

A profound awareness of our interconnectedness

with each other, with our fellow inhabitants of Earth and the natural world, runs through every tradition of human wisdom.

“ The same stream of life that runs through my veins night and day runs through the world and dances in rhythmic measures. It is the same life that shoots in joy through the dust of the earth in numberless blades of grass and breaks into tumultuous waves of leaves and flowers. ”

Rabindranath Tagore

UNUSUAL ANIMALS

DAY GECKO

Day Geckos have flattened toe pads covered with scales whose surface is made up of long hair-like structures called setae. Because of these, day geckos can climb up glass walls and across ceilings, making them great escape artists.
