NetWorker 7.6.1
- HP-UX for PA-RISC (64-bit)
- Client, Server and Storage Node.
- Languages Supported: English, French, Japanese, Simplified Chinese and Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_hpux11_64.tar.gz

NetWorker 7.6.1
- HP-UX for Itanium (IA-64) (64-bit)
- Client, Server and Storage Node
- Languages Supported: English, French, Japanese, Simplified Chinese and Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_hpux11_ia64.tar.gz

NetWorker 7.6.1
- SGI IRIX (64-bit)
- Client Only
- Language Supported: English only.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_irix.tar.gz

NetWorker 7.6.1
- Linux for Itanium (IA-64) (64bit)
- Client, Server and Storage Node
- Languages Supported: English, French, Japanese, Simplified Chinese and Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_linux_ia64.tar.gz

NetWorker 7.6.1
- Linux for x86 & IA-32 (32-bit)
- Client, Server and Storage Node
- Languages Supported: English, French, Japanese, Simplified Chinese and Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
- Temporary enablers for the Data Domain Device Type are obtained through EMC sales.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_linux_x86.tar.gz

NetWorker 7.6.1
- Linux for x86_64, AMD64 & EM64T (64-bit)
- Client, Server and Storage Node
- Languages Supported: English, French, Japanese, Simplified Chinese and Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
- Temporary enablers for the Data Domain Device Type are obtained through EMC sales.

NetWorker 7.6.1
- Linux for Power PC
- Client Only
- Languages Supported: English only.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_linux_ppc64.tar.gz

NetWorker 7.6.1
- MAC OS for Power PC & Intel
- Client Only
- Languages Supported: English only.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_macosx.tar.gz

NetWorker 7.6.1
- Solaris AMD64 (64-bit)
- Client, Server and Storage Node
- Languages Supported: English, French, Japanese, Simplified Chinese and Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_solaris_amd64.tar.gz

NetWorker 7.6.1
- Solaris SPARC (64-bit)
- Client, Server and Storage Node
- Languages Supported: English, French, Japanese, Simplified Chinese and Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
- Temporary enablers for the Data Domain Device Type are obtained through EMC sales.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_solaris_64.tar.gz

NetWorker 7.6.1
- Solaris x86 (32-bit)
- Client Only
- Languages Supported: English, French, Japanese, Simplified Chinese and Korean.
 7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_solaris_x86.tar.gz

NetWorker 7.6.1
- Tru64 UNIX (64-bit)
- Client, Server and Storage Node
- Languages Supported: English.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_tru64.tar.gz

NetWorker 7.6.1
- Windows x64 (AMD64 & EM64T 64-bit)
- Client Server & Storage Node for Windows 2003 Server [SP2] x64 Edition, Windows 2003 R2 x64 Edition & - Windows 2008, Windows 2008 R2 x64; Client for Windows XP Professional [SP3] x64 Edition, Windows Vista [SP1], Windows 7 x64 Edition
- Languages Supported: English, French, Japanese, Simplified Chinese, Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
Temporary enablers for the Data Domain Device Type are obtained through EMC sales.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_win_x64.zip

NetWorker 7.6.1
- Windows IA-64 (64-bit)
- Client Server & Storage Node for Windows 2003 Server [SP2] IA64 Editions & Windows Server 2003 R2 IA64
- Languages Supported: English, Japanese.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_win_ia64.zip

NetWorker 7.6.1
- Windows x86
- Client, Server and Storage Node for Windows 2003 Server [SP2], Windows Server 2003 R2 & Windows 2008; - Client for Windows 2000 [SP4], Windows XP Professional [SP3] , Windows VISTA [SP1], Windows 7 x86 Edition
Languages Supported: English, French, Japanese, Simplified Chinese, Korean.
7.6 SP1 offers the same language support as 7.5 SP1 and ships with 7.5.1 language packs. Features introduced since 7.5 SP1, including the new features of 7.6 SP1, are not localized.
Temporary enablers for the Data Domain Device Type are obtained through EMC sales.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_win_x86.zip

 NetWorker 7.6.1
- zLinux
- Client Only
- Languages Supported: English only.
ftp://ftp.legato.com/pub/eval/2010Q3/nw76sp1_linuxs390.tar.gz
