,sambaTOC.fm.28453 Page vi Friday, November 19, 1999 3:40 PM

4. Disk Shares *82*
Learning the Samba Configuration File *82*
Special Sections *88*
Configuration File Options *91*
Server Configuration *93*
Disk Share Configuration *96*
Networking Options with Samba *101*
Virtual Servers *106*
Logging Configuration Options *108*

5. Browsing and Advanced Disk Shares *114*
Browsing *114*
Filesystem Differences *127*
File Permissions and Attributes on MS-DOS and Unix *135*
Name Mangling and Case *143*
Locks and Oplocks *149*

6. Users, Security, and Domains *155*
Users and Groups *155*
Controlling Access to Shares *158*
Authentication Security *164*
Passwords *171*
Windows Domains *184*
Logon Scripts *192*

7. Printing and Name Resolution *201*
Sending Print Jobs to Samba *201*
Printing to Windows Client Printers *213*
Name Resolution with Samba *224*

8. Additional Samba Information *230*
Supporting Programmers *230*
Magic Scripts *233*
Internationalization *234*
WinPopup Messages *237*
Recently Added Options *238*
Miscellaneous Options *240*
Backups with smbtar *245*
