped for superior gripping and optimal protection from mud and dirt (orange with dark gray latex on palm).

- #220-07854 small \$4.99
- #220-07855 medium \$4.99
- #220-07856 large \$4.99
- #220-07841 XL \$4.99

**WEST COUNTY WORK GLOVE**

West County doesn't just make gloves, they turn old plastic bottles into some of the finest gardening gloves available today. You will love the durability, look and feel of your gloves all while helping to sustain our planet. Women's gloves available in "Stem" green: Men's in "Charcoal" gray.

**Women's Gloves**

**SMALL ARS FOLDING SAW (NEW)**

This 4" folding saw features fast, easy pull action, remarkably clean cuts, rust resistant and a wipe clean blade. Small tooth pattern for fine cuts.

#220-07827 \$29.99

**SHEEP SHEAR (NEW)**

Double bow, very sharp sheep shears good for trimming grass in hard to reach places. With no mechanical parts to break, this tool will last a lifetime.

#220-07828 (12.5" long) \$26.99

**FELCO PRUNER #2**

The original is still the best. The Felco #2 is the most recommended bypass pruner in the world! The strong, solid-forged aluminum-alloy handles have easy-to-grip covers and are nearly unbreakable. The Swiss precision-made, hardened, replaceable cutting blade is as sharp as a scalpel. The anvil blade with a sap groove never needs sharpening and should last a lifetime if properly cared for.

#220-07063 \$59.99

**FELCO HARVESTING SHEARS #310**

The Felco #310 is the ultimate tool for the avid vegetable gardener. This general fruit and vegetable harvesting shear is strong, lightweight and has a hallmark Felco strong and sharp blade.

#220-07064 \$29.99

**FELCO F300 PRUNING SHEARS  
FELCO POCKET HOLSTER  
FELCO SHARPENING TOOL**

Harvesting flowers and herbs is a joy when you're cutting with the Felco F300 pruning shears. The strong and durable metal clip make the Felco Pocket Holster the perfect companion to any of your Felco pruners. The Felco sharpener is perfect for keeping your tools in tip-top shape.

- #220-07740 F300 Pruner \$29.99
- #220-07066 Sharpener (3.9" long) \$29.99
- #220-07065 Holster (6.5" x 3") \$13.99

### HULA HOE

The best all purpose weeding tool in our lineup. The blade remains under the surface of the soil as you push away and pull back, cutting weeds efficiently in both directions without actually lifting the tool. The Swiss made 7" blade is spring steel and can really hold an edge. American Ash handle.

#230-06795 (60" long) \$74.99

### NEJIRI GAMA HOE

This Japanese hoe is the essential weeder of gardeners. It is strong, but lightweight, and remarkably easy to use. The sharp blade and long handle make it easy to access even the hardest to reach spots.

#220-06796 (18" long) \$22.99

### HORI HORI GARDEN KNIFE

This Japanese-crafted Hori knife is an infinitely useful tool designed for a lifetime of cutting, digging, sawing, trimming and transplanting. It is equipped with sharp, smooth and serrated blades, measuring marks and a precise point which will come in handy every time you're in the garden.

#220-06797 (7" blade) \$39.99

### NOBORI GAMMA SICKLE

This workhorse of a tool is great for slicing through the toughest garden debris. Also effective for clearing brush, brambles and wood perennials. The tapered handle is designed to ensure a secure grip and the forged blade holds a sharp edge. 20.5" overall length, 6.5" x 2" blade.

#220-06798 (20.5" long) \$69.99

### STEEL GARDEN HOE

This Asian Style hoe makes quick work of the most persistent weeds. The 6" steel blade allows you to reach into the tightest places. The sturdy 15" ash handle means years of dependable service.

#220-07263 (15" long x 6" wide) \$19.99

### SOFT PLANT TIES

**(NEW)**  
Ideal for safely securing fragile/sensitive plant limbs and vines. Soft outer rubber layer may be cut to length with scissors or snips.

#220-07848 \$5.99

### ULTIMATE HOSE NOZZLE

This is the best hose nozzle on the market, period! It is incredibly easy to operate and is constructed with high quality, rugged materials. This fireman style nozzle features a wide comfortable grip and provides a strong, steady stream every time. It screws onto any standard garden hose and provides an array of streams from strong and steady to gentle and cascading. Get one (or two) today. You won't regret it.

#220-07082 \$24.99

### VINE & VEGGIE TRELLIS

This light weight, easy to use trellis is ideal for supporting your vegetables and makes harvesting easier. Expands to cover 5 ft. by 10 ft.

#220-07022 \$6.99

### SUN PROTECTING GARDENING HATS

Well made, stylish and great for sun protection. One sizes fits most on all of our gardening hats.

**NINA HAT (NEW)**  
#220-07837 \$44.99

**SAVANNAH HAT (NEW)**  
#220-07838 \$44.99

**NAPA HAT**  
#220-07071 \$39.99

**CAPE TOWN HAT**  
#220-07072 \$39.99

### GOOSEBERRY KNEE PAD (NEW)

Ultra-cushion kneeler with memory foam technology. Kneelo™ is comfortable, practical, lightweight and easy to carry. Generously sized, with contoured edges, Kneelo™ allows you to work in cushioned comfort for prolonged periods of time. Whether you are gardening, decorating, scrubbing the floor or at a picnic, don't forget your Kneelo™.

#220-07833 \$29.99

### GOOSEBERRY KNEE PADS FOR EACH KNEE (NEW)

Ultra-cushion knee pads with memory foam technology. The knee pads have a unique shape which gives optimal flexibility when kneeling, standing and walking. One size fits all, as they have soft adjustable Velcro straps so no constant digging in the back of your legs and no more carrying around cushions.

#220-07834 \$29.99

### HOLLOW LEG HARVEST BAG (NEW)

Put The Gardener's Hollow Leg on at the start of your day's work in the garden and you'll never want to be without it! Convenient - it's right where you need it all the time. Efficient - no more extra steps in the yard cleanup process. Handy - provides an adjustable belt that will accommodate your clipper holster and there's even a pocket for your cell phone or iPod. Comfortable - the adjustable belt expands from 30 to 52 inches.

#220-07869 \$29.99

### HARVESTHOUSE PRO (NEW)

Our new X-UP technology provides extraordinarily easy set-up and take-down of our sturdy Harvesthouse. Achieve maximum light and heat transmission with the clear cover.

#230-07859 (6.5'h x 4.5'w x 4.5'd) \$219.99  

### A. HARVESTHOUSE PLUS (NEW)

The HarvestHouse Plus is a great size for small yards, patios and decks. Extremely easy to set up, you'll love the longer growing season that you'll get from this small greenhouse.

#230-07858 (6.5'h x 4.5'w x 2.5'd) \$139.99  

### B. TOWER X-UP MINI GREENHOUSE

The Tower X-Up Mini Greenhouse is a perfect size for housing your seed starting trays. Set it up in minutes virtually anywhere for a wonderful seed starting greenhouse.

#230-07857 (63"h x 27"wx18.5"d) \$79.99  

### DELUXE COLD FRAME & VENT OPENER

This is a great way to get your salad garden going early in the spring and through late fall. Lightweight and attractive, it will complement any backyard, patio, deck or sunny balcony. The Automatic Vent Operator opens and closes to eliminate worries about overheating and nighttime frosts.

#230-06834 Coldframe (4'1 x 2'w x 2'h) \$159.99

#230-06835 Automatic Vent Operator \$55.99  

### STAND UP GARDEN (NEW)

Makes it easy to harvest your favorite vegetables and flowers while keeping pests at bay! Comes with a clear greenhouse cover with frontal access and side vents for airflow. A protective shade cover with zipper vents protects plants from summer heat and pests. Includes six 21" x 7" x 9" deep planter pockets, stand, clear cover and shade cover.

#230-07860 (52"hx 46.5"wx 24"d) \$199.99  

### 2 SECTION COLLAPSIBLE COLD FRAME

Our 2 section starter house allows for placement over existing plants, beds and containers. Protects plants from wind, frost and snow. Screened vents protect against most insects, birds and pests. Easy to store, set up and transport.

#230-06832 (4'h x 8'l x 3'd) \$145.99  

### CLEAR SEEDHOUSES (NEW)

Extend your growing season, protect your plants and harvest the SeedHouse™ benefits. The SeedHouse™ provides a convenient and effective way to protect your tender shrubs and perennials against damaging winter environments. Set up, take down and store in seconds! 2 large zippered windows provide excellent access. 2-screened vents allow optimum ventilation and pest protection.

#230-07861 small (2'h x 2.5'w x 2.5'd) \$29.99

#230-07862 medium (3'h x 4'w x 4'd) \$44.99

#230-07863 large (3'h x 8'w x 4'd) \$64.99  

### CEDAR COLD FRAME (NEW)

Protect new seedlings, extend your harvest or grow year round with our FSC Certified (sustainably harvested & untreated) red cedar cold frame. It is a useful, yet beautiful addition to your raised bed or in-ground garden.

#230-07675 (3' x 3' x 10" high in rear) \$249.99  

### GIANT EASY FLEECE TUNNEL (NEW)

The fleece creates warmth and insulation while allowing water and sunlight to filter through to your plants. The Giant Easy Fleece Tunnel incorporates galvanized steel hoops into the material ensuring a high quality and durable finish. Perfect for spring crops.

#220-07871 (10'l x 24"wx 18"hx) \$25.99

### GIANT EASY NET TUNNEL (NEW)

Provides shading from strong sunlight and protection from insects, birds and other pests. It reduces the risk of drought by conserving moisture. Control the ventilation in the tunnel by closing the ends with the built-in draw string. Perfect for protecting summer crops.

#220-07872 (10'l x 24"wx 18"hx) \$29.99

### GIANT EASY MICROMESH TUNNEL (NEW)

The ultimate insect barrier for your fruit and vegetables. This tunnel will protect your growing crops from all types of pests, without the use of chemicals. The micromesh cover is ultra-fine to keep out Cabbage Root Flies, Carrot Flies, Aphids, and other pest while still allowing air and moisture to circulate.

#220-07873 (10'l x 24"wx 18"hx) \$27.99

### SOLAR RAINMAKER (NEW)

The Solar RainMaker waters automatically every 3 hours. The amount of water applied varies depending upon the amount of sunshine and the position of the control knob, but waters more in sunnier conditions, when your plants need it most. Can supply up to 12 drippers and is suitable for beds, pots and trees. Includes: 1 solar rainmaker pump unit, 1 anti-siphon device, 1 inlet filter, 45' tube, 12 drippers, 12 stakes, 12 tees.

#230-07864 (2"hx 6.5"wx 4'd) \$89.99  

### SAFER ORGANIC INSECT SOAP

This clear organic, liquid soap is composed of fatty acids and potassium salts and is labeled to control aphids, white-flies, and spider mites on fruits, vegetables and ornamentals. Safe for bees, birds, animals and people. Each 16 oz. of concentrate makes 6 gallons of spray.

#220-07034 (16 oz.) \$17.99

### SAFER GARDEN FUNGICIDE

Contains 12% elemental sulfur which controls fungal diseases on fruits, vegetables and flowers. Effective against powdery mildew, rust, scab, brown rot, rose black spot and much more. Works great on roses and tomatoes! Each 16 oz. of concentrate makes 4 gallons of spray. OMRI listed for use in organic production.

#220-07035 (16 oz.) \$17.99

### MONTEREY GARDEN INSECT SPRAY

For control of foliage feeding worms (caterpillars), thrips, fire ants and other listed pests. Contains spinosad, produced by fermentation. Can be used on vegetable, fruit crops & ornamentals. Controls caterpillars as well as leafminers, thrips, beetles and more!

#220-07692 (1 pint) \$25.99

### SAFER BIONEEM (NEW)

BIONEEM is a botanical concentrate that kills and repels over 30 common pests. Effective against aphids, caterpillars, gypsy moths, hornworms, leaf hoppers, leaf miners, Mexican bean beetles, mealy bugs, thrips, whiteflies and other pests. Mix 1 part BIONEEM to 40 parts water and apply every 7-10 days. Use at least 3 times to break pests' reproductive cycles.

#220-07689 (16 oz.) \$24.99

### SAFER GARDEN DUST

This pest control product is very effective in killing caterpillars and worms, including corn earworm, bollworm, armyworm, diamondback moth, green cloverworm, hornworms, loopers, melonworm, pickleworm, tomato fruitworm, tobacco budworm, salt marsh caterpillar, mimosa webworm, and imported cabbageworm! The Safer® Brand Garden Dust utilizes bacillus thuringiensis (var. kurstaki) which, once ingested by the wayward pest, kills them within a few days.

#220-07036 (8 oz.) \$12.99

### BI-CARB OLD FASHIONED FUNGICIDE

Listed by the Organic Materials Review Institute (OMRI) for use in organic production, Bi-Carb's active ingredient is a microencapsulated form of good old baking soda. It works by disrupting the potassium ion balance in the fungus that causes powdery mildew, causing the cell walls to collapse. Use it for a natural control of powdery mildew on Roses, vegetables, herbs, Grapes, fruit trees, and ornamentals.

#220-07691 (4 oz. bottle) \$12.99

### SLUGGO® SHAKER CAN (NEW)

Sluggo® contains iron phosphate to rid your garden of slugs and worms. It is safe to use around pets and wildlife. This product is labeled for use in vegetable gardens. An OMRI listed organic product, it breaks down into fertilizer! Snail and slug control at its best. 1 lb covers 1,000sq ft.

#220-07037 (1 lb.) \$15.99

#220-07852 (2.5 lb.) \$24.99

### STICKY THRIP LEAFMINER BLUE TRAP

Special hue of blue catches thrips and leafminers. Non-poisonous and weatherproof.

#220-07038 (5 traps) \$8.99

### STICKY APHID WHITEFLY YELLOW TRAP

Special hue of yellow catches aphids, whiteflies, leafhoppers and moths. Non-poisonous and weatherproof.

#220-07039 (5 traps) \$8.99

### BIRD SCARE

#### FLASH TAPE (NEW)

Shiny, silver-red tape protects fruit, trees, vines and vegetables from even the most persistent birds. Simply tie to fences, tree limbs or stakes to create a safe and effective deterrent.

#220-07699 (290 ft.) \$7.99

#### OWL SCARECROW (NEW)

Life-like, Natural Enemy Scarecrow helps repel birds and pests. 18" tall and hand-painted for maximum realism.

#220-07849 \$29.99

#### GUARD'N EYES (NEW)

Bird-scaring balloon has "eyes" that scare away pests and protect gardens. Easy to set up, the constant motion helps keep unwanted critters at bay.

#220-07853 \$12.99

#### BIRD-X NETTING (NEW)

Protect your fruit trees and vegetables from thieving birds and other garden pests. The netting is made of durable 0.75" polypropylene mesh with UV inhibitors to maintain strength. The netting measures 7' x 20'.

#220-07685 \$12.99

#### DEER-X FENCING (NEW)

Temporary fencing protects shrubs, trees and vegetable gardens from destructive deer. Strong and durable 3/4" mesh provides an easy and affordable alternative to metal chicken wire. This 7' x 100' product will be perfect for your hydroponic or horticulture gardening needs.

#220-07686 \$29.99

### CEDAR (NEW) COMPOSTER

This handmade Cedar Composter serves as a near rodent-proof container for your composting food scraps. It is made with specific dimensions to ensure proper oxygen flow through the compost. (29" x 29" x 29")

#230-07676 \$399.99

### STAINLESS STEEL COMPOST PAIL

Made from durable stainless steel, this compost pail is the perfect eco-friendly counter-top solution for storing food scraps and vegetable trimmings for several days. A tight seal keeps odors locked in and includes two charcoal filters for clean organic recycling. 1 gallon capacity. Dishwasher safe.

#220-07040 (11.5" h x 7" dia.) \$49.99

### CHARCOAL (NEW) COMPOST FILTERS

Charcoal compost filters are designed to fit your stainless steel compost pail. Replace your filters every 6 months or sooner if odors are detected.

#220-07668 \$3.99

### HOME COMPOSTING MADE EASY (NEW)

The world's most popular compost guide. Easy step-by-step illustrated instructions help you divert over 30% of your total waste from landfills, simply by composting kitchen and garden waste.

#220-07705 \$4.99

### BED ON LEGS

Grow edible plants anywhere with this self-contained bed made of durable cedar. The advantages of a bed on legs include: easy to control soil conditions, less weeding, less fertilizing, optimal drainage and increase yield.

#230-07674 (2'w x 3'1 x 3'h) \$279.99

### YIELD POTS (NEW)

Yield Pots are light weight, yet durable pots that are easy to store when not in use and extremely tough when filled with soil and planted. Expand your garden with these mobile pots made of thick and breathable fabric.

#220-07707 (3 gallon) \$4.99

#220-07708 (5 gallon) \$5.99

#220-07709 (7 gallon) \$6.99

### ENVIROCYCLE COMPOSTER (NEW)

The Smallest Way to Go Green. Every little change can make the difference. The Envirocycle Mini Composter/Compost Tea Maker comes pre-assembled and ready to use. Its versatile and compact design allows it to fit almost anywhere, making it the perfect compost tumbler for the gardener with limited space. Its size may surprise you; it has an equally fast composting cycle of 4 to 6 weeks.

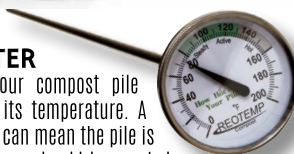

#230-07868 \$199.99

### COMPOST THERMOMETER

Properly manage your compost pile by regularly taking its temperature. A drop in temperature can mean the pile is becoming anaerobic and should be aerated. Increase pile size to provide higher temperatures or decrease pile size to keep temperatures from becoming too high.

#220-06837 \$34.99

### MINI FARM BOX

The original Minifarmbox Kit is the perfect way to get your organic garden started. Made from 100% natural cedar wood, this easy to assemble raised bed makes starting a garden a snap for any sized yard.

A. #230-06811 (4' x 4' x 11") \$199.99

B. #230-06812 (adds 4" in length) \$99.99

C. #230-06813 (adds 5-1/2" in height) \$99.99

### MINI FARM BOX ROCK SOLID TABLE GARDEN

The Minifarmbox Table Garden assembles in less than 10 minutes with no tools. It is made with 2" x 6" lumber for maximum durability. The solid stable design is the perfect height for growers with bad backs or special needs.

#230-06788 (2'w x 4'l x 3'h) \$259.99

### TWISTED VINE POTTERY

Great functional accents for your garden or window sill. Designed by Randy Ouzts, one of the leading pottery artisans in the United States, these pots are perfect for small herbs or flowers.

#220-07051 Pot (7.5" dia. x 4.5" h) \$19.99

#220-07052 Herb Pot (8" dia. x 7.5" h) \$29.99

**BOOT SCRAPER (NEW)**

This metal boot scrapper is tough and effective. Place one by the garden and remove dirt from your boots at the end of the day.

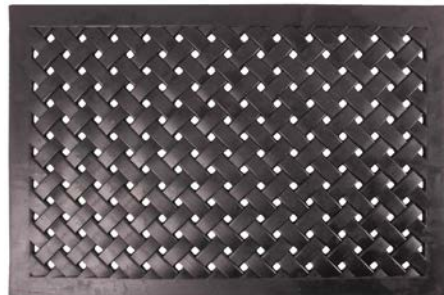

#220-07719 (8.7" x 10" x 4.6") \$44.99

**RUBBER BOOT TRAY (NEW)**

Our rubber boot tray is an attractive and durable way to store your garden boots after a long day in the garden. It measures 31 in. x 16 in. and is made of thick rubber that is made to last.

#220-07718 (31" x 16") \$29.99

**RUBBER DOOR MAT (NEW)**

Our double braided rubber door mat measures 29.9 in. x 17 in. and is made to withstand the weather and wear and tear. This mat will enhance any entry way.

#220-07717 (29.9" x 17") \$29.99

**BOOT TRAYS (NEW)**

Our Boot Trays help keep floors free of mud and debris from dirty footwear. They provide a convenient and stylish place to store shoes, boots, sandals, and even umbrellas in an entry-way, laundry room, mud room or foyer. Plus, they make a great way to contain spills from potted plants and pet bowls (34 in. x 14 in. x 2.5 in.).

#230-07680 (pine cones) \$59.99

#230-07679 (squares) \$59.99

**HOSE POTS (NEW)**

These rustic and charming metal Hose Pots have beautiful shapes that will fit right in to any garden setting. Crafted from brass and bronze, the well-designed Hose Pots will contain your hose while eliminating kinks and snarls (hole on bottom allow for drainage).

A. #230-07677 (12" x 18" dia., brass) \$249.99

B. #230-07678 (13" x 20" dia., bronze) \$139.99

**LE PARFAIT CANNING JARS (NEW)**

Enhance your food storage by canning your own fruits and vegetables. Le Parfait jars are attractive, strong and easy to open and close.

#220-07700 (.5 liter) \$5.99

#220-07701 (.75 liter) \$6.99

#220-07735 (24 labels) \$1.99

**SHEA BUTTER HAND CREAM**

Just a dab of this all-natural lotion will lock in moisture, rejuvenate your hands and intoxicate you with its aromatic scent. Made with shea butter and natural oils & fragrances.

#220-07060 Gardenia Hand Cream (2.3 oz.) \$18.99

#220-07061 Jasmine Hand Cream (2.3 oz.) \$18.99

#220-07062 Lavender Hand Cream (2.3 oz.) \$18.99

**SALAD SPINNER (NEW)**

Our 9" diameter deluxe salad spinner is a great accompaniment to your organic garden. Use it to wash and dry in one easy step with a smooth rotating mechanism. Includes a removable colander and multi-functional non-slip bowl base. Measures 10" tall.

#220-07730 \$25.99

**VERTICAL STEAMER/COOKER (NEW)**

Our Vertical Steamer/Cooker is made with Stainless Steel and includes a steaming rack, sturdy pot and vented, tempered glass lid. It is ideal for corn, broccoli, cauliflower, carrots, potatoes, asparagus and more.

#220-07729 (3qt./10" h x 5.25" dia./rack dia. 4.5") \$39.99

**VEGETABLE BRUSH (NEW)**

Scrub your organic vegetables clean with our all too cute vegetable brush. Measures 3".

#220-07737 \$3.99

**GRIP-EZ PEELER (NEW)**

Our Grip-EZ Peeler measures 7.5" and is made with a durable and comfortable handle.

#220-07728 \$7.99

**GRIP-EZ PEPPER CORER (NEW)**

Our Grip-EZ Pepper Corer measures 8" and is made with a durable and comfortable handle. Great for any chile lover.

#220-07813 \$7.99

SEEDS of  
CHANGE®

**THE FARMERS AND CHEFS  
BEHIND OUR FOODS LIVE  
BY A SIMPLE RULE:  
YOU CAN'T IMPROVE  
UPON NATURE.**

We're passionate about growing food organically and treating nature's bounty with respect every step of the way, from seed to plate. Our passion is also expressed in the national Seeds of Change® **Share the Good** grant program. In the past two years, we've donated over \$295,000 to sustainable gardening and farming initiatives.

In 2014, we're excited to **Share the Good** by providing even more grants to organizations that practice sustainable farming. Learn more about past recipients and the 2014 program at [SeedsOfChangeFoods.com](http://SeedsOfChangeFoods.com).
