

Transsexual fantasies

Note: all the text, bellow, have been translated by "Google Translator". Sorry for all errors of translation.

Transsexualism could be better made by describing fantasies of transsexual people.
This testimony below may, perhaps, help to better understand where some of these fantasies:

"Am I a normal person? **I want to be a good person, a correct person.** I thoroughly involved in humanitarian work. But I have strange sexual desires, I can remove my head and if I might finally sated make me look for someone "deviant (s)" [if not a well person], to eyes of right-thinking people. Since small (or very small, since the age of 7 years), I still have strong sexual desires. Whenever I have intense sexual desires, I have a strong desire to vagina, between the legs, strong desires of women, to be submitted by a mistress-wife, a dominant woman or extreme fantasies (brief truly transsexual desires for a man). Here is what I wrote for example, to a friend, Muriel, herself a transsexual, super nice, feminine, for which (her), I have always had great affection and respect:

She wrote to me, "*You're finally going to do?*"

And then I made him the following answer:

"Dear Muriel,

*Yes, I want to be operated (e).
I would accompany you for my operation?
If not, would you know (maybe?) Help me solve this problem below?*

Due to the new regulations from a Department of Health Department applied for Thai surgeons to perform sex change surgery, candidates require SRS letter of recommendation from either a psychiatrist or a registered psychologist (the letter d a counselor or therapist or endocrinologist will not be acceptable) that must be sent to me by e-mail in jpeg or pdf file for approval.

*The original SRS recommendation letter issued psychiatrist or a registered psychologist with his / her signature must be provided at the time of the consultation.
The original documents must be presented the day of your consultation.*

This is the biggest problem.

*Because if I want to have a woman's body, with vagina, breasts (wide hips) (totally hairless), but I can not, for cons, change of clothing habit (I just pants, sneakers or runings ...) or change of identity.
I always feel ambiguous in identity, half-man half-woman. Do not want to change roles in the day.
During the day, no desire, but when I'm lying, the night the desire is strong.
And that's difficult to explain to a psychologist or psychiatrist (and this can be a strong reason for SRS).*

*The desire to vaginoplasty has always been strong at home (over my sexual desire is stronger, this desire is strong.
My goal ... is finally able to feel sexual pleasure).
friendships,*

B. ».

She had replied:

*« Hello,
Why not...
I do not understand your biggest problem is finding 2 shrink?
It is not the therapist who fails to Paris ... you should be seeing this with the association to have addresses ... I see no more for a long time ...
On this canvas again when?*

*Sincerely,
Muriel ».*

And I answered her:

*« Dear Murielle,
I saw a shrink of a health center near my home, rue Ordener, Mr Baret ... early July. He said something like I asked him a case of conscience (or as if I "provoquais").
I have not felt at home someone sympathetic (I have seen several in the past ... Dintran at Tenon Hospital, hostile ... and several other badly disposed with my desire).
To be honest with you, and it's not easy to explain, it's every time I have sexual desire (strong, powerful, titillating ... "taraudants ...") that this desire is strong vagina.
For example, in the past, I had very strong desires for you, certainly ... maybe because you are a person rather nice and generous. In fact, in cases like this, when I meet a very friendly person, I have an affection for it, sometimes later __ I can have strong desires and a strong attraction for her.
But as you're married with Lucia, it is now ancient history.
Good day.Benj ».*

In fact, I dare not say that, despite the power of my sexual desire vagina, I am faced with many fears:

- 1) the vaginoplasty is not successful and that I do not get vaginal and clitoral pleasure I strongly desire (associated with a function of natural lubrication, my vagina, whenever I desire, lubrication increases fun. Also, I like a deep vagina, to experience maximum sexual pleasure).
 - 2) One fears to social prejudice because changing sexes is like crossing a barrier and often absolute taboo in many people. And transsexuals have already made assaulted. It is the fear of being impersonate crazy (or crazy) or a disturbed person from my contemporaries. In addition, I feel transgender _ in my identity, half man and half woman _ and not pure transsexuals ... and the therapist that grant authorization for the operation of sex change operation and the change Vital, maybe my dam will change sex and marital status (especially since I have 60 years and I may have already waited too long (?)). All this is not easy. At this complexity, I often want to remain human in appearance but have a vagina. And if I need to hide that I have a vagina, so I wear a prosthetic penis credible, for example in order to cross borders. And I do not totally want to be a woman passing in the background before men, in Muslim countries and backward or retrograde (in terms of social and human progress).
 - 3) The hostility and rejection from my family (father and brother, who are aware and, therefore, have already rejected me).
 - 4) It's a tough operation (painful) [one makes the removal of the penis can keep the hands testicles that's not always the case]. I am still in full health. But after 60 years, this operation Will it not be harder?
 - 5) Do I have the right to "mutilate" my male sex and even put me back "the whole world" to finally feel real sexual pleasure? (not by proxy, only in his head, using his imagination and fantasies?).
- Muriel était au courant que j'avais écrit à un chirurgien, spécialisé dans la « réassignation sexuelle » en Thaïlande et voici ce qu'il m'avait répondu [voici, ci-après, la traduction de son mail, ci-après] :

There's a shrink, I'm very interested, Mr. Vincent B., resident in passing Sainte Avoie in the 3rd, I would like to meet good, precisely because it seems open-minded and that he led research on "gender clinic in Psychoanalysis" and published on trans and gay identity issues sexuation, identities.

And here I'll describe my sexual fantasies, some "extreme" _ which I never got to shake off, despite my efforts to be a "normal sexuality" _, through talking image, even if their description or relationship can me pass, to the general public for "abnormal" or "crazy."

One of my fantasy or "dream" is to meet a dominant or lesbian woman, who would become a sex toy or "transstoy" human scale, which would use my body and soul to achieve its strongest fantasies (even MS). That would use my sexuality, my sexual desire, to excite endless increase constantly, reaching up to make him an extreme level, the point that I totally would become "addicted" to this woman, in fact, the sex slave to this woman. This would be his mistress-wife Pygmalion and Galatea him would be his.

The strong fantasy (or "extreme") of the latter would want to feminize men, it has his hands in his power, by feel and love him more and more strong, the desire to vagina . She would penetrate gradually, over more and more strongly, by arranging to increasingly expand its "sexual holes" at its the urethra and anus ... For example, wearing a dildo-belt , which it uses to implement progressively "stripes bumpers" (in his anus).

It would also wear regularly or constantly, even at night, anal plugs, urethral plugs, cages of chastity (or not fitted with plugs urethral), more and bigger, which dilate increasing its holes (until it can not go on, he begs for mercy).

She would like him to take estrogen to his chest swells and increases more and more. She would pluck it gradually, including around his cock until his body is completely shaved (including chin beard and mustache under the nose). This would be like a "story of O" or "50 shades of gray," the progressive transsexualisation a man (irreversible). When the man, a woman in the making, would be ready when the mistress-wife would send his "sex toy" his "transstoy" to be operated in the best surgeon in "sex reassignment" in Thailand.

A month after the new vagina has healed and is operational, the mistress-wife learn his "sex toy" to train in penetrating her vagina _ including having fun, for its penetration _ with a series of dildos bigger and bigger, or endlessly impaling on a dildo suction cup, while caressing her big breasts endless. She would see me lying lasciviously and masturbate with a big dildo for hours without end, while caressing my breasts.

After the "sextroy" is finally well prepared in her vagina become sufficiently expanded, while the mistress-wife would penetrate regularly with a dildo-belt, becoming bigger, gradually, and then more and more strongly, until to give it a "stop list" into her vagina until the souler soil.

Before breakfast in the morning, she would like the stuck in the corner of a door of a room, and then enter by surprise, with (from) his big dildo-belt. The mistress-wife would continue his "sex toy" dressed as a maid in the house or in the countryside with a huge dildo or a large steel ball finished by a long chain or topped cane, in order to enter it her vagina (or anus) with this item and masturbate. In the case of the ball attached to a long chain, when the ball would have penetrated her vagina, it would like the ball remains trapped in the vagina of the "vibrator" by closing its vagina by a padlock (or the lips of her vagina cyanoacrylate glue _ who can not take off until after 2 days).

I would (as a "sex toy" she loves drag dildos, round objects, balls in my vagina while you are watching a movie in a cinema.

To describe my personality, I posted this ad on www.annonce-bdsm.com, with the nickname "transstoy"

"Hello everyone, I present myself Transtoy or Benjamin. I just turned 60. I suffer from a strong and constant obsession, that of having a woman's body with breast and vagina. Past I never to act except for the breasts and hair removal (hot wax). I dream of a mistress who would help me to take action for vaginoplasty and dress change. I feel more women, the more I feel gentle, humble, peaceful, generous [since the 70's, I have always been involved in the humanitarian movement], very helpful, with the desire to be protected and my sexual desire s 'still strongly increases, and that of being subjected sexually desire to be with my wife. Associated with this desire, I have always wanted to (e) be deeply in love (is) and dedicated (e) to this mistress, ready to satisfy his every need. I long to make her happy. And I want her to see me as happy as integral wife and she is happy and this increases my desire to. But I have never known Mistress who wants me to get operated (vaginoplasty), unfortunately, as yet it is my dearest wish I have always been a feminist, ready to defend the cause of women. I live in Paris, Montmartre. I love nature, photography, botany, gardening, nature walks. Totally transformed into a woman, I would be naturist. I am a person rather honest. During the day, now I feel man. And wife the night. But as soon as I have sexual desire, I feel oddly woman. "

Sexual games after the operation (as I imagine. A partial list of my fantasies, endless):

After the operation, I dream to catch up all the time that was lost, not before, having known the true vaginal pleasure.

My mistress lesbians have any kind of games, where it is the dominant and where I would be the subject. It would give heart to joy, loving ever penetrate my vagina and caressing my breasts. She would like to use my vagina as a cup, pour apple juice (or champagne) and drink it with a straw. She would pour the chocolate cream and put strawberries and Chantilly cream and eat them greedily. Playful, she put ice balls or Eskimo stick, to devour them immediately, while eagerly licking the lips of my vagina. Or put it there, by surprise, a banana, zucchini, cucumber ... She would stop my vagina with a Cartier scarf, then remove gradually, by another end. Or make a big knot at one end of the headscarf, shove this big knot at the back of my vagina, and gently pull the other end of scarf, then, walk as well. Sometimes, she would like a long piece of cloth, ending in a ball, so my vagina and she loves me and swim naked, along outgoing tape of my hole and waving in the water. She would take me out, out, skirt, naked underneath, stuck a big lump in my vagina. My holes never belong to me, they belong to my Mistress constantly available to it endlessly. She would, with fantasy flower and "pinch" my vagina with flowers. She would paint it in gouache, on the perimeter of the vagina, a sunflower or a target (a tile). His imagination is boundless. My dreams are not extreme, they are full of love, fun, fantasy. ... I dream for my mistress, being an expert in "Burlesque" and make her Burlesque sessions with my vagina. My fantasy is extremely rich and seeks only be offered to those who will make it bear fruit.

My biggest dream is to constantly maintain the highest level of sexual arousal, until it reaches a vaginal orgasm, constantly maintained, maintained at my Mistress. If in turn, can make me live these emotions to their highest level, I could not help but then to cover his feet thousand little kisses, very soft, and it be ceaselessly dedicated .

← My teacher wants me to impale me on all sorts of dildos (here on a dildo planted on a rocking horse).

My mistress would gradually contribute to the expansion of my vagina and my anus, with more and bigger dildos.

She would often take my breasts, by surprise, and then kneading, petting, pinching, endless ...

Dream kiss his feet, I will cover it with thousands of very soft kisses

Comment: "you want to take hormones and become a submissive Sissy girl and sexy".

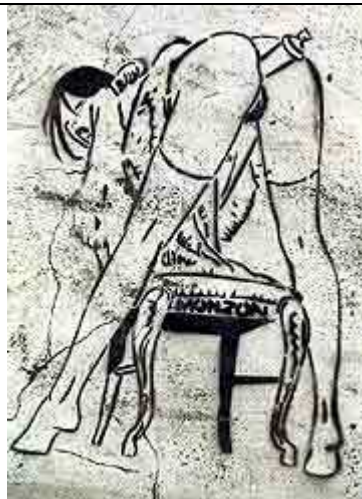

My fantasy: having a vagina plugged with a stopper (plug), posed by my mistress.

Looking in the mirror.
Milo Manara drawing.

Like a fish in water. April Fool attached to the tampon.

I am 59 years old, so he may chance that I now realize these fantasies ... yet still still present. I guess my fantasies are of a certain "abandonnism" _ itself linked to emotional deprivation, a feeling of not being wanted, to episodes of recurrent releases parental and family during my childhood _ and constant desire to be protected, often present in women. My fantasies are quite masochistic. I have no control over them.

In my fantasies rather it is the woman who is dominant and I who give myself completely to it.

I dream to find a woman who dreams that the powerful fantasy reduce my penis, the "reverse" reverse it and transform it into the vagina, bringing me to a Thai clinic "re- sex assignment "practicing vaginoplasty operations. Then she would help me to my rehabilitation and my rehabilitation to my new vagina. It would help me to masturbate regularly with a dildo. She would like to see me masturbate for hours (at least long) (making me the right places bites estrogens (female hormones) to remove hair thoroughly (I'm already shaved (e)).

And regularly, in bed or by wedging me in the corner of a room or a door, it would penetrate me regularly with a dildo belt (first gently and then more intensely ...). She would also like I wear a chastity belt, with a dildo and a plug turned inward. She would enter the dildo and plug in my two respective ports. She would like the chastity belt firmly hold my waist so that it is impossible for me to free myself, as it would be impossible for me, to free, myself, from the dildo and plug, the deep penetration into my holes is maintained by the chastity belt. In the short time (several months), it would like to change and increase the size of dildo and plug to regularly expand the size of my holes, especially my vagina. She would like to enter my vagina cucumbers, zucchini, carrots, oranges, or more big dildos.

In short time, she would push musical metal balls attached to a chain, more and larger in my vagina, my vagina shut with a padlock, and holding in his email the other end of the chain comes out of my vagina, and show myself around naked (e) as well, including in the campaign.

Its strongest fantasy would be to penetrate me all the time, every day. And when she's not there, all the time that a round object is pressed into my vagina.

The imagination around this fantasy is very fertile.

This fantasy is so strong (if unfulfilled) I created the moniker "transstoy" on the <http://www.seduction.fr/> French site.
